Chief of Police Richmond has sent notices to the Northwestern, Illinois Central, Great Western and Rock Island railroads that Western and Rock Island railroads that their trains, freight or passenger, must not block the street crossings on Main street and Broadway for more than five minutes at a time. This is as provided by the city ordinance and it is the avowed intention of the city authorities to enforce it. Complaint was made a few days ago that a treight train were left standing across iscondway on the Northwestern for fifteen infinites whife the locomotive was detached to do some switching elsewhere. Copies of the new ordinance prohibiting a greater speed than ten miles an hour for trains while passing through the city have been sent to the several railroads by Major Richmond.

CHANGE WATER ORDINANCE

Council Likely to Defer Time of Going Into VERDICT AGAINST SALOONMEN Effect Until April.

WOULD BE CONVENIENCE TO COMPANY

Bellef in Many Quarters that Company Will Accept the Cut in Rates Rather Than Engage in Expensive Litigation.

The city council is scheduled to meet onight, and it was stated yesterday that the question of amending the water rates ordinance so as to postpone the date of brought up. Several of the councilmen have expressed themselves as in favor of making this amendment, believing that it will not work any material disadvantage to the people. "The rates have been radically reduced and the waterworks company, in my opinion, is entitled to this little courtesy, at least," was the statement of one of the councilmen yesterday.

Although neither Manager E. W. Hart or George S. Wright, attorney for the waterworks company, has made any statenent to the effect. It seems to be the opinion among some of the members of he city council that the waterworks company, rather than plunge itself and the city into what might prove almost endless and costly litigation, would accept the rate ordinance, privided it did not go into effect until the begining of the next quarer, which would be April I. This, however, is merely the opinion of these counfilmen and is not authorized by any statement or intimation from either Manager Hart or Attorney Wright,

The city council realizes, it is said, that some agreement with the waterworks company must be had before long. It is con ceded that the city cannot at the present time acquire ownership of the waterworks plant by purchase, and that until it can the waterworks company is entitled to have a new franchise. One of the city officials, speaking of the matter yester-"In my opinion, if the waterworks company should elect to accept the rate ordinance, provided it did not go into effect until April I, there would be little r no opposition to the waterworks company being granted a new franchise. I believe the people would see the justice of it and I do not think there would be. any concerted opposition to a franchise when the question would be submitted to a

This evening is also the date set fo receiving and opening the bids for the work on Indian creek, which it is proposed to widen and deepen from Sixteenth avenue to Eighth street, The bids must be in the hands of the city clerk Zurmuchlen by noon today. The estimated cost of the work is about \$22,000, and the money will be provided by the several railroads having bridges across the creek and who will be materially benefitted by by the work.

queeial election."

in police court this morning.

Jury Awards Wife Damages Injury to Husband.

The district court jury in the \$10,000 dam age suit of Mrs. Alvina Nelson against Seth May, R. A. Filter, Chris Schultz and T. J. Griffin, four Council Bluffs saloon keepers, which went out Saturday evening, brought in a scaled verdict at an early hour yesterday morning. The verdict was reported to be in favor of the plaintiff and that the jury had awarded her damages in

the sum of \$1,300. Soren Nelson, husband of the plaintiff. was formerly section foreman for the Northwestern road at Crescent City. He came to Council Bluffs Sunday, August 6, and is said to have visited a number of saloons, including those of the four defendants, where he is alleged to have secured sufficient liquor to make him badly intoxicated. Walking home to Crescent that night in his drunken condition Neison lay down beside the tracks with his right arm over one of the rails. A train came along and after it had passed Nelson was minus his right hand and subsequently without a job. His wife then brought suit against the four saloon keepers whom she alleged had sold her husband the liquor.

A feature of the trial was the attempt the part of two bonding companies which were bondsmen for two of the defendant saloon keepers to evade responsibility on technicalities. One company moved for dismissal of the case as to it on the grounds that the description of the location of the saloon was defective in the bond, while the other sought dismissal on the ground that its local agent had not been shown to have authority to issue bonds for saloon keepers. As a result of the attempt of the bonding companies to evade responsibility in this case Judge Thornell has ordered that hereafter n saloon bond from a bonding company shall be approved unless it is shown that the agent issuing such bond has special and

definite authority to do so. The jury in the sult of W. S. Barnet against M. Marcus, which went out Satur day evening, also brought in a sealed verdict at an early hour yesterday morning. The verdict, it was reported, found for the plaintiff in the sum of \$52.75. Barnet sued for \$200 balance claimed to be due him for carpenter work on houses of the defendant in Omaha. Marcus resisted the claim, alleging the work was not up to

Uniform Text Books Favored.

