### TRIBUTE TO SUSAN B. ANTHONY

Memorial Held by Men and Women Under Auspices of W. C. T. U.

LIFE OF GREAT REFORMER EXTOLLED

Among the Speakers is Rev. Newton Mann, Formerly Pastor of Church to Which She Belonged.

Between fifty and sixty women of the Women's Christian Temperance union and Woman's club and other women's organicutions of Omaha, South Omaha and Council Bluffs assembled at the First Congregational church Wednesday afternoon to participate in the memorial services in honor of the late Susan B. Anthony. The meeting was held under the auspices of the franchise department of the Women's Christian Temperance union, Mrs. Fred Patterson, superintendent, presiding during the meeting. The gathering was called to order by Mrs. Adelaide Root, president of the Women's Christian Temperance union, who after briefly stating the purpose of the gathering resigned the chair to Mrs. Pat-

Mrs. Mary G. Andrews, president of th Woman's club, was the first speaker. Her subject was "Susan B. Anthony as a Teacher." Mrs. Andrews said fifteen years of Miss Anthony's life was spent as a school teacher, for which she received the munificent compensation of about \$8 per It was this meager salary that Miss Anthony to inquire why women should not be compensated as libcrally as men for the same service and was the basis of her after life work in demanding equal rights for woman.

Work in Cause of Temperance. Mrs. M. E. Covell spoke of Miss Anthony's "Work in the Temperance Cause," saying her first public appearance was in the cause of temperance, of which she was at all times a most ardent advocate. Mrs. Covell also elaborated at some length upon Miss Anthony's great life work in the cause of equal rights to women and held it was through Miss Anthony's courage and heroism that a mother could now own her own child, the guardianship of which was denied to a mother under the old laws, when woman had no civil or property rights. While Miss Anthony admired chivsiry in men, yet she believed that women would be better off with a little less chivalry and more justice.

Mrs. Lena Ellsworth Dale sang with charming effect "The Way of the Cross," with Miss Edna Boysen as plane accom

In Interest of Human Liberty. Rev. John Williams, rector of the Church of St. Philip the Deacon, spoke upon "The Work of Susan B. Anthony for Human Liberty." He paid a glowing tribute to men and women who had the courage of their convictions and the bravery to express them. Miss Anthony fought not alone for the emancipation of the black race from bondage, but fought for the emancipation of womankind the world over. She believed in liberty as in God. She was a colaborer with William Lloyd Garrison and other of the great abolitionists and was fearless in her agitation for human liberty. Her life's work did not die with her, but will go on until humanity shall place her banner where her hopes were

Friday evening, at Des Moines, the West ern league magnates will adopt the playing schedule for 1906, elect an official scorer. who will be charged with keeping track of the statistics of the game for the season. and transact a few other items of business left over from the meeting held in Chicago last December. Each club in the league last December. Each club in the league have a better chance to get men who are will be represented at this session, and a trying to piffer second than the second harmonious time is looked for. Frank Selse wired from Pueble last night that he front of him. lee wired from Pueblo last night that be expected to represent that town in the meeting. He will pass through Omaha this afternoon and will be joined by Rourke and Holmes of Lincoln, and maybe by the Sioux City representative.

Ducky Holmes was up from Lincoln yes terday, and expressed himself as well pleased with his prospects. The interest shown by the Lincoln people has exceeded expectations and if the team gets off at all good in the pennant race its success is-assured. Naturally the rivalry will be against Omaha and the series between the Nebraska teams is likely to be as fierce as those between Omaha and Des Moines last summer. This promises much for the sport As a matter of fact, all the other towns in the league take pleasure in beating Omaha when they can, and it is this that makes the game so popular here, for the patrons have come to understand that they will see a ball game each time they go to the Vinton Street park.

Selee Day in Omaha.

Steps will be taken as soon as the dates are announced to arrange for a reception to Frank Selee on the occasion of his first visit to Omaha. The veteran has a host of friends here who will be only too glad to give him a welcome back. Judge Lake, Judge Shields, Dr. Worley, Jack Philbin Frank Bandle, Russ McKelvy, Harry Mc-Cormick and dozens of others of the old guard are still in the game from the grandstand and will undoubtedly be found ready and anxious to testify to Mr. Selee the in terest that Omaha still takes in him.

