MRS. COLBY GIVEN A DIVORCE

Action is Result of Separation Which Took Place Twelve Years Ago.

BEATRICE, Neb., March 30.—(Special Telegram.)—Mrs. Clara Bewick Colby was granted a divorce today in the district court from General L. W. Colby. The couple have been separated for twelve years, but only recently General Colby brought action for divorce and this was answered by a cross-petition of the wife. On this cross-petition alleging abandonment and failure to support she was granted the divorce. Mrs. Colby was a number of years editor of the Tribune, a paper published in Washington in the interest of the woman suffrage movement, but at present is editing a paper at Portland, Ore., published in advocacy of the same cause. CUTICURA REMEDIES WORK WONDERS.

"As I was a sufferer with eczema I write to tell you what a great friend I found in Cuticura Remedies. In six months I had tried three doctors, but did not get any better. I was told to use Cuticura on my body and on my face so thick that I could hardly put a pin on me without touching eczema. My face was covered, my eyebrows came out, and then it got in my eye. I then went to another doctor. He asked me what I was taking for it, and I told him Cuticura. He said that was a very good thing, but that he thought that my face would be marked for life. But Cuticura did its work and my face is now just as clear as it ever was.

"My brother-in-law told me about the wonderful Cuticura remedies. I took his advice and got the Ointment, Soap, and Resolvent. I washed with the Cuticura Soap and then applied the Ointment, and took Cuticura Resolvent as directed. In a short time my face began to get better, and when I had taken one bottle of Resolvent I could brush the scales off my face like a powder. When I had taken four bottles my face was as clear as ever.

"I told all my friends about my remarkable cure. I feel so thankful I want everybody far and wide to know what Cuticura can do. It is a sure cure for eczema. (Signed) Mrs. Emma White, 641 Cherry Place, Camden, N. J., April 25, 1905."

TEACHERS GATHER AT ARAPAHOE

Attendance Much Larger Than Promoters Anticipated.

ARAPAHOE, Neb., March 30.—(Special Telegram.)—This was the first day of the Southwest Nebraska District Teachers' association, to be held at this place two days. The unexpectedly large attendance has taxed the accommodations of the town to the utmost, and the providing for the visitors is most creditable to Prof. McMichael, president of the association as well as principal of the schools here, and his assistants. At 5 o'clock this afternoon there was an enrollment of 218 teachers in attendance and fully 100 more are expected on the morning trains, which will make the largest number at any annual meeting of the association.

Many Teachers Expected.

BEATRICE, Neb., March 30.—(Special.)—Extensive preparations are being made for the first annual meeting of the East Central Nebraska Teachers' association, which will be held here on Thursday, Friday and Saturday of next week. It is expected there will be not less than 600 teachers present. Reduced railroad fares and hotel rates have been arranged. The opening session will be held at the Normal auditorium on Thursday evening and will be preceded by a citizens' reception at the college parlors. Among the speakers on the program are State Superintendent J. L. McBrien, Superintendent Davidson of Omaha, Superintendent N. C. Abbott of Tekamah, who will give an illustrated address on "School Teaching in the Philippines," and Principal Waterhouse of Omaha.

Beatrice Man Assaults Wife.

BEATRICE, Neb., March 30.—(Special Telegram.)—Charles Brand this evening seriously beat his wife and her male companion and made his escape. The police are searching for him, but as yet have secured no trace of the fugitive. Brand and his wife separated about six months ago and she went to work in Lang's restaurant. Last evening about 10:30 Brand entered her apartment through a window, and finding a young man named Mont Hunter in the room, proceeded to assault both of them, evidently using a pair of metal knuckles. Both of them were severely beaten by Brand, though it is not thought either will die. After the assault Brand made his escape the same way he entered the room.

YORK—Jasper Higginbotham, a well known bachelor and respected citizen, bought one-half pint of whisky at the drug store in McCool, and drank it. He immediately became insane, going to his room in the home of L. C. The Ohio company has spent a couple of months or more making exhaustive tests of the Humboldt clay for brick purposes and pronounces it as good as can be found—so suitable, in fact, that it is willing to put in the entire plant and positively guarantee the product. It is asserted the plant, when installed, will be the most modern and complete of any north of the natural gas strip.

