

GRAIN AND PRODUCE MARKET

Trading Marked by Dulness Through Entire List. RANGE VERY NARROW AND CLOSE LOWER Cash Corn Drops Off Half Cent and is Responsible for Weakness in Options—Oats Take Slide.

OMAHA, March 25, 1906.

The market was quiet in wheat and the range narrow. Cables were lower and northwest receipts were larger than last year. Opening prices were a trifle lower and for a while the tendency was weak but later it improved and the market became firmer, standing for a time above yesterday's close. The close was lower and lower for May. Some improvement was reported in the cash demand.

Receipts and shipments were 400,000 bushels and 200,000 bushels, against receipts last year of 265,000 bushels and shipments of 100,000 bushels. Clearances were 10,000 bushels of wheat, 15,000 bushels of flour, 10,000 bushels of corn and 7,000 bushels of oats.

Available Supplies of Grains. NEW YORK, March 25.—Special telegraphic and cable communications received by Bradstreet show the following changes in available supplies as compared with the previous week.

NEW YORK STOCKS AND BONDS

Market Opens Inactive and Soon Becomes Weak Under Heavy Offers. READING RAILWAY LEADS THE DECLINE Disagreement Between Miners and Operators the Assigned Cause of the Selling Movement.

NEW YORK, March 25.—Yesterday's upward movement of prices was reversed in the stock market today. The nominal ground for the change in the course of the market was today's disagreement between the coal miners and operators at Indianapolis. The outcome of the conference has been closely forecast, however, that it is doubtful if any agreement will be reached. Important steps to be taken by the miners of stocks as a consequence of the coal situation. The more probable explanation of the price movement and the one generally accepted was that yesterday's activity was due to the fact that the market was not yet fully informed of the details of the coal situation.

Reading Railway Leads the Decline. A large majority of the first transactions in the market were at prices unchanged from last night. With the demonstration of this inertia of the market it was not long before the market began to decline.