Papa Bill had the bunch out at the grounds yesterday afternoon and gave then a little trial work. Last night he was glowing with smiles in anticipation of the fun he is going to have this coming summer. Runkle, the last of the flock save Bender to show up, had on a uniform and pleased the head of the tribe immensely by his conduct. "He's the goods," said Rourke the case to the district court. last night, as he watched Gonding and Harry Welsh feed nickels into a slot machine. By the way, Harry Welsh is about the finest picture of perfect health anyone would want to see. He is bigger than ever, close of last season, but his skin is clear as a baby's, his eye is bright and his muscles are like steel. If he doesn't drive terror into the pitchers during the coming summer there's nothing in appearances. Gonding, too, looks fine, and says he has weight now and will be ready for the hardest of work before the season gets a start. Other members of the team are in fine fettle and the prospcts are exceedingly good.

Why Bender is Delayed.

Bender is coaching a team at the Spearfish (S. D.) Normal school, and may not be able to get away from there before some take hold vigorously when he does arrive. Kelly Welch has probably jumped the team. He has not reported, nor has he signed a contract, although under reserve for the present year. It is understood at the club's headquarters that he intends to pitch for Grand Island this season. That will result in his being placed on the "Ineligible" list, and will bar the Grand Island team from playing with Western league

WESTERN LEAGUE SCHEDULE The action was taken on the ground that CANAL LEGISLATION HALTS

Be Given Free Hand to Carry Out His ideas at Present.

WASHINGTON, March 38.7 Canal legis lation at the present session of congress is regarded as extremely improbable, even by the members of the senate committee which, for two months, has been meeting nearly every day to investigate conditions on the isthmus of Panama and to pre-

pare itself to report a bill. Several weeks ago it was decided to postpone, temporarily, the investigation of criticisms that had been made against the management of canal affairs and to devote the time to the discussion of the type of canal to be constructed. The committee is divided o this subject and there is no indication that the testimony taken has tended toward harmonizing the views of the mem-

by the minority of the board of consulting engineers are apparently confident that this plan will be followed. They have pointed out that if no agreement is reached. by congress the president, in his message transmitting the two reports of the board. has given notice that the administration will proceed with the construction of the lock canal.

Engineers Not Unanimous. Engineers who have been before the senate committee have not agreed as to the feasibility of constructing at Gatun the flight of three locks proposed by the minority plans and on this has hinged in large part the examination of the engineers. All of the advocates of the sea level project were outspoken against the safety of the locks at that point, but the friends of the minority plan have been greatly encouraged by a cablegram from Chief Engineer Stevens, declaring that there could be no doubt concerning the success of the Gatun locks.

The testimony given by Engineers Bates, Burr and others to the effect that the hill in which it is proposed to build these locks is not long enough to provide for three locks with useable lengths of 900 feet was cabled to Mr. Stevens. He took steps to refute the statements and notified the canal ommission to deny the testimony upon his authority. Adovates of the lock canal declared today that in view of the fact that Mr. Stevens had examined the site since the testimony was given he is in the best position to take a positive stand.

Witnesses Not Agreed. The witnesses who have testified before the committee have been about evenly divided, as to the type of canal. The next witness will be General Davis, formerly a member of the canal commission, and gov ernor of the canal zone. Secretary Taft will appear some time next week.

In view of the fact that the house committee on interstate and foreign commerce is not inclined to accept the testimony taken by the senate committee, it is believed that the house will not be ready for several weeks to take up canal legislation. This adds to the probability that very little will be done at the present session of congress and that the president and the canal commission will be left free to exercise their own judgment, as to the type of canal to be built, in which event the lock level type would be adopted.

It is generally believed that the sentiment in congress is largely in favor of building the waterway by contract. It has been suggested that congress by joint if a canal bill is not agreed upon.

DOUBLE PAY AT PRIMARIES Twice Three-Dollar-Day Wage Likely to Be Paid to the Election Officers.

