Free lessons given by Miss Steenstrup, expert needle artist, when materials are purchased here. From 2 to 5 each afternoon.

For Fifty Years Thomson's Glove-Fitting Corsets have been famous throughout the world for models of excellence and graceful effect.

There is one essential feature of the fit of her corset. This depends entirely on the corset. For this reason we have selected a complete line of this celebrated make of corsets, which we have just placed on sale.

The models which have just arrived excel all previous successes and constitute the highest achievements in the art of corset making. If you are partial to a medium priced corset you cannot do better than try one. Price, \$1, \$1.50, \$2. Satisfaction guaranteed.

Leather Bags. Carriage bags made of good quality of sea lion leather, colors black and brown, fitted with coin purse, covered, riveted frames, plain leather handles, at \$1.25, \$1.50 and \$2 each.

Bags in seal leather, color brown, tan and green, from \$2.50 to \$5 each. Coin purses, tan brown, gray and green seal leather, strap handle on back, at from \$1 to \$2.50 each.

Envelope bags in seal and alligator effects, colors black, brown and green, from \$1 to \$1.50 each.

You Should Not Fail to Attend Our Easter Millinery Display Thursday. An exposition of the very smartest ideas of the world's leading designers and clever adaptations from our own workrooms.

Made under the alert tactful ingenious direction of Miss Alice Pennington, our "exhibit days." You should not fail to see our showing at \$5, \$6, \$7.50 and \$10 Paris hats of exquisite design, up to \$6.

Arbitrarily notified mine owners that no commercial coal would be hauled.

Death at Des Moines. DES MOINES, March 28.—In anticipation of a strike April 1 the visible supply of coal in Des Moines and Iowa has been absorbed by railroads and factories to the extent that not a pound of commercial coal can be had at any price.

Des Moines dealers quote prices from \$2.50 to \$4.50 a ton, but refuse to name a date of delivery. No orders are taken at any price, and other kinds of fuel are "exorbitant" prices.

Nearly every district in the state is ready for the inevitable. Not an additional pound of powder is being purchased, the miners preparing to go out as soon as the present supply is exhausted.

ATLANTIC, Ia., March 28.—(Special.)—The soft coal famine that has been threatening all the cities of Iowa has at last reached this city and in a very serious form. There is now less than fifty tons of soft coal in the hands of the dealers, outside the small amount of West Virginia coal that is too expensive for most people.

Some have but a small amount on hand, and are distributing this out among their customers in small orders. The price has advanced 25 cents a ton in the past two weeks, and dealers cannot say when they can secure any more coal, as the operators will not guarantee delivery of their orders that have been in for the past two weeks.

KNOX DISCUSSES RATE BILL

Says Measure Prohibiting Court Renewal of New Rates Would Be Void.

CIVILIZED INDIAN BILL CONSIDERED

Conference Report Objected to by Many Senators Because of New Matter Inserted by the Committee.

WASHINGTON, March 28.—Mr. Knox made his first speech in the senate today. He spoke on the railroad rate question, and dealt almost exclusively with the legal features of the problem.

When Mr. Knox introduced the conference report on the bill regulating the final disposition of the affairs of the five civilized tribes of Indians, and much objection was expressed to many of the changes.

Some of these were criticised on the ground that the conference committee had transgressed its authority by the insertion of new matter. There was a renewal of the discussion of the disposal of the coal lands in Indian Territory, and several senators, including Messrs. LaFollette, Clark (Wyo.) and Tillman, expressed disapproval of the conference provision authorizing the secretary of the interior to lease lands.

Speech by Mr. Knox. When the senate met today Mr. Lodge offered an amendment to the railroad rate bill, making it apply to pipelines for the transportation of oil. Mr. Daniel presented an amendment to the same bill making railroads liable for damage to employees.

The resolution calling upon the Interstate Commerce commission for information relative to free transportation, including tickets issued in newspapers in pay for advertising, was passed without opposition.

The railroad rate bill was then taken up and Mr. Knox presented his views. This was Mr. Knox's first speech in the senate and he was accorded close attention by a well filled chamber.

