EVEYATOR INTERESTS WANT MAY OPTION

Reports Come of Some Seeding in Northwest-Corn Options Dull, with Best Demand in May-Oats Firm.

Wheat cables came unchanged. Early there was a slight weakness, which changed to strength when the demand for May on the part of the elevator interests caused shorts to cover and from that on the market was firm, with closing prices be higher for May, Deferred futures were inclined drag. Beceipts were large, the weather good, and reports came of seeding in the morthwest. The Missouri State Board of Kaliroad and Warehouse Commissioners has ordered a reinspection of all wheat in public warehouses in Kansas City and St. Louis, existing a strength at those Louis, esusing a strength at

Hankin at Chicago wired the Von Dorn Grain company: "The chief operations in the wheat pit were in the way of covering of shorts by pit traders and other locals, who are getting nervous over the rather steady absorption of the May by cash interests. Some cash houses have been buying May and selling more deferred months, either openly or through brokers, from time to time all day."

CHICAGO GRAIN AND PROVISIONS

Prices on Board of Trade. Prices on Board of Trade.

CHICAGO, March 20.—Active demand for May wheat by shorts and cash houses caused general strength today in the local wheat market, the May delivery closing with a net gain of 140%c. Corn was up 160, Oats were up 160%c. Provisions were off 12466590c.

caused general strength today in the local wheat market, the May delivery closing with a net gain of 140%c. Cron was up 14c. Oats were up 140%c. Provisions were off 134c699c.

At the opening prices were somewhat casier because of liberal receipts in the inorthwest, continued favorable weather in the southwest and the unresponsive tone of cables, the Liverpool market being barely steady, notwithstanding yesterday and advance. Early in the session, however, cash houses bought large quantities of the May option and created a lively demand by shorts, who feared a possible "squeeze" in that delivery. News of the day, which was largely of a bearish character, was apparently ignored. Primary receipts were liberal, the total movement today being 417,000 bu, against 350,000 bu. for the corresponding day one year ago. The strength of cash wheat at Minneapolis and Kansas City furnished encouragement to the local buils and the market became stronger as the session advanced. Prices at the close were almost at the highest point of the day. May opened 197%c and closed with a gain of 14c, at 171%c. Clearances of wheat and flour were equal to 150,000 bu. Exports for the week, as shown by Bradstreets were equal to 4,500,000 bu. Minneapolis, Duluth and Chicago reported receipts of 340 cars, against 231 cars lass week and 351 cars a year ago.

Corn was steady in sympathy with wheat and because of continued small offerings from the country. Prices, however, fluctuated within a narrow range. Trading was of small volume and consisted largely in the changing of May to the more distant deliveries. The close was steady. May opened 1/2 cars a general factors tending to higher prices were a decreased movement and the possibility of delay in needing operations. May opened a shade lower, at 20%c. advanced to 20%c. Stational were a decreased movement and the possibility of delay in needing operations. May opened a shade lower, at 20%c. advanced to 20%c. Stational control were a decreased for tencorrow: Wheat, advanced to 50% of the country o

Weel Market.

BOSTON, March 20 - WOOL-The Beston Commercial Bulletin will say of the weel market tomorrow: With the limited offerlings now on the market a very satisfactory volume of business is being done. Foreign wools are in best supply, the principal altention is centered in them. Manufacturers are buying freely whenever suitable lots can be obtained, Aithough the strong conditions of the foreign and western markets would seem to warrant a higher basis of values here dealers find it impossible to induce buyers to take that view. The principal transactions are in Australian and South American stock. Territory wools are in good demand, but stocks are limited. There was one transfer of nearly 60,80 pounds of fine medium and medium. Fine is quoted up to 70c, while line medium is worth 65c to 65c.
