GOVERNOR WILL NOT RETRACT. Goes Home to Prepare Answer to Gilliland Resolution.

Governor Cummins, who during his stay in Council Bluffs was the guest of Leonard Everett, returned to Des Moines yesterday morning. He was anxious to get home to prepare a statement in answer to the resolution introduced by Senator Gilliland calling upon the governor to prove his charges that the railroads had worked to kill the primary election bill.

Governor Cummins stated that he had no intention of retracting anything he had said, but will in his reply deny that it had been his intention to impugn the integrity of any member of the legislature. He will insist, however, that his assertions relative to railroad activity were based on facts in his possession.

DES MOINES, March 15.—(Special.)—Under special order in the senate today on consideration of the bill creating a board of regents for state educational institutions, Senator Whipple declared that the lobby had been the strongest he had even known during his term of office, and attacked the financial management of each of the state educational institutions. He took up each institution and showed the enormous increase in expenditures out of proportion to gain of students. Senator Whipple claimed it was probably too late to correct the error of having two engineering schools, one at Iowa City and one at Ames, but said within a few weeks the State university has established a school of forestry that should be at Ames, and the Agricultural college had established a school of journalism that should be at the State university. He asserted the only correction was in a single word, the senate adjourned with Senator Whipple retaining the floor.