It is obvious that a law conferring the tremendous power which it is proposed by all the bills under consideration to confer upon the commission to substitute one price for another, must be drawn upon with great care.

Upon the theory that the order of the commission shall be final and not reviewable by the courts, or upon the theory that it shall be reviewable by the courts, I have no hesitation in saying, upon the authority of the cases which have already been submitted to the senate by the distinguished senators, that I have participated in this debate that the order of the commission shall be final and unassailable in the courts would be unconstitutional.

The railroads are entitled to their day in court and that an act which prevents a judicial review or determination of the question of the reasonableness of an order of the commission would deprive the carriers of this constitutional right and would therefore be unconstitutional. Mr. Knox said that in his bill he had undertaken to preserve the constitutionality of purpose of the measure and to throw around the restrictions for the review which would prevent the end of the repeal legislation. His court review section, he said, provides that the question to be submitted to the courts is solely whether the order of the commission violated the complainant's rights.

When Mr. Knox concluded the conference report on the bill regulating the affairs of the five civilized tribes was taken up.

RULES OUT POINTS OF ORDER

House Adopts Method for Expediting Legislative Bill

WASHINGTON, March 28.—The house today, in order that the legislative, executive and judicial appropriation bill might be considered without being subjected to a filibuster, passed a rule prohibiting that method of delaying the bill. Notwithstanding that this approach has been the first special rule ever reported from the committee on rules directly affecting an appropriation bill, its necessity was regarded as paramount to precedent.

It was adopted after an illuminating debate of nearly an hour and 100, twenty-five republicans voting with the minority. The remainder of the day was devoted to consideration of the bill and more progress was made than in all the days heretofore given to the measure.

The house went into committee of the whole for consideration of the legislative, executive and judicial appropriation bill.

Mr. Brooke (Colo.) offered an amendment increasing the appropriation for the Denver mint to \$100,000, which was adopted.

Mr. Southard (O.) moved that the mint at New Orleans should be abandoned and said that its discontinuance would be in the interest of real economy. Mr. Southard's amendment was rejected.

Having completed the reading of 110 pages of the bill it was temporarily laid aside and the committee rose.

Mr. Adams (Pa.) presented the conference report on the consular bill, which was ordered printed, and at 5 o'clock the house adjourned.

Taft on Military Affairs

Secretary Recommends More Pay for Non-Commissioned Officers.

WASHINGTON, March 28.—Secretary Taft, who was before the senate committee on military affairs explaining items in the army appropriation bill, spoke at some length concerning the necessity for a military cable to Panama by way of Key West, Porto Rico and Guantamano. Such a cable is provided for in a pending bill by an appropriation of \$27,000.

He also asked that provision for a cable ship to be used in coast defenses, which was struck out of the bill by the house, be restored.

Secretary Taft opposed the reduction of the cavalry arm on the ground that it requires two years or more to equip and train this force.

Senator Scott called attention to a bill he introduced early in the session, providing for an increase in the pay of second lieutenants, first lieutenants, captains and majors, and asked the secretary if he would be in favor of that bill.

The secretary said that he would be ready to endorse it at this time, but said that he agreed that it was difficult for these officers to support families on their pay. He said that he thought the non-commissioned officers were the men most entitled to an increase of pay. He paid a glowing tribute to "the sergeant" who teaches the young lieutenant how to manage men. He said these men should be encouraged to remain in the army.

Age Limit Stricken Out. WASHINGTON, March 28.—The committee on rules today reported favorably the special order of rules introduced by Mr. Tamm yesterday providing for the elimination of points of order against the legislative appropriation bill and restoring the paragraphs heretofore stricken out. The age limit provision for government employees is omitted from its operation.

Making Places for Consuls. WASHINGTON, March 28.—Secretary Root has determined to provide as far as possible for the American consuls legislated out of office by the recently enacted con-

Good Sense

Directs you to lay away money for the inevitable "rainy day," and with equal force directs you to lay it away in the largest, strongest and safest place in the state of Nebraska.

