Question after question were asked by Mr. Morgan and the witness refused to answer.

"The case of locklaw seems to be getting worse," Mr. Morgan said. "It is the most remarkable case I ever encountered. Again declining to answer any questions on the subject, the witness was told by Mr. Morgan that he was not shutting out any information. "Then why are you asking these ques-

Again Declines to Answer

into between the secretary of war and the republic of Panama, particularly the part he played in the transactions, "Is this not covered by your professional retleence?" asked Mr. Morgar

"No, sir," said the witness, "and I hope may say this finally." "No, we will return to it again if I fit," said Mr. Morgan. "Very well, you seem to enjoy it, and it

is the first vacation I have had in a long time," replied the witness, with ill-concealed sarcusm. Mr. Cromwell then explained in detail

the coinage system on the isthmus, and for the first time since he went on the stand was permitted to proceed without interruption. In the meantime Mr. Morgan was studying the records. As to Monetary Agreement.

Mr. Cromwell said his activity in this monetary agreement was by reason of an invitation from the secretary of war who knew of his familiarity with an agreement the Panama Canal company had had with the republic of Colombia.

The witness declined to answer any hypothetical questions concerning his relations with the railroad company prior to the transfer of the road to the United States.

Mr. Morgan insisted upon a ruling as to whether the witness should be compelled

Those who voted against the witness being compelled to answer any questions not specically stated, were: Kittredge, Dryden, Ankeney and Millard. The vote to support Mr. Morgan's position were: Morgan and Taliaferro. Mr. Morgan told the witness to resume and treated the subject as if he had expected to be overruled. Mr. Cronwall Cromwell continued the discussion of the nonetary matter and great interest was manifested in the subject after he said he had drawn the monetary agreement.

Adjourns Until Tomorrow.

The monetary agreement, said Mr. Cromwell, was made for the benefit of the Panama railroad and the Isthmian Canal commission and the interest of the Republic of Panama was only nominal. Senator Simmons asked Mr. Cromwell if it be true that he had received no salary

from the Republic of Panama, what had induced him to serve the republic as fiscal "Because of my broad instinct of good vice. That of Lofland has been accepted nature, which has prompted me to do so much for this cause, and for the further

reason that I have more money than I know what to do with, unfortunately," said Mr. Cromwell. At 12 o'clock Mr. Morgan asked for an adjournment until 2 p. m., but he was overruled. He then went to the senate chamber and other members of the com-
