#### PRIVILEGES TO BE DROPPED

Trading of This Kind Doomed by Chicago Board of Trade.

OMAHA FIRMS WILL BE AFFECTED

In Anticipation of Action in Chicago Two Local Dealers Have Already Discontinued the Milwankee Patronage.

It seems but a question of a short time until trading in privileges will be a thing of the past with those grain commission firms which are members of the Chicago Board of Trade. A vote of the board is to be taken this week on the question of de priving of membership those who sell puts and calls on the Milwaukee market on grain for Chicago delivery. It is said the vote will be in favor of the proposed ac-

This would mean that several Omnha commission firms could trade in privileges no longer, unless they sold bids and offers on the Chicago market, a transaction which . is discountenanced by the Chicago Board of Trade. In anticipation of the vote of the Chicago board, already two Omaha concerns, W. C. Sunderland and the Exchange Grain company, have discontinued trading in Milwaukee privileges.

S. A. McWhorter is still dealing in Milwankee puts and calls, but has given nolice to his customers that such business, may be stopped. F. C. Hollinger also trades on the Milwaukee market. All these firms are subject to the rules of the Cht-

Only Two Local Firms. Only two Omaha concerns, the Updiko Grain company and the Von Dorn Grain company, are trading in privileges on the Chicago market. All the members of the Chicago board formerly handled puts and calls, but in order to get around an Illinois law a system-of bids and offers was extablished. For a while dealing in bids and offers was general, but the board lately has frowned on this form of privilege trading, on the grounds that it is identical with the put and call system, and the board could not afford to defy the statutes Two Omaha firms continued quoting Chicago privileges and the others began to trade on the Milwaukee market. This the Chicago board proposes to stop,

If the decision is as expected, the con mission houses may go back to bids and offers on the Chicago market, even though there is danger from the law, unless the Chicago board adopts more stringent rules against it.

Several firms not members of the Chicago board will not be affected by the decision. They deal in puts and calls on the Superior (Wis.) market and on Minne-

Jurisdiction of Nebraska District Court Attacked by Washington Man Sued for Divorce.

The first move by the defendant in the divorce suit of Fannie R. Bassett against Charles C. Bassett of Washington, D. C., will be to attack the jurisdiction of the district court of Douglas county to hear the case on the summons issued. A motion to quash the pretended service of sum mons was filed Monday by Hall & Stout, representing Mr. Bassett. The sufficiency of the affidavit signed by Mrs. Bassett, upon which the service is based, is denied.

The divorce suit, which was filed last month, caused considerable interest in Washington because of the prominence of the parties. Mrs. Bassett is a daughter of ex-Benator Rice of Arkansas and her husband is in the government service at Washington Shortly after her suit was started here he began one in Washington, naming Rev. E. Lawrence Hunt, formerly of Washington, but now of Brooklyn, in the peti-The principal fight is over the custody of the children. Mrs. Bassett asks that all five of them be given to her, and he wants the four older ones.

#### WANT AND NEED.

There's a big difference between what a baby wants and what he needs. Deny him the one, give him the other. Most babies need Scott's Emulsion-it's the right thing for a baby. It contains a lot of strengthbuilding qualities that their food may not contain. After a while they get to want it Why? Because it makes them comfortable. Those dimples and round cheeks mean health and ease. Scott's Emulsion makes children easy; keeps them so, too.

## OFFICIALS BAR

Freight Men at Chicago Sit Down on Proposition to Lower Missouri River Rates. At the meeting of the high freight offi-

cials of the western railroads held last week in Chicago, no action was taken in regard to the petition of western jobbers for lower rates on the different class goods etween Chicago and the Missouri river. Many of the lesser officials of the roads were favorable to a reduction in these rates but the higher officials sat down on the proposition. The understanding seemed to be, after the meeting, that if any reduction was made it would be on any quantity of goods and not on carload

No action had been taken in ragard to reduction of freight rates between Imaha and Chicago on grain rates, because of the opening of traffic on the Great takes. A differential always is given in favor of the slower route via the fakes and this will adjust itself as soon as traffic opens. More flour is being shipped for export from this section at the present time than ever before and the local millers

are correspondingly happy, for the export business is helping the local business and naking a better price all around. The demand for export flour is greater in all, parts of the country and this section is getting the benefit.
