

CHINESE WANTED TO WORK IN TRANSVAAL. Government in Transvaal. Excluding Coolies from the Mines. Boycott May Show Their Displeasure. People Banned from Mines. Resentment Through. Working for. More Angry at Britain.

PEKING, March 31.—(Special Cablegram to The Bee.)—The news that has been reported that the British government has decided to prohibit the importation of Chinese laborers into the Transvaal, and to exclude Chinese coolies from the mines, has caused a great deal of indignation in this city. The Chinese people are very sensitive to such a move, and they feel that it is a direct insult to their race. They are determined to show their displeasure by boycotting British goods and services.

COOLIES ARE SATISFIED. Many letters have been received from the Chinese coolies in the Transvaal, expressing their satisfaction with the conditions there, and their willingness to continue their work. They are particularly pleased with the fair wages and the decent accommodations provided for them. They also mention that they have no complaints against their employers, and that they are generally well-treated.

EMIGRANTS EXAMINED. In each port an emigration agent is appointed by the Transvaal government to examine the coolies before they are allowed to enter the country. The agent's duty is to see that the coolies are fit for the work, and that they have the necessary papers. The examination is a thorough one, and it is found that the majority of the coolies are healthy and capable of doing the work. The agent also issues them passes, which they must carry with them at all times.

PIOUS FRAUD GOES TO DEATH. Man Who Deceived Two Continents Under Cloak of Religion Fulfills Prophecy. LONDON, March 31.—(Special Cablegram to The Bee.)—According to intimate friends of Edward Donkin, the man who was known as the 'Pious Fraud,' he died at his home in London on Monday morning. He was 78 years of age. He was a member of the Donkin family, and he was known to many of the great ecclesiastics of London and a lady, a member of one of the noble families of England, almost royal in rank. He had been ill for some time, and he died peacefully.

ALL PEOPLE DO NOT AGREE ON SUBJECT. Some Claim to Be Prospective Injury to the Business Interests. TOKYO, March 31.—(Special Cablegram to The Bee.)—The subject of the nationalization of the railways of Japan, a subject in which Americans are interested, is being discussed with intensity, pro and con. The subject has long been discussed, but its magnitude has compelled a postponement of an attempted solution of the matter. It is clear that Japan with all of the burdens of the recent war with Russia pressing down upon her, is unable to devote the necessary funds to the nationalization of her railways. The government has proposed a plan to raise the necessary funds by the sale of government bonds, but this plan has met with considerable opposition.

FEMALE SPY TAKEN AT TOULON. Americans Arrested at Home of Woman Accused of Being Traitor. PARIS, March 31.—(Special Cablegram to The Bee.)—Another alleged case of spying is reported from Toulon, the central and apparently the most substantial figure being a woman of twenty summers, who is asserted to have been married to some petty official from whom she was separated, as she found the conjugal life too dull for her tastes. The authorities, fancying that some spy game was being played, began with a search for the woman in the case. Her choice fell upon this pretty creature, who is described as being very friendly to the United States, and who was seen by the authorities in the city of Toulon, where she was living with her husband, and on her return to her home in Paris. She was arrested on the 28th inst., and she was taken to the police station, where she was interrogated. She was found to be in possession of a number of letters and documents, which were found to be of a confidential nature. She was also found to be in communication with several persons who were known to be spies. She was charged with espionage, and she was committed to prison.

APATHY OVER IRISH EXHIBIT. Profits, if Any, Will Be Used to Establish Institute of Industries. DUBLIN, March 31.—(Special Cablegram to The Bee.)—F. W. Crossley has just written to the Bee regarding the exhibition of the Irish international bank of Ireland, which is to be held in London in the month of June. The exhibition is to be held in the Royal Albert Hall, and it is to be one of the most important exhibitions of the year. It is to be held in honor of the centenary of the foundation of the bank. The exhibition is to be held in the month of June, and it is to be one of the most important exhibitions of the year. It is to be held in honor of the centenary of the foundation of the bank. JAPAN'S NEW SCHEME. Government Ownership of Railroads Causes Much Discussion in Island Empire. ALL PEOPLE DO NOT AGREE ON SUBJECT. Some Claim to Be Prospective Injury to the Business Interests. TOKYO, March 31.—(Special Cablegram to The Bee.)—The subject of the nationalization of the railways of Japan, a subject in which Americans are interested, is being discussed with intensity, pro and con. The subject has long been discussed, but its magnitude has compelled a postponement of an attempted solution of the matter. It is clear that Japan with all of the burdens of the recent war with Russia pressing down upon her, is unable to devote the necessary funds to the nationalization of her railways. The government has proposed a plan to raise the necessary funds by the sale of government bonds, but this plan has met with considerable opposition.

