## MANY NEW ONES REGISTERED

Indications Practically All of Voters Have H. A. Searle. Availed Themselves of Opportunity.

HEAVIEST IN SECOND AND SIXTH WARDS

Chairmen of Both the Central Committees Express Themselves as Satisfied with Outcome of the Registration.

Incomplete returns last night from the several precincts show that the registration for the municipal election Monday has been unusually heavy. Both parties made great efforts to get every voter on the lists registered, and indications are that few, if stered, and indications are that few, if hy, failed to respond to the solicitations of the party managers.

As there had been no registration since the general election in November, 1994, it was naturally anticipated that the registration this apring would be heavy, but it was never expected that the number of new names would be as many as they are, espedally in view of the fact that the census last year did not disclose any increase in the population.

Several hundred new voters were registered in the twelve precincts, a large per cent of these being young men who have since the election in 1904 become of age and entitled to vote. At the same time quite a large number of new residents were registered, and if the registration lists count for anything an unusually heavy vote may be looked for on Monday.

The registration appears to have been issaviest in the Second and Sixth wards, although only incomplete returns were obtainable last evening. In the first precinct of the Second ward 22 new names were added, of this number 133 being registered yesterday. In this precinct ninety-five new voters were registered. In the Second precinct of the Second ward ninety-nine were registered yesterday, making a total of 174 the three days. In the Second precinct of the Third ward 147 names were added, of these ninety-nine being registered yester-

In the Sixth ward 260 were added to the lists during the three days, no less than 165 being registered yesterday. During the last two years there has been a great deal of building in the western part of the city and this undoubtedly accounts to a great extent for the large registration of new voters in that ward

Of course many of the registrations this spring were voters who have moved since November, 1904, from the precinct in which p. m. they then voted into some other voting

When asked last evening both Chairman Hess of the republican city central committee and Chairman Hughes of the demo cratic committee expressed themselves as satisfied with the registration, and they both stated that in their opinion the heavy registration meant a big vote Monday.

TRANSPORTATION OF FREE SEED Postmaster General Gives Figures on

Cost of Moving Government Prize Packages.

WASHINGTON, March 24.-Postmaster General Corteiyou has supplied Representative Tawney, chairman of the house committee on appropriations, with a memorandum as to the exact cost to the Postoffice department of handling the seeds furnished by the Department of Agriculture for free distribution. The postmaster general states: "As nearly as can be estimated the cost of carrying a pound of this mail matter varies from 5 to 8 cents, 1 have been informed that the aggregate weight of vegetable and flower seeds distributed annually by the Department of Agriculture under frank is 800,000 pounds. The estimated number of packages is 7,300 .-000. Computing at the towest estimate-5 cents a pound-the cost of handling this

matter is \$34,500. The postmaster general says that while it is improbable any additional clerks or carriers are employed solely on account of this distribution, it is nevertheless selfevident that the 7,300,000 packages clog the mails and take up the time of a large number of clerks and carriers which might otherwise be profitably employed.
