Can we dispute the well-known Pfact that American women are ner-.... vous? How often dowe hear the expresston, "I am so nervous, it seems as if

should fly;" or, Ale well "Don't speak to Mrs.M.E. Shelwell me." Little things make you irritable; you can't sleep. you are unable to quietly and calmly perform your daily tasks or care for your children.

The relation of the nerves and generative organs in woman is so close that nine-tenths of the nervous prostration, nervous debility, the blues, sleeplessness and nervous irritability arise from some derangement of the organism which makes her a woman. Fits of depression or restlessness and irritability; spirits easily affected, so that one minute she laughs, the next minute weeps; pain in the abdominal region and between the shoulders; loss of voice; nervous dyspepsia; a tendency to cry at the least provocation-all these point to nervous prostration Nothing will relieve this distressing

condition and prevent months of pros-tration and suffering so surely as Lydia E. Pinkham's Vegetable Compound.

Mrs. M. E. Shotwell, of 103 Flatbush Avenue, Brooklvn, N. Y., writes:

"I cannot express the wonderful relief I have experienced by taking Lydia E. Fluk-ham's Vegetable Compound. I suffered for a long time with nervous prostration, back-ache, hostache, loss of appoints.