CONDITION OF TRADE WITH MANCHURIA. While Japan Stands for Open Door It Will Temporarily Exclude Foreigners from Dalny and Port Arthur. TOKYO, March 31.—(Special Cablegram to The Bee.)—The subject of the nationalization of the railways of Japan, a subject in which Americans are interested, is being discussed with intensity, pro and con. The subject has long been discussed, but its magnitude has compelled a postponement of an attempted solution of the matter. It is clear that Japan with all of the burdens of the recent war with Russia pressing down upon her, is unable to devote the necessary funds to the nationalization of her railways. The government has proposed a plan to raise the necessary funds by the sale of government bonds, but this plan has met with considerable opposition.

CONGO COMMISSION REPORTS. Several Changes Are Recommended by Men Who Have Investigated the Situation. BRUSSELS, March 31.—(Special Cablegram to The Bee.)—It is understood that the Congo commission of reforms, which reported this week, fully endorsed the conclusions of the inquiry commission in their report, addressed to the Belgian government. The commission recommends that existing laws concerning the land regime and forty hours' labor tax should be enforced strictly, firearms should no longer be entrusted to native soldiers, the right of compulsion be withdrawn from the commercial companies, and military expeditions be regulated. The commission also emphasizes that urgent reforms are needed in the administration of justice, among them the grant of entire freedom to public prosecution, which has hitherto been under the influence of the central administration. The Congo government intends to take immediate steps to introduce the reforms proposed by the commission. Instructions have been telegraphed in that sense to General Wauls, governor-general, and to the vice-governor of the state. It is hoped that the reforms will be prompt, for there is a rising feeling of discontent among the Congo people, and the recent debate in the Belgian house has considerably enhanced that feeling.

NEW PLAN FOR RECRUITING. British War Department Will Spend Money to Get Men Into Army. LONDON, March 31.—(Special Cablegram to The Bee.)—During the next twelve months a mighty effort is to be made by the War department to bring about a better state of recruiting. Scarlet and gold lace will be flung to the gale of the raw youth in the dress of the new peaked cap, and much will be made of the new peaked cap for the private, his shillings a week pocket money and his chances of employment after service. About \$15,000 will be spent on advertising and \$20,000 will be given as bonuses for extensions of service. Over \$6,000 will be saved among the indoor or office staff of the recruiting branch at the War office. Colonel Sir Edwin Wood is presiding over a committee to consider what attractions can be offered to the prospective recruit in the way of employment on leaving the colors.

UNITED IRISH PROSPEROUS. Society Holds Meeting at Which Reports of Growth Are Submitted to Public. DUBLIN, March 31.—(Special Cablegram to The Bee.)—At its sixth annual meeting, just held, the national directory demonstrated in its report the rapid and continued growth of the national organization. According to these reports the development of the United Irish league, tested by the number of new branches or the total subscriptions, is prominently satisfactory. Beyond a comparison last year was a successful one of its existence. The subscriptions, as compared with the previous year, were \$15,000 to \$22,000. The number of branches had increased by 178 to the total of 1,466, which is the present muster roll. The secretary reported activity and enthusiasm on the part of existing branches. He also reported requests for the establishment of branches in districts which have hitherto lain outside the sphere of influence of the organization. Subsequent resolutions showed a determination to organize further the forces of large districts already in revolt against the unionists. Provision was made for fuller nationalist registration in such districts in preparation for the next election. On the general questions of the restoration of the being tenants and the redistribution of grass lands the report may be said to be decidedly encouraging. The secret instructions by which Mr. Wyndham had, in defiance of his pledge to the House of Commons, deliberately hampered the work of the organization and redistribution, the secret instructions which constrained the commissioners to put aside all things else, save to push the sales through at big prices, have been cancelled. It was reported. Hope was expressed that the long vexed question of reinstatement will have moved a long way in the direction of a complete settlement before the next six months have elapsed.

