In connection with the mass meeting Sunday the general committee has issued which he had adopted as his home, Mr. grave-a monument that will stand the home. Wallace Benjamin, room 1, First Nathe fellowing appeal

The time for the big Young Men's Christian association mass meeting draws near, and the nearer it draws, the more interest there is manifested in this grand movewillingness on the part of the people

The willingness on the part of the people to lend a helping hand toward boosting the project, has been a source of a great deal of satisfaction to the general committee. The subject is becoming an all-important one, and is causing much comment in homes, shop and street, which is the best possible way to advertise. It is hoped that every person in Council Bluffs, both young and old, who know of the movement, will take it up and help to toss this great subject from tongue to tongue until no man can say: "I did beip to toss this great subject from tongue to tongue until no man can say: "I did not know of such a movement." Every-body tell each other about it and do all he can in the advertising way and in a financial way, when the time comes; and in due time. Council Bluffs will be the possessor of an institution to which her people can point with pride for years to

Governor Cummins. In referring to the Young Men's Christian association, never spoke more truly than when he said: "There is no ally in good government more effective and persistent, no agency more helpful in keeping young men from wickedness, nothing that does more to help this country on to a bright destiny than the organization I have named. Every dollar you invest in it will return to you many times. It is a great deal better to invest a dollar in this institution than to spend the money for employing another policeman to arrest evil doers, or another judge to punish them."

And right here are referred to that part of Mr. Emmet Tiniey's address before the Commercial club, where he said with reference to the Young Men's Christian association: "It occurs to me that in our advocacy of that which will contribute to our municipal upbuilding, we have overlooked one of the most important factors, that of providing for the character building of our young men."

Is not this true? Let us not be guilty of this neglect any longer, but unite our Governor Cummins, in referring to the

that of providing for the character build-ing of our young men."

Is not this true? Let us not be guilty of this neglect any longer, but unite our forces and give to the boy and young man a foundation on which to build his char-acter, and let that foundation be a Young Men's Christian association and a beautiful building for its home.

Mr. Tinley is fast becoming recognized one of the leading orators of this section of the country and his effort last night before a congenial gathering of his brother Elks only added to the prestige he has already attained.

The program offered was a decidedly varied one, there being a number of stunts by several artists from the local vaudeville houses, music by the Elks quartet and as an innovation a four-round boxing match for points between Haitch Smith, a colored lightweight, and "Kid" Campbell, white. Campbell was given the decision after pretty exhibition of sparring.
