AFTER SCALP OF POLLARD

Lancaster County Politicians Laying Plans to Capture Nomination.

NEED THE HELP OF ONLY ONE COUNTY

Dakota County Woman, Who Served Term in Penitentiary, Bound to Return to Her Former Quarters.

(From a Staff Correspondent.) LINCOLN, March 11.—(Special.)—While the politicians of Lancaster county are making and unmaking governors and United States senators they are by no means overlooking those offices which some nearer home, notably the selection of a congressman for the first district. At this time the office is held by E. M. Pollard, who was elected for one year, the unexpired term of Senator Burkett.

Congressman Pollard is liable to have opposition when he bids up for a re-nomination. In other words, the powers that be in Lancaster county have decided that the "binky dink" when the time comes, to keep Mr. Pollard from losing all interest in life until his time is out, the politicians have given out the impression that he will have no opposition and that he will be accorded the support of Lancaster county.

With the aid of another county in the district Lancaster county can nominate the candidate and the tieup will be made if possible there is no doubt.

Bound to Break Into Prison. The most peculiar case that ever came before the officials of the penitentiary and the insane asylum is that of Mrs. Escelle Wurzbarger of Dakota county. The woman was yesterday afternoon sent to the insane hospital after trying vainly to break into the penitentiary.

Mrs. Wurzbarger was sentenced to five years in the penitentiary some years ago for shooting with intent to kill, when the woman was shot in the back by her husband and begged Warden Bender to keep her in prison. This the warden refused to do and after being turned out in the cold, cold world the woman went to the warden who she would break into prison even if she had to commit murder to accomplish her purpose.

Beatrice. Joseph S. Rutherford and others have announced their intention to file a bill of complaint against the Mutual Reserve Life Insurance company to recover the amount of \$100,000. It is said \$50,000 will be needed to sink a shaft deep enough to determine the possibility of recovering the balance.

POLICE THINK TWO GUILTY

Officers in Three Cities Believe Flury and Clarke Assailants Identical.

CLARK AND WARREN THE SUSPECTS

Wounded Conductor Still Battling With Amazing Vitality to Cheat the Bullet of Possible Assassin.

Omaha, South Omaha and Lincoln police are now making a search for their convictions that Warren, alias Wain, and Clark, two colored men being held for the shooting of Edward Flury, the Omaha street car conductor, last Wednesday night at Albright, are guilty. Johnson is not now believed to be the perpetrator.

Johnson is in the city jail in Omaha, and the other two are in Lincoln, where they were taken when arrested in South Omaha for fear sentiment might develop into summary action without the offices of the law.

Not only does the belief still obtain as to their guilt in the Flury case, but the opinion that Warren, or Wain, and Clark were implicated in the shooting of Frank N. Clarke, the Omaha banker, some nights before Flury was shot, has gained in weight. Detective Donohoe of Omaha returned yesterday from Lincoln, where he conversed with the two prisoners there, and says from their conversation he believes them guilty of the Clarke assault.

When the time is ripe they will be brought to Omaha for the purpose of identification by Warren, alias Wain, and Clark, who are still languishing in his condition at Clarkson hospital.

Shields Thinks Name Thing. Captain Shields of the South Omaha police department, which made all three captures in the Flury case, is still in Lincoln. He, too, shares the opinion of the guilt of the two men in the two cases.

Backache, "The Blues"

Both Symptoms of Organic Derangement in Women—Thousands of Sufferers Find Relief.

How often do you hear women say: "It seems as though my back would break," or "Don't speak to me, I am all out of sorts?" These significant remarks prove that the system requires attention.

Backache and "the blues" are direct symptoms of an inward trouble which will sooner or later declare itself. It may be caused by diseased kidneys or some derangement of the organs. Nature requires assistance and at once, Lydia E. Pinkham's Vegetable Compound instantly asserts its curative power in all these peculiar ailments of women. It has been the standby of intelligent American women for twenty years, and the best judges agree that it is the most universally successful remedy for woman's ills known to medicine.

Read the convincing testimonials of Mrs. Holmes and Mrs. Cotrely. Mrs. J. C. Holmes, of Larimore, North Dakota, writes:

"I have suffered everything with backache and female troubles—I let the troubles run on until my system was in such a condition that I was unable to do about, and then it was I commenced to use Lydia E. Pinkham's Vegetable Compound. It has done me so much good that I would have saved I should have taken it months sooner—for a few weeks' rest made me well and strong. My backaches and headaches are all gone and I suffer no pain at my monthly periods, whereas before I took Lydia E. Pinkham's Vegetable Compound I suffered intense pain. Mrs. Emma Cotrely, 109 East 12th Street, New York City, writes:

"I feel it my duty to tell all suffering women of the relief I have found in Lydia E. Pinkham's Vegetable Compound. When I commenced taking the Compound I suffered everything with backaches, headaches, and female troubles. I am completely cured and enjoy the best of health, and I owe it all to you."