AGREE UPON TREATY. Conference on Moroccan Affairs Reaches an Accord on All Points. FRANCE AND SPAIN CONTROL POLICE. Inspector Will Report to Diplomatic Corps at Tangier. FINDING IN NATURE OF A COMPROMISE. Principle of the Open Door Insisted Upon by Germany is Preserved. CONTENTION OF FRANCE RECOGNIZED. Agreement Made Largely to the Efficient Mediation of the Delegates from the United States. ALGERIAR, March 31.—After a plenary session lasting until 6 o'clock this afternoon the conference on Moroccan reforms registered a complete accord and appointed a committee to embody this accord in a formal protocol. The consummation of the work in the conference was announced in the following official communication: The conference has terminated its labors and accord is established upon all points. It has adopted a definite text of the reform program and has agreed upon the distribution of police at ports, was both France and Spain. France and Spain together will police Tangier and Casa Blanca, subject to an inspector of police. The government declined to appoint an officer. The conference has appointed a special committee to revise the text of the agreement. This committee will meet Monday morning to consider the final formalities of the protocol. Mr. White, the American delegate, is of the opinion that the result is a satisfactory one, not only because the immediate future of Morocco is secured, but because the manner of the settlement is satisfactory to the reform program and removes the causes of friction and restores international relations to normal. The principles for which Germany insisted, the integrity of Morocco and equal commercial and economic rights there, Mr. White thought were recognized, while the special position claimed by France was also recognized.

STATEMENT BY MRS. STORER. Wife of Ambassador to Austria, Denies Abusing President's Confidence. VIENNA, March 31.—Mrs. Bellamy Storer, wife of the retiring American ambassador, has reconsidered her decision to maintain complete silence in regard to the controversy aroused over her husband's recall. In the course of an interview today with the Associated Press she said: After consultation and following the advice of many of our friends, particularly that of the Marquis de Reversaux, the French ambassador, I have formally denied that I ever abused a letter of President Roosevelt as has been asserted in the Washington Herald. I have written a letter last December on another subject, but it is all I wish to say about the matter. My husband nor myself is going to indulge in recriminations against the president. We will wait and see what the future will bring. We will not publish our reasons for the recall of Mr. Storer until many months of the right being on our side.

INDIAN RECORDS ARE STOLEN. Rolls of Seminole Indians Abstracted from Vault of the Daves Commission. FORT WORTH, Tex., March 31.—A special agent of the Bureau of Indian Affairs, I. T. Daves, reported today that the rolls of the Seminole Indians, which are of great value to the government, had been stolen from the vault of the Daves commission. The rolls contain the names and addresses of the Seminole Indians, and they are of great value to the government. The rolls were stolen from the vault of the Daves commission, and they are of great value to the government. The rolls contain the names and addresses of the Seminole Indians, and they are of great value to the government. The rolls were stolen from the vault of the Daves commission, and they are of great value to the government.

WOMEN HELP HUNGARIANS. Society Leaders Collect Large Sum to Aid Opposition to the Throne. VIENNA, March 31.—(Special Cablegram to The Bee.)—The fund started by the Hungarian women for the aid of the opposition to the throne, has been a great success. Over \$50,000 was collected during a musical concert given by Countess Louise Bathany. The women talked over the political situation and Countess Bathany started the fund by taking of a string of valuable pearls and giving it to the fund. Many others followed her example, bringing diamonds, rings and earrings.