It is more than likely the judges and clerks of the primary election will receive twice the customary \$3 a day for their services. In response to a move before the council to pay more than \$3, which was supposed to be decreed by law, City Attorney Breen has written an opinion holding that the city can remunerate the election officers as far as it likes. If the council can scrape up the money, and this is a likely possibility, wages will go up.

is a likely possibility, wages will go up.
Mr. Breen said:

In response to your request for an opinion as to the compensation of the judges and cierks of the primary election to be held on April 3, 190s, I would savise you: The theory of the Dodge primary law seems to have been that primary cay should be the first day of registration, and that the egistrars should be the judges of the primary election and serve as such without additional compensation. However, in the case of the State against Drexel the supreme court declared so much of the primary law as provided that primary day should be the first day of registration to be unconstitutional and void. So much of the law, however, as makes the registrars the judges of the primary election is still effective and in full force.

Clearly it was not the intention of the logislature that the registrars should serve on primary day in any capacity without compensation. Under the law, as it now stands, on primary day ine registrars will serve in the capacity of judges only and not as registrars, hence the provision fixing the pay of registrars is not applicable. The statutes are wholly stient as to the compensation of primary election officers, and therefore i am of the opinion, and so advise you, that it is for your honorable body to fix and allow as compensation for the services of the judges and clerks of the primary election such sum as in your judgment is reasonable and just. Mr. Breen said:

It is recognized everywhere not only as the best of all blood purifiers, but the one medicine that can be taken with absolute safety by the youngest child or the oldest member of the family. Next in importance to removing the cause of any disease is the condition in which the system is left after a course of medical treatment. Medicines containing mercury, potash or other strong mineral ingredients often do permanent injury by eating out the delicate lining and tissues of the stomach, producing chronic dyspepsia, unfavorably affecting the bowels and so damaging the system that even if the original cause of the disease has been removed, it is left in such a deranged and weakened condition that \$1,000 REWARD

the health is permanently impaired. S. S. S. enjoys the distinction of being the only blood IF NOT PUREL medicine on the market that does not contain a mineral property in some form. Being made VECETABLE entirely of roots, herbs and barks it is absolutely

harmless to any part of the system, and while curing disease adds strength and health to every part of the body. S. S. S. removes all poisons, freshens and purifies the blood and gives better and more lasting results than any other blood medicine. S. S. S. is the very best treatment for Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison and all troubles due to an impure or poisoned blood supply. Besides being the King of blood parifiers S. S. S. is the best and most invigorating of all THE SWIFT SPECIFIC CO., ATLANTA, GA.

# DISEASES OF MEN

Many of you are suffering from physical weakness and loss of sexual vigor, your nervous system is being depleted and your mind weakened and impaired. Life is not what it should be. Despondency and gloomy forebool ags have taken the place of bright prospects and happy ambition. You no longer enjoy your daily labors and duties, your nights are restless and unrefreshing and each morning you awaken again to the cheerless realization of your physical impediments and weaknesses, and you have neither the ambition nor the power to maintain your position among your fellow men, drag through a miserable existence, often wishing for death to end your troubles. In many cases self-abuse, night losses and day drains are the cause of your condition, while in others it is some secret disease, Gonor-rhoea or contagious Blood Poison, or frequently the result of neglected or imprope by treated private diseases, which cause stricture, varicocele, prostatic Kidney and Bladder diseases. ## NOTICE!

Announcement to the Public

Owing to the favorable criticism and many inquiries received by us from the redical profession and others interested regarding our statement that the socalled weakness of man is not a weakness, but symptoms of inflammation of the prostrate gland (neck of the bladder) caused by con-OUR FEE tracted disorders and carly dissipation, and the \$12.50

loss of vitality, prematureness, etc., are invariably cured by procedure a directed toward correcting this inflammation, we wish to state to these many inquires, in the columns of the press, that it takes approximately ten weeks to oure these disorders of the male. The treatment is entirely a local one, as no drugging of the stomach is necessary, and that the patient may treat himself at home under our directions. The effect of this treatment is not only gratifying, but immediate and the patient is not discouraged waiting too long for tang ible results. We will cheerfully explain the treatment to any inter-
