## DUN'S REVIEW OF TRADE

Tenor of Most Commercial Reports Continues Favorable.

LABOR SITUATION IS CLEARING

Record Breaking Sales of Leather, Steel and Lumber—Big increase in Exports.

NEW YORK, March 16.—G. Dun & Co.'s Weekly Review of Trade tomorrow will say:

Wholesale conditions are maintained in commercial channels, the tenor of most reports is still favorable, and consequently little anxiety is felt regarding the labor situation, which is generally held to be clearing, calling for much capital and giving employment to many wage-earners. Seasonal weather conditions are still favorable for higher wages after this month, and the general prosperity of the winter is believed to assure a very large trade in spring wearing apparel. Jobbing houses have been enabled to make shipments with unusual promptness owing to the manufacturers' facilities and few freight blockades that resulted from an exceptionally mild winter. Some backward retail trade in overhauls and kindred lines was made up by more reasonable weather in many sections of the country during the past week. Manufacturers returns from the leading industries continue favorable, the week's feature being record-breaking sales of leather, while the steel mills and iron furnaces operate at full capacity, the demand for lumber exceeds the supply and glass factories are preparing to advance quotations. Exports of farm staples in February exceeded last year's by \$25,000,000, or about 4 per cent, and the movement of foreign commerce at this port for the last week shows gains of \$1,328,438 in exports and \$1,182,137 in imports as compared with the same week in 1905. Heavy gains for the first week of March were 8 per cent larger than last year's. Although there is no evidence of increased activity at the principal centers and factories, the primary markets for cotton goods begin to exhibit signs of weakness.

Somewhat quotations no longer prevail, packer hides, large transactions having been effected at pronounced concessions. New England footwear manufacturers report only a moderate volume of new business.

Address this week to the following: United States, against 260 last year, and 34 in Canada, compared with 1905.

## SPORTS 'A' DAY.

### EVENTS ON THE RUNNING TRACKS

Miller Pulls Judge Nolan and Narrowly Escapes Violence.

NEW ORLEANS, La., March 16.—Steep-placed Jockey, E. Miller, furnished the excitement at City Park today. He had the mount on Judge Nolan in the second race and seemed to spare no effort to keep the horse from finishing first. Judge Nolan was ridden to the extreme end of every jump and was finally pulled in behind the leaders. Before the numbers went up a howling mob was after the jockey, who took refuge in the paddock under protection of the police. The stewards at once rode Miller off the turf, and as soon as the excitement had quieted down he was smuggled out of the grounds, escaping a small but determined knot of men who would have been in the cutting-edge. Miller, who won the race, was the only winning favorite of the day. Covies was caught in a jam at the half mile in the last race, fell and broke his leg. Track lumpy and slow. Results:

## ANTI-SEMITES LOCATED

Author of Inflammatory Circular Dismissed from Service of Coar.

ELECTIONS ARE CONDUCTED IRREGULARLY

Polts Close at One Place and at Another Manhood Suffrage is Permitted at the Election.

ST. PETERSBURG, March 16.—The author of the anti-Jewish circular was M. Levrof, an employee of the ministry of the interior, holding a rank in the official hierarchy equivalent to councillor of state. He is the leader of the "League of the Russian People," who has been dismissed from the service and arrested and will be prosecuted. The first step of the peasant elections has been completed in twenty-eight provinces and in the workers' elections the first stage was ended in ten provinces and six towns. In many cases no returns have been published, but the Reich (speech) claims to have authentic information showing that the peasants in seventy-two districts elected progressive delegates, against forty-eight conservatives. Election rows occurred at various places.

At Torzhok, province of Tver, the marshal of the nobility was compelled to close a small landowners' assembly because the electors insisted that nonprogressive persons were participating. In the Scheschensk district the workmen took the elections into their own hands and proceeded on the basis of universal suffrage.

LABOR UNIONS MAY STRIKE

Cincinnati Judge Makes Ruling in Action Brought to Keep Men at Work.