When women are troubled with irregular, suppressed or painful periods, weakness, displacements or ulceration, that bearing-down feeling, inflammation of the female organs, backache, bloating (or flatulence), general debility, indigestion and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all gone" and "want-to-be-left-alone" feelings, blues and hopelessness, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other medicine has such a record of cures of female troubles. No other medicine in the world has received this widespread and unqualified endorsement. Refuse to buy any substitute.

FREE ADVICE TO WOMEN. Remember, every woman is cordially invited to write to Mrs. Pinkham if there is anything about her symptoms she does not understand. Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant before her decease, and for twenty-five years since her advice has been freely and unreservedly given to every ailing woman who asks for it. Her advice and medicine have restored to health innumerable women. Address, Lynn, Mass.

BLOCK FOR NORTHWESTERN

Real Estate Costing Quarter of Million Sold for New Freight Depot.

DEAL IS ON, BUT NOT YET CLOSED. Property is Bounded by Thirtieth, Fourteenth, California and Webster Streets—Shales Makes the Big Trade.

Relieving the interest in the location of the Union Pacific headquarters is that shown in the big real estate negotiations which are in progress in the north part of the city's business district, involving property to the amount approximately of \$500,000.

The purchase is being made through the D. V. Sholes company for the Chicago & Northwestern Railway company, which desires more tracks in the north part of the city, especially in need of a site for a new freight depot. The property involved consists of four city blocks, included between Thirtieth and Fourteenth streets and between California and Webster streets. Option have been secured on practically all of the four blocks and a large portion of the others. The block between Webster and California streets brought \$55,000, an average price per lot of \$1,000. There were twenty-seven houses on this block.

In most cases the former owners of the buildings will be allowed to retain them on the condition that they will move them at once. The company desires to get the property cleared off that it may be put on grade as soon as possible for the expansion of tracks from the Webster street station.

Gordon M. Lees, who is in the employ of the Sunderland Bros. company, allowed his name to be used in the purchase of many of the lots. Walter B. Jardine bought one \$600 lot in the northeast corner of Fourteenth and California streets.

Trachery May Hurt Deal. By reason of the fact that the editor of a local paper broke his part of a promise made by all three dailies to Mr. Sholes and published the story of the deal Sunday morning, Mr. Sholes is fearful of trouble in securing the property which has not been already tied up. Mr. Sholes is not ready to admit that the property is for the railroad, but that such is the case is generally understood.

The story given out by the Northwestern to the papers to the effect that it was remodeling and enlarging the old freight depot on Webster street is said to have been a ruse to lend credit to the report that the road intended to build. It is now understood the Northwestern has no intention of enlarging the old depot, but that it will erect a large modern building farther south.

Now the question arises as to what will be done with the strip of ground a block wide at Davenport street and a half block wide at Webster street, between the Northwestern purchase and the Illinois Central tracks, running north and south near Twelfth street. There is said to have been considerable inquiry of the property holders there as to whether they would sell. Between the tracks of two roads, the property becomes doubly valuable for trucking.

Hooper Firm Says Big Tract. A large tract of land just west of Fort Omaha has been bought by an Indianapolis firm which will plat it and make permanent improvements and then place it on the market after the custom in vogue in the east. The improvements to be made will include street paving, guttering, curbing, cement sidewalks, sewer, water and gas. The ground will be laid out by a landscape expert and set with shade trees according to its natural contour and topography. The same firm has secured an option on a large part of the south block of Elliston Park Place recently platted and put on the market by Charles E. Williamson company. Representatives of the firm are expected here soon to begin active operations in the Union Pacific for headquarters site. If it is accepted the present bank building will have to be torn down as it is not large enough for the purposes of the railroad. It is urged in favor of this site that it is centrally located, being neither too far up on the west nor far down on the east. The Chicago Northwestern is now using a large part of the bank building.

ventor of the stamp, built a submarine boat before he attempted to navigate the waters of the Hudson with the aid of his old-fashioned, queerly constructed, double-head steamer, and further than that, Fulton gave the same name to his submarine boat as that known by Jules Verne, namely, the Nautilus.

Napoleon also had his attention attracted to this method of navigation beneath the surface, but Napoleon also indulged breech-loading firearms, and it was fifty years after that great Corsican died on the little island of St. Helena before breech-loading firearms came into general use, and it was nearly a hundred years after his death before submarine navigation received any serious attention in this country, at least, but now it seems that the committee on naval affairs has awakened to the importance of the bill, and it is now necessary to hurry the design will be authorized in the coming naval appropriation bill.

DEATH NOTICES.

Thomas E. McKenna. DENVER, Col., March 11.—Thomas E. McKenna, managing editor of the Rocky Mountain News and Denver Times, died last night at a hospital in this city of heart disease, aged 65 years. He was forced by failing health to give up his newspaper work about two