Mining is Suspended. Half Million Coal Diggers Take Their Tools from the Workings. SOUTHWESTERN OPERATORS IN SESSION. Telegram Sent to President Asking Him to Name Arbitration Board. IOWA OPERATORS WILL SIGN TUESDAY. Western Kentucky Striked Yesterday and Pittsburg, Parts of Indiana and Illinois Will Sign in Few Days. INDIANAPOLIS, March 31.—No general strike order was issued by the national executive board of the United Mine Workers as a result of the all-day meeting of that body here today. The meeting was held for the purpose of completing arrangements to carry out the policy committed to the board during the national convention of the miners which closed Friday afternoon. This was made effective by authorizing the district and sub-district officers to sign contracts wherever the operators signify their willingness to pay the 1905 scale, which provides for an increase of 5.58 per cent on wages. The district officers and board members have notified the local unions that the miners may cease work at the expiration of the present wage scale at midnight and remain out until ordered back to work under a new contract. One of the acts of the board was to authorize the sending of a telegram to President Roosevelt, notifying him of the decision to sign the new contract. The telegram was signed by the district officers and board members, and it was forwarded by President John Mitchell simply announces the adoption by the miners' convention of the Perry resolution which is quoted verbatim. Iowa Will Sign Tuesday. It was reported unofficially at the national headquarters of the miners today that the operators of the local union that the miners will sign the new contract on Tuesday. The signing of contracts by the operators in western Kentucky is accepted by the miners' officials as an indication of what may be expected elsewhere. Application was received at the national headquarters of the United Mine Workers today for the signing of all the miners in the Pittsburg and the authority was transmitted at once by telegraph. The 3,000 miners in this region will continue at work. Bennett Brown, representing several large mines in southern Illinois, made personal application to President John Mitchell today to be allowed to sign the new contract. He was told that the report would be in readiness for him on his arrival at Springfield and that the district officers there have power to act in the matter and order the men back to work. It was said also at national headquarters that all the mines in Indiana south of the Baltimore & Ohio Southwestern railroad have made application to be allowed to sign the new contract. The operators of these mines are not members of the Operators' association in the central competitive field. President John Mitchell refused to discuss the outlook today. He will leave Indianapolis tomorrow afternoon and will be in New York in time to meet the miners' members of the committee before the sub-committee meets tomorrow morning. Secretary-Treasurer W. B. Wilson and the other members of the national board will leave for Pennsylvania tomorrow, where they will have charge of signing up contracts in the Irwin region. Vice President Tom L. Lewis went to Columbus, O., tonight. He will assist the district officers in preparing their contracts for the miners of the Pittsburg Coal company and its consolidated interests in that state. Operators Ask for Arbitration. The executive committee of the operators of the southwestern district today sent the following telegram to President Roosevelt: INDIANAPOLIS, March 31, 1906.—To the President of the United States: The operators of the southwestern district of the United Mine Workers of America are anxious to sign the new contract, but they are unable to do so because of the refusal of the miners to sign the new contract. They are therefore asking you to appoint an arbitration board to settle the dispute between them and the miners. They are sure that you will do what is just and fair in this matter. W. C. PERLEY, President, Southwestern District Operators Association. It is announced by the district and board members that the miners will avail themselves of the opportunity to remedy many local grievances in making the separate contracts. They will also enter into a contract with an open union, besides meeting all of the scale contract requirements, he promises to attend and participate in the next interstate movement conference when it is called. The miners are thus to make strenuous efforts to preserve competitive district lines through the interstate relations between themselves and the operators. Mr. Robbins Ready to Sign. PITTSBURG, Pa., March 31.—Following the full day session the Pittsburg district miners' convention adjourned this evening to meet again on Monday after appointing a new committee of four with full authority to sign up all operators who are willing to pay the 1905 scale. The committee will include Chairman Francis L. Robbins of the Pittsburg Coal company by appointment on Monday, when Mr. Robbins will sign the scale for two years. This action means that there will be no strike in the Pittsburg district so far as the miners employed by the Pittsburg Coal company are concerned. While the mines will be closed Monday, which day is set aside in commemoration of the eight-hour work day, all the works of this company will resume operations on Tuesday. It is believed that a majority of the independent operators will eventually sign the 1905 scale, but not until after their meeting which is scheduled for the latter part of next week. All Kansas Mines Close. PITTSBURG, Kan., March 31.—All the coal mines in the Kansas district signed
