We Sell the Longest Lasting Steel Range Sold in Omaha

Our range will last from 10 years to a lifetime. We sell any size at \$5.00 down and \$5.00 per month, or a cut price for cash.

MICHIGAN

If you will call at our store and see the new improved 1906 burner of the Michigan

you will buy no other kind of a gasoline stove this summer. We sell the \$5.00 to \$12.00 sizes at \$2.00 per month, and the \$15.00 to \$20.00 sizes at \$3.00 per month, or a cut price for cash.

This is why the burner of the Michigan is superior to the burner of any other gasoline stove. The burner of the Michigan is as large in diameter as the cover of a steel range; is perfectly flat and covered with little cones. Each cone has two jets and each jet makes a clear blue flame half an inch high; the burner makes a heat as hot as a red-hot steel range, but can be regulated to suit. Any housewife can see the advantage of the Michigan over any other. A high-grade steel range, the most charming cooking apparatus in the world in the winter time, is no more charming in the winter than the Michigan is in the summer. Accidents from gasoline stoves are rank carelessness on the part of the user and not the fault of any stove.

Last week a gentleman stepped into our store to use our phone. After he had used it he said "My name is Ringwalt. I bought a steel range of you thirteen years ago that is good yet. We had it fifteen years before it needed repairing."

Mrs. Koopman, after she had ordered a range, said: "I am ordering this for my mother and want her to have one like mine. I bought one of these eight years ago that is as good as new. It will last us as long as we live. It is the most beautiful working range that I ever saw."

Mrs. Comerford, 261 N. 26th, after she had bought a range, said: "I came here without looking elsewhere. I know people who are using your ranges and know people who bought elsewhere. The more I made comparisons the more I concluded to buy here."
