Open Publicity The Best Guaranty of Merit.

" TAKING TIME BY THE FORELOCK."

All observing people must have noticed a growing sentiment in this country in favor of using only put-up foods and medi- and honest dealing with the sick and afcines OF ENOWN COMPOSITION. It is but natural that one should have some interest tion for weak, debilitated, nervous, "runin the composition of that which he is ex- down," pain-racked women, and Dr. Pierce's pected to swallow, whether it be food, drink or medicine. This sentiment has resulted in the introduction in the Legislatures of many of the States, as also in the Congress of the United States, of bills providing for the publication of formula or ingredients on throat, bronchia, or other mucous passages, wrappers and labels of medicines and foods put up for general consumption.

Recognizing this growing disposition on the part of the public generally, and satisfied that the fullest publicity can only add to the well-earned reputation of his proprietary medicines, Dr. R. V. Pierce, of Buffalo, upon its wrapper a badge of honesty in the N. Y., has " taken time by the forelock," as full list of ingredients composing it-printed it were, and is publishing broadcast, and on in plain English. This frank and open each bottle wrapper, a full and complete list publicity places these medicines in a class of all the ingredients entering into his med- all by themselves. They cannot be classed icines, " Golden Medical Discovery," the as patent nor secret medicines for they are popular liver invigorator, stomach tonic, neither-being of known composition.

his "Favorite Prescription" for weak, over- the afflicted into his full confidence and lay worked, broken-down, debilitated, nervous, all the ingredients of his medicines freely invalid women.

CRITICS DISARMED.

This bold and out-spoken movement on ical writers of all the several schools of the part of Dr. Pierce, has, by showing ex- practice, as cures for the diseases for which actly what his well-known medicines are these medicines are recommended. Therecomposed of, completely disarmed all harp- fore, the afflicted do not have to rely alone ing critics who have heretofore unjustly at- upon Dr. Pierce's recommendation as to tacked them. A little pamphlet has been the curative value of his medicines for cercompiled, from the standard medical author- tain easily recognized diseases as is the ities of all the several schools of practice, case with all other medicines put up for showing the strongest endorsements by, like purposes.

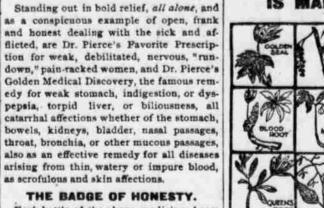

leading medical writers of the several ingredients which enter into Doctor Pierce's medicines and recommending these ingredients for the cure of the diseases for which Dr. Pierce's medicines are advised. A copy of this little booklet is mailed free to any disinterested endorsement of scores of one desiring to learn more concerning the eminent medical practitioners and medical valuable, native, medicinal plants which writers of wide renown. These numerous enter into the composition of Dr. Pierce's unqualified endorsements, from men whose medicines. A request, by postal card or writings are regarded as authorities in each letter, addressed to Dr. R.V. Pierce, Buffalo, of the several schools of medicine, are the N.Y., will bring this little booklet by return

WHAT **DR. PIERCE'S GOLDEN MEDICAL DISCOVERY** IS MADE OF. ITS INGREDIENTS ARE:

GOLDEN SEAL ROOT (Hydrastis Canadensis),

QUEEN'S ROOT (Stillingia Sylvatica),

STONE ROOT (Collinsonia Canadensis),

BLACK CHERRYBARK (Prunus Virginiana),

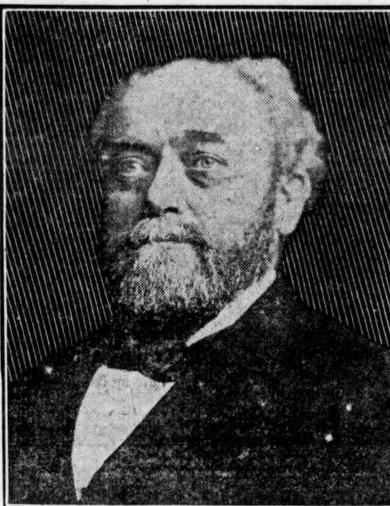

BLOODROOT

(Sanguinaria Canadensis), MANDRAKE ROOT

(Podophyllum Peltatum), CHEMICALLY PURE GLYCERINE.

PURE WATER,

BORATE OF SODA, a very small quantity, (about one grain to the dose of the "Discovery").

"In many derangements of the urinary apparatus we have found the Hydrastis to answer an admirable purpose. In chronic one of the most reliable agents of cure. As

a tonic in the convalescing stages of fevers, pneumonia, dysentery, and other acute diseases, the Hydrastis is peculiarly appropriate. It promotes digestion and assimilation, obviates constipation, and gives tone to the depurating (cleansing) functions generally."

Dr. COE continues: "We would here add that our experience has demonstrated the Hydrastis to be a valuable remedy in bronchitis, laryngitis, and other affections of the respiratory organs."