Recaptured at Omaha, he was held there until the day of his execution should be near. The gallows were set up in the yard of the county jail. Just before the time of execution his sentence was commuted to life imprisonment. Later he was pardoned. The gallows were used only once—having been shipped to Custer county for an execution in the construction of a business block in the downtown district.

Object to Hog Pens.

Some members of the State Fair board are not satisfied with the action of the board at its recent meeting in voting to build another string of swine barns. They made their objections at the meeting, but it was of no avail.

GRAIN MEN ARE IN THE DARK

Unable to Comprehend the Grain Case Decision of Supreme Court.

TWO CLAIM COAL DISCOVERY AWARD

Owner and Holder of Coal Lease on the Land Each Assert the Money Should Be Paid to Him by the State.

(From a Staff Correspondent.)

LINCOLN, March 30.—(Special.)—The supreme court decision in the grain case got another rap this morning, and this time it is the counsel for the Nye-Behndler-Fowler company doing the knocking. The attorneys for this company in a brief filed this morning assert the opinion is incongruous and evidently there is a misunderstanding some place.

When the suit was first filed this particular company filed a motion to strike from the petition of the attorney general all reference to acts alleged to have been committed prior to July 1, 1906, at which time the Junkin and trust act became operative. It was asserted in that brief the Junkin act repealed all former anti-trust laws and consequently the grain men could not be tried for alleged violations of the old laws.

The attorney says: "Since preparing the motion for releasing the brief in support of it I have conferred with a score more or less of associate counsel and find them each, like myself, unable to understand the opinion because of the incongruity between it and the overruling of my motion to strike out. In the recent motion and brief of the attorney general in the case he and his associate counsel are just as much at a loss to understand the matter as the rest of us, they also being unable to reconcile the overruling of the motion with the opinion. The opinion shows good reason for overruling the demurrer and fully covers the ground. It shows that the motion ought to have been granted. Hence, when the opinion is followed by the overruling of the motion it presents an incongruity too deep for any of us. There must be some misunderstanding some place."

This company desires a determination of the issues and of the material matter, and gives as one reason for such action upon the part of the court the great amount of evidence that will have to be taken if the referee is appointed in accordance with the wishes of the attorney general.

Two Claimants for Coal Reward.

The fight for the reward offered by the state for the discovery of coal is now on in earnest. A. M. Borst, the owner of the land on which the coal was discovered, near Peru, and F. M. Medley, who says he made the discovery, have both filed claims with Governor Mickey for the reward. Medley asserts he leased the land, insofar as coal is concerned, from Borst, and after prospecting several months and finding no indications of coal on it, he turned the land over to Borst. Borst, who is entitled to the reward, is said to give Borst 50 cents a ton royalty on all coal taken out of the mine.

Now comes Borst and says he has owned the land for thirty-nine years, and twenty years ago saw indications of coal on it. Last October he had a vein of coal six inches thick and thirty-five feet wide, while the first of the year he began to work the vein and had dug back as far as seventy feet, where the vein runs from thirty-five to fifty-seven inches in thickness and is six feet wide. He made no mention in his claim of Medley's part in the discovery.

The legislature of 1905 offered the \$5,000 reward, but the legislature of 1906 was silent in the matter. The appropriation has, of course, elapsed, but the law still stands on the statutes. It will take an appropriation before anyone can get the reward.

Soldiers' Home Crowded.

Governor Mickey returned last night from Grand Island, where he spent a day and a night at the Soldiers' Home, visiting with the comrades and inspecting the institution. "I found everything first-class," said the governor, "and I enjoyed the visit immensely. Harmony prevails in every department and there is no kicking because of the food being furnished or the cooking. Everything is spotlessly clean and all the members of the home are perfectly satisfied. The night I was there two of the old comrades died, making eight who have died during the month. The home is very crowded and there are a number who have their applications on file for membership, who will be taken in just as soon as there is room for them."