County Superintendent of Schools O. J McManus says that advices received by him indicate that the proposition to adopt uniform text books throughout Pottawattamle county will carry at the forthcoming school election The question of the expense to the

school patron by a change of text books has been raised and on this point Superintendent McManus has this to say: The probabilities are that a change in text books can be brought about where it is necessary to make the systeem uniform without any additional cost to the taxpayer. It should be clearly seen that books can be had at a lower figure when the county is considered as a unit than by dealing with each school district. A company can much better afford to give a better proposition where it is compelled to make but one contract for the entire

clean, and the price lower than any other candy store in the city. O. C. Brown, cany manufacturer. We have 25c and 50c boxes.

Both Houses of Legislature Have Important Measures on the Calendar.

GILLILLAND RESOLUTION IN THE HOUSE

Senate Commences on the Primary Bill. Which Will in All Probability Provoke a Warm Contest.

(From a Staff Correspondent.) DES MOINES, Feb. 35 .- (Special.) -- According to the calendars of the senate and house, there will be more work next week than either house has had yet. It was expected that the pure food bill would make some work. When it came time to consider the measure on special order it was passed without a dissenting vote in either house and with no debate in the house and little in the senate. The Warren school bill and the Gilliand resolution, which took the greater part of the week in the senate, are now in the hands of the house and the resoution is on the calendar. The school bill is in the hands of the committee. The Gillilland resolution will come up early in the week. It is learned that some amendments will be offered. The Cummins people fear that an attempt will be made to so amend it that it will be limited to charges of bribery, which they claim the governor did not charge. The Cummins people will insist if it is amended at all that it be made broader and advice. stripped of what they are pleased to term

An important measure on the house calendar for Tuesday is the Darrah bill to permit cities to exceed the limit of indebtedness if it is for the purpose of buying or building water works systems. This will bring up the whole question of the indebtedness of cities

Following the Darrah bill the same day the bill from the senate requiring mulct petitions of consent to be circulated every five

years is on for special order. The Weeks bill for liquor inspections will also be one of the important measures con-

sidered in the house this week. In the Senate.

In the senate the important measure of the week is the Crossley primary election bill, which is on for special order for Monday afternoon at 2:30. The bill will be one of the most discussed of the session. There is no doubt but strong opposition will be entered against the bill. The Gillilland resolution, coming at the time it did, has complicated the situation somewhat. The Cummins people believe that sentiment for the primary bill is being made rapidly and contract, and filed a counter claim of \$180, are not disposed to press or hurry the bill any for that reason. They would welcome the investigation under the Gillilland resolution before action is taken on the primary bill, provided the investigation under the Gillilland resolution is taken early enough There are a number of other measures or the calendar in the senate, but none excent the Crossley primary bill for special order. It is possible that the entire time may be consumed with the consideration of this

measure. The action of the senate and house in voting to adjourn on next Wednesday till the Tuesday following will give the members of the legislature a chance to con sult their constituents before acting or the primary bill. The discussion of the bill. which begins tomorrow afternoon, will not be concluded before the time for the adjournment. Every member will go hom for the recess and can then consult his constituents on the subject.

The friends of the primary bill allege hat there will be a move on Monday from the opposition to offer a substitute measure which will be a county primary bill. They assert that the effort of the Blythe adherents will be to vote for this measure and then square themselves with their constituents by saying that they voted for a primary law. The Cummins people are planning to oppose the substitute and are rather caustic in their criticism of the move to introduce as a substitute a measure which the general body has not seen and is not prepared to meet. They believe, however, they will be able to kill the substitute and keep the fight directly on the Crossley bill.

For Experimentation. A bill offered by E. W. Weeks in the louse and which will be recommended for

attempted to cross the car tracks to get passage by the committee on agriculture. appropriates \$95,000 of the state funds for experimental work and yet it has hardly attracted attention. The bill probably will not become law because of the large apson jumped out, but Hamm, who was propriation attached to it, but it has the hearty recommendation of the committee and the committee members consider it such an important measure that they say the responsibility of killing it off must rest with the house. The bill plans a gigantic plan for experimental farm work We are going to move, and in order to re- It provides that the State college shall duce our stock we are going to give a 25 carry on a comprehensive system of agriper cent discount on framing, framed pic- cultural extension work, giving instruction tures, wall paper, brushes, etc., for cash in all parts of the state in corn and stock only. Council Bluffs Paint, Oil and Glass judging at county fairs, farmers' institutes and clubs; giving short courses at various places throughout the state in all lines of farm work. The bill elaborates in detail that experimental work shall be done with the soil of the various ounties of the state and that maps shall be prepared showing the quality of the soil and the crops best suited to it. It provides that the presidents of the Corn Belt Meat Producers' association, the State Dairy association, the Improved Stock Breeders' association, the State Grain Dealers' association and other similar organizations shall act as an advisory board on

the methods of expending the money. Another Soldier Appeal.