Postmasters appointed: South Dakota, Lyons, Minnehaha county, Lars O. Larson, vice T. S. Behm, resigned; Wyoming, Almy, Quila county, John Stacey, vice John H. Martin, resigned.

LOG FROM CABIN OF GRANT

President Gives to War Department. Relics Sent Him by St. Louis Citizen.

WASHINGTON, March 28.—President Roosevelt has presented to the War department for its historical collection a section of a log from the cabin which General U. S. Grant built for his family near St. Louis after his resignation from the regular army before the opening of the war of 1861.

The relic was sent to the president by C. F. Blanke of St. Louis, who purchased the cabin and presented it to the city of St. Louis for preservation in Forest park. It was exhibited at the St. Louis exposition and attracted much attention.

As the president had no suitable place to display the frame containing the section of wood he sent it to the War department, where it will have a place in the reception room of the secretary of war. A descriptive book of the cabin with the relic shows pictures of the cabin as it stood on General Grant's farm and recounts the history of the cabin and the cabin as a shelter for his family in 1864, at the time when he was considered a failure by his relatives and friends.

NEW TRIAL ASKED BY BARTEE

Rehearing Sought for Colored Man Convicted of Murder Because Juror Read Papers.

A motion for a new trial in the case of William Barbee, convicted of the murder of Henry Brown, was filed Wednesday by his attorneys, Crow & Walker. The fact the jury was not locked up, but was allowed to read the newspapers and mingle with the general public is one of the reasons cited. Another is alleged misconduct of Juror G. D. Ablon, who is alleged to have engaged in conversation during the trial with D. H. Christie, another juror, when, according to the defendant he should have been listening to the evidence. It is also asserted new and material evidence has been found.

FIRE RECORD

Smelter at Grand Encampment. CHEYENNE, Wyo., March 28.—(Special.)—The concentration, power and electric light plants of the Penna-Wyoming company at Grand Encampment were totally destroyed by fire this morning, entailing a loss of \$200,000, with only \$150,000 insurance. The \$100,000 smelter was badly scorched. Grand Encampment will be in darkness until a new light plant can be built. The blow is a serious one to the Encampment mining district. Another is alleged misconduct of Juror G. D. Ablon, who is alleged to have engaged in conversation during the trial with D. H. Christie, another juror, when, according to the defendant he should have been listening to the evidence. It is also asserted new and material evidence has been found.

Smelter Plant in Wyoming. GRAND ENCAMPMENT, Wyo., March 28.—The great smelting, concentrating and electric and steam power plant of the Penna-Wyoming Copper company was almost completely destroyed by fire this morning, entailing a loss estimated at from \$200,000 to \$500,000, partially covered by insurance. The smelter building was saved after a hard fight made by the fire department. The origin of the fire is a mystery. The plant had been closed down for the winter on account of the deep snow and improvements under way. Preparations were on foot to resume next month.

To Cure a Cold in One Day. Take LAXATIVE BROMO Quinine Tablets. Drip, drip, drip, money if it falls to you. E. W. Groves' signature is on each box.

Harris Not Guilty. Ellis Harris, charged with burglary from a room in a boarding house at 214 North Ninth street, was tried Wednesday morning in Judge Sutton's court. According to the testimony he broke into the room, stole the cash and returned to his room, where he was in an attempt to burn the house. The case was given to the jury shortly after noon. The jury after about two hours returned a verdict of not guilty.

LOCAL BREVITIES

Frank Geizer, arrested by Assistant Special Agent Vizzard of the Union Pacific, was fined \$5 and costs by the police judge Wednesday morning for being on the Union Pacific coal chute at Fourteenth street.

George Flock of 212 1/2 Burt street was fined \$5 and costs in police court Wednesday morning, when he was arraigned on a charge of larceny, treating to burn animals. Flock was charged with mistreating a dog named from the Belts Bros. dog, 1415 Capitol avenue, Tuesday afternoon. The prisoner pleaded not guilty, but the evidence was against him.
