GRAIN AND PRODUCE MARKET

Weakness Runs Through the Entire Cereal List.

WHEAT TAKES THE TOBOGGAN SLIDE

Jones' Estimate of Farm Reserves is Bearish Feature, Causing Sale by Shorts—Corn Weak—Oats Decline Fractionally.

OMAHA, March 3, 1906.

It was a sick market, declining steadily with scarcely a reaction, closing at the bottom. The Jones report estimates of farm reserves was a big bear card, showing a total of 227,000,000 bushels, the largest on record. Short selling began afresh and liquidation was renewed. Seasonable weather throughout the belt removed the only possible buying incentive. Precipitation was general excepting in Omaha and heaviest through the Ohio valley. There were no local cash transactions.

Corn weakened on aggressive short selling by successful wheat bears. The large estimate of wheat reserves drew attention to the probability of large reserves of coarse grains and this with higher estimates of the Argentina exportable surplus constituted the selling influences. The cash market was ½c lower.

Oats showed rather a firm tone and declined only fractionally, despite the weakness elsewhere upon the floor. The cash prices were ¼@⅜c lower.

Baltimore exporters bought 225,000 bushels of corn at Omaha yesterday.

Liverpool closed ¼@⅝d higher to ⅛d lower on wheat and ⅛@⅜d higher on corn.

Broomhall estimates world's wheat shipments for Monday at 10,400,000 bushels. Australian wheat shipments this week were 1,456,000 bushels, against 880,000 bushels last week and 1,880,000 bushels last year.

Minneapolis has bought 460,000 bushels Nebraska wheat, to be taken to that market.

Primary wheat receipts were 417,000 bushels and shipments 118,000 bushels, against receipts last year of 444,000 bushels and shipments of 562,000 bushels. Corn receipts were 508,000 bushels and shipments 451,000 bushels, against receipts last year of 720,000 bushels and shipments of 271,000 bushels. Clearances were 111,000 bushels wheat, 21,000 barrels flour, 462,000 bushels corn and 34,000 bushels oats.

Bartlett wired to W. C. Sunderland: "Through this season the 200 or 300 flour mills in New York state have run entirely on state wheat. Buffalo wires if navigation opens by April 1 the millers there will have more wheat than they can dispose of. Of five mills in Buffalo, three are shut down."

Reports from Kansas vary from those of yesterday. They say there is no snow in western part and little snow and high winds elsewhere.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, March 3.—A sharp decline in the price of wheat today followed a raid by the bears on the local market. At the close wheat for May delivery was down 2¾c, corn was down ⅝c, oats were off ¼c and provisions were a shade to 10c higher.

Prices of wheat were on the down grade from the start to the finish of the session. Early in the day pit traders and commission houses were moderate sellers, but later the selling became general and a large volume of business was transacted. Except for covering by shorts the market was practically without support and unable to withstand the continued liquidation by discouraged holders and persistent short selling by bears. The market closed extremely weak, with prices only slightly above the lowest point of the day. May opened a shade lower at 80c to 80¼c, @80⅝c, declined to 78¾c and closed at 78¾c. Clearances of wheat and flour were equal to 250,000 bu. Primary receipts were 417,000 bu., compared with 444,000 bu. a year ago. Minneapolis, Duluth and Chicago reported receipts of 326 cars, against 408 cars last week and 322 cars a year ago.

The decline in wheat was chiefly responsible for a weak tone in the corn market. Cash houses and outside interests were the chief sellers, and buying was mainly by shorts. The market closed weak at about the lowest point of the day. May opened a shade higher at 48¾c, sold off to 47¾c and closed at 47¾@47¾c. Local receipts were 306 cars, with 3 of contract grade.

Oats were weak, in sympathy with wheat and corn. Much long property was thrown on the market and shorts took advantage of existing conditions to put out new lines. A decline of ⅛@⅜c in the price of cash oats increased the bearish feeling. May opened unchanged to a shade higher at 29¾@29¾c, declined to 29¼c and closed at 29¼c. Local receipts were 267 cars.

Despite the weakness of grain, provisions were firm. There was an active demand by local packers, but offerings were light. A 10c advance in the price of live hogs constituted the chief support of the market. At the close May pork was up 10c at $15.47½. Lard was a shade higher at $7.80. Ribs were up 5c at $8.15@8.17½.

Estimated receipts for Monday are: Wheat, 10 cars; corn, 263 cars; oats, 226 cars; hogs, 50,000 head.
