Upon cross-examination Yelser started a little interest in the proceedings by asking question of an instructing character of Dr. Balley and he desired to know if the latter had been in Omaha October 18, at which time it is presumed the operation had been performed. Dr. Bailey said he did not know, and then Yelser produced the register of the Paxton hotel with the name of Bailey written on it upon the date mentioned. Still Dr. Bailey could not remember why he was in Omaha. Dr. Sward. eshed his memory by remarking that on hat night he had delivered an address at a meeting of the State Medical society, held at the Paxton. On the same day Dr. Sward and other physicians had registered at the ame hotel. Dr. Balley further testified in answer to questions he had never treated the young woman and that he had urged er to go to her home in Fremont and tell her mother of her troubles. He informed her also that she would have to leave the hospital. He had not seen her, he said, since that time and did not know when she
