

DUN'S REVIEW OF TRADE

Prospects Encouraging for Continued Activity in Commercial World.

LITTLE IDLE MACHINERY IS REPORTED

Prompt Response of Operators and Miners to President's Request is an Encouraging Feature.

NEW YORK, March 2.—R. G. Dun & Co.'s Weekly Review of Trade to-morrow will say:

Prospects are most encouraging for continued activity in the commercial world. Seasonable merchandise is moving into consumption more freely and preparations for a large spring trade keep shipping departments busy.

Manufacturing plants report little idle machinery except in the iron and steel mills, where the heavy output has exceeded demands for a time. Probably the best news of the week was the prompt response to President Roosevelt's pacific letter to the contesting coal interests.

Another favorable report estimated that contemplated new buildings in this city alone would consume 30,000 tons of structural steel, while national prosperity is evidenced by the various state reports showing noteworthy gains in savings bank deposits.

Dividend distributions in March will also largely exceed last year's and foreign commerce at this port for the last week showed gains of \$58,490 in exports and \$1,238,475 in imports as compared with 1905.

Commercial failures this week in the United States are 236, against 215 the corresponding week last year. Failures in Canada number 41, against 18 last week, 23 the preceding week and 25 last year.

CAUSE OF PRIZE FIGHTER'S DEATH

Surgeon Says It Was Due to Hemorrhage of Brain Caused by Blow.

SAN FRANCISCO, March 2.—Physicians have been advised in explanation of the death of Harry Tompkins, better known as "Foxy," the prize fighter, who died in a Grant avenue bath house yesterday, nine hours after a grueling battle with Frankie Neil, "the dead man's" relatives charge that he was poisoned. His trainers think he died of epilepsy, and autopsy surgeon Kettle disagrees, saying that death was due to hemorrhage of the brain, the direct result of a blow or fall.