Prof. HOBART A. HARE, M. D., University of Pennsylvania, says of Golden Seal : "Of service in chronic catarrh of the stomach and bowels following abuse of alcohol; a tonie after malarial fever. Has a distinct anti-malarial influence. Good in all catarrhal conditions, as uterine catarrh, leucorrhoea, etc. Is a curative agent in chronic dyspepsia."

Prof. LAURENCE JOHNSON, M. D., Medical Department of University of City of New York, says of Golden Seal : " Has been used as a substitute for quinine in treatment of intermittents (fevers), and in convalescence from acute diseases. Exerts a specially tonic influence upon mucous surfaces and upon the gall bladder."

REMARKS. After reading the foreoing extracts who can doubt the great flicacy, in a long list of diseases, of "Golden Medical 'Discovery" one of the principle ingredients of which is Golden Seal (Hydrastis). In studying the adaptability of "Golden Medical Discovery" to the ours of disease of the different organs of the body, we may safely rely upon it to

produce all and more than all the good results to be experienced from the use of Golden Seal root or its combined, active medicinal principles, since it is rich in all these, and besides their action is greatly enhanced by their combination with glycerine as well as with other most valuable medicinal agents.

BLACK CHERRYBARK (Prunus Virginiana).

Prof. ROBERTS BARTHOLOW, M. D., says: Wild Cherrybark is an excellent stomach tonic; it has long been held in great esteem creases the assimilation of food. By these of the generative organs." Prof. KING says, in domestic practice as a remedy in ca-means the blood is enriched. tarrhal states of the bronchial mucous mem. PURE WATER,

BENZOATE OF SODA (about one-fifth grain only to the teaspoonful of "Prescription"),

BICARBONATE OF POTASH (about one-fourth grain to the teaspoonful)

The active medicinal principles of the several ingredients, or native, American cots employed, are extracted from each ingredient by the use of chemically pure glycerine of proper strength and with the aid of special apparatus and appliances devised and built especially for carrying on the delicate and exact processes employed. These processes cost Dr. Pierce and his assistant chemists and pharmacists much study and a long series of tedious experiments, extending over a period of several years, and finally resulted in a most period pharmaceutical compound -- now known as Dr. Pierce's Favorite Prescription.

> UNICORN ROOT (Helonias Dioica).

The American Dispensatory (prepared by Professors KING and SCUDDER), says "Helonias, or Unicorn root, has been found very beneficial in dyspepsia, loss of appetite, and for the removal of worms. It is more especially applicable in indigestion, From well recognized authorities of dyspepsia and mal-assimilation, where the trouble is reflex from, or associated with, wrongs of the female reproductive apparatus. Such digestive disturbances as depend upon uterine and ovarian irritation, or upon lack of uterine activity, in chlorolic anemia Prof. JOHN M. SCUDDER, M. D., says : "It (thin, or watery poor blood), are benefited stimulates the digestive processes, and in- by it. exclusively in manufacturing his medicines. Some of these medicinal roots have, since Dr. Pierce first commenced to use them, advanced so in price, that they may be cultiwated with great profit by our farmers. This drop of alcohol and preserving them unimis especially true of Golden Seal root, which paired in any climate for any length of time. enters into both the Doctor's "Golden Medical Discovery " and his " Favorite Prescription." It now brings upward of \$1.25 a and experiments, extending over several pound, although formerly selling at from years. With the use of chemically pure 15 to 20 cents a pound. Many tons of this glycerine of just the right strength, and in Doctor Pierce's Laboratory.

SAFE AND RELIABLE.

A consideration of first importance in deciding what medicine to take for the cure of any lingering or chronic ailment is as to its harmlessness or inability to do injury to the system. "Better suffer the ills we have than fly to those we know not of."

So many "Cheap-John," give-away, "free trial bottle " medicines, made up of cheap ingredients of doubtful and often harmful , character, are being offered to the afflicted, under the most extravagant statements as to their marvelous curative properties, that it behooves those in need of safe and reliable medical treatment to consider carefully what they take in the way of medicine, otherwise, lasting injury instead of relief and cure is quite likely to follow.

MATURE'S LAWS.

In most diseases of long standing, known as chronic diseases, no matter how good the treatment in order to be effective and produce a permanent cure, medicine most be perseveringly used for a considerable period of time. Hence, the great importance of employing such medicine as will act in harmony with Nature's laws, and which will be eliminated or cast out of the human system when it has done its curative work, through the natural emunctories -the lungs, skin, kidneys and bowels; or, in just the same way as food, or that portion of it which is not assimilated and made a part of the body, is cast out as refuse.

Hence, it is, that vegetable medicines, those made up from the roots of medicinal plants, act more in harmouy with Nature's laws than do mineral medicines ; they do their work by aiding and encouraging the natural functions of the several organs of bottles for experimental work. Our medithe body and then pass out of the system cines have a well established value, can be positive, curative action in all stonic, or through the natural emunctory channels, had at all medicine stores at reasonable weak, states of the stomach, accompanied leaving no harmful effects behind. This is prices, are of known composition and well not true of medicines made up with a attested curative potency.