CINCINNATI, March 16.—The right of a labor union to conduct a strike was sustained by Judge Howard Ferris of the superior court in a decision here today. The case was that of the Peckham-Campbell company against the United Labor Workers, the company seeking to enjoin the union from striking. The case was argued some months ago and pending the decision today the difficulties between the company and the union were left in abeyance on promise of good behavior.

## DOCTORS FOR ME

THE MEN'S TRUE SPECIALISTS

Longest Established, Most Successful and Reliable Specialists, as Medical Diplomata, Licenses and Newspaper Records Show.

BLOOD POISON (Syphilis) is one of the most terrible diseases in its ravages upon the human system to which mortal flesh is heir and may be either hereditary or acquired. It may be termed that slimy hissing serpent that hights and poisons everything it touches. It is a disease that spares neither blood nor sex, rank or fortune. It is a terrible and insatiable misery, blinding, devastating and destroying, establishing a gloomy empire of misery and death. It is the plague of our own day, and the most common of diseases. For centuries this loathsome, lingering disease was considered incurable, and for hundreds of years baffled the most learned physicians. Thousands of men and women have been turned to stone, their lives ruined, their suffering untold miseries and humiliations, without respite, relief or abatement, waiting for death to relieve them of their suffering. It attacks the bones, penetrates the deeper structure, eat away the bones, leaving the unfortunate victim an abomination to himself and a degraded outcast to all human society.

If you have incurable patches in the mouth or throat, little ulcers on the tongue, hair or eyebrows falling out, copper colored spots on body, pain in bones, pimples or sores on any part of the body or limbs, or any other signs, come to us and we will spare you the penalties associated with this terrible affliction. Don't think because you have inherited or contracted blood poison that you must go through life tainted and contaminated, or saturate yourself with mercury, and other deleterious drugs until you avail yourself of our treatment. You need suffer no longer if you will avail yourself of our treatment.

Our treatment cleanses and eradicates every vestige of the syphilitic virus from the system and all danger of transmission and recurrence is removed. We do not call a "mercurial" of a few sores a cure. By our method of treatment the blood and system are thoroughly cleansed, all poisonous impurities eliminated and you are freed from the most common and most dangerous of diseases. Our treatment is simple and requires no long confinement. It is not a "mercurial" and you are never sicker, nor do you have to take any of the deleterious and poisonous drugs used in other treatments. This disease has doubtless brought more misery into the world than any other disease you are likely to contract or inherit. It is a terrible and insatiable misery, blinding, devastating and destroying, establishing a gloomy empire of misery and death. It is the plague of our own day, and the most common of diseases. For centuries this loathsome, lingering disease was considered incurable, and for hundreds of years baffled the most learned physicians. Thousands of men and women have been turned to stone, their lives ruined, their suffering untold miseries and humiliations, without respite, relief or abatement, waiting for death to relieve them of their suffering. It attacks the bones, penetrates the deeper structure, eat away the bones, leaving the unfortunate victim an abomination to himself and a degraded outcast to all human society.

President O'Neill of the Western League has announced his list of umpires for the coming season, one being well known to Omaha fans and the other two being new faces. They are John Keeffe of Pittsburg, Peter Fuller of Chicago and J. Ira Davis, who umpired in the Pacific Coast League last season. Carver was let out last fall by President O'Neill and the others failed of reappointment. Carver, it will be recalled, failed to let Mike Cantillon parade his policy of bluff at all times.

Ten-dollar tickets in the hands of spectators and for \$25 outside the club house doors for the Nelson-McGovern fight. Very little money was bet in Omaha or at the Chicago race, but the latter was only proposition left to bet on in view of the no decision ruling, whether Nelson would be able to knock him out in six rounds. One trained from New York carried fifteen bets in excess of the actual, and it was estimated that 1,300 people gathered some from New York.

London Athletes Win at Oxford.

LONDON, March 16.—Three American Rhodes scholarship students have been selected to represent Oxford in the inter-university sports which are to take place on March 24. P. M. Towner, University of South Carolina, will compete in the high jump, Warren E. Schultz of Cornell in the mile run, and Albert M. Stevens of Williams College will compete in the 100-yard dash.