There is to be another appeal to the supreme court under the soldiers' preference law, the next appeal to be on the scope of the law and not touching its constitutionality. In Ciay county D. C. Palmer was an applicant for a position as janitor of the court house and claimed the position under the old soldiers' preference law. Judge Bailie held that it was not only necessary on the part of the plaintiff corn, 3 cans for Se; Maryland Beauty he was equally competent to fill the pothat he was an old soldier, but also that sition as the present incumbent. Palmer claimed that all that was necessary for him to do was to prove that he was a soldler of the civil war. On this point it is to be appealed to the supreme court.

Commissioners Responsed. Governor Cummins has reappointed H. R. Wright as state dairy commissioner and E. D. Brigham as state labor commissioner. The appointments will go to the senate Monday

Planning for New Law. State Dairy Commissioner Wright is al-

ready planning for the changes that will be necessitated by the new pure food law, which goes into effect July 4, and by which he will become dairy and food commissioner. The law requires that there shall be an expert chemist at a salary of \$2,000 and laboratories shall be provided and bulletins issued from time to time. The laboratory is bothering Mr. Wright, for the reason that there is no available space. The dairy commissioner occupies one large room in the basement of the state house and as all the other available office re are occupied plans are being made to oc-

cupy quarters in the storage building across the street from the state house north for

the laboratory. Lobbyists More Secretive. Since the introduction of the Gillilland

esolution the middle of the week it is recognized that the railroad lobby is becoming more secretive. It is learned now that the evidence in the hands of Governor Cummins on which he bases his assertion that the "railroads are doing all that money and organization can do to defeat the primary law is in the form of letters which are alleged to have been written by the railroad lobbyists to various persons about the state. These letters have been sent by the persons receiving them to the governor and in them are disclosed the plans and the determination to defeat the primary bill. Since the publication of the Gillilland resolution these let ters have been coming in largely increased numbers. Prominent members of the lobby have been about the state house since the offering of the Gillilland resolution, but not to the extent as formerly. It is generally recognized by members of houses that there are not as many lobbyists attending this session as in former years, because of the fact that there are no measures affecting railroads before the legislature. For this reason the Cummins people assert there is less excuse for any

Spanked Boy Causes Trouble. CALLENDER, In., Feb. 25 .- (Special.) Because Prof. Grimes of the public schools of this city spanked the 12-year-old son of Peter Madison there is trouble and the school district is divided. As soon as spanked the boy fled for home and was soon back with his parent, who entered while the professor's back was turned and began plying a horse whip. The professor knocked him down and dragged him from the room and then both left to seek legal

Break Ground in the Southwest This Spring

The prospects were never brighter than at present. Each season a new record is made in production and output. Farming land is advancing in price as steadily as it produces. Very naturally, then, the time for action -the time to break ground, is now, while lands can be secured for a small fraction of their coming value. The climatic conditions of the Southwest should be taken into consideration, also. The winters are short and the climate a happy mean between the extremes of the North and South.

To enable you to investigate the Southwest and to satisfy yourself that they are all they are claimed to be, the Rock Island will sell on the first and third Tuesdays of each month, greatly reduced tickets to Southwestern points. If you are not satisfied with your present conditions and prospects and want to get "out doors" for an active life, for a successful career in the NEW. SOUTHWEST, write me today.

JOHN SEBASTIAN,

Passenger Traffic Manager. Rock Island System CHICAGO.

Four Connecting Offices on the Fifth Floor

These offices are particularly suitable for anyone wishing a suite of rooms. They can be rented in suites of two, three or more rooms or singly. There is one large southeast corner room with a vault, two splendid rooms facing Farnam street and the other smaller room facing Seventeenth street on the fifth floor of

THE BEE BUILDING

These are the remaining offices not rented which are now occupied by the Updike Grain Co., who will move to the first floor as soon as the business office of The Bee is transferred to the corner room on the ground floor.

It is very seldom that an opportunity occurs to accommodate tenants needing large space and handsome offices.

The service in the Bee Building is just a little better-at least-than in any other building. Night and all day Sunday elevator service-steam heat-electric light-water-and adequate janitor service-all included in the rental price. Apply to
