receipts were 178 cars, with 12 of contract grade.

Sentiment in the oats pit was inclined to be bearish, but prices held steady for the greater part of the day. Pit traders were the principal sellers. The market was inclined to follow wheat. May opened unchanged at 20%c, sold between 30%c and 30%c and closed at 20%c. Local receipts were 128 cars.

Provisions were firm on a fair demand by pit traders and commission houses. Trading, however, was light. At the close May pork was up 150 at 16.25. Lard was 12%c at 28.63.

Estimated receipts for Monday: Wheat 3 cars: corn, 171 cars; oats, 186 cars; hogs. 18,00 head.

Foreign Financial.

LONDON, March 31.—Money was much wanted today for calls and dividends, totalling nearly \$15.000.000. About \$8.000.000 in bar gold will be available April 2 and it is expected that most of it will go to France. Discounts were easy. An early reduction of the hank rate is expected. Trading on the stock exchange was rather more cheerful, but the usual week-end stackness prevailed. Consois were in fair demand and rallied slightly on the monetary prospects. Home rails were easy. Americans opened easy and recovered to well above parity. Union Pacific was the feature. The prices were not maintained at the best quotations of the day and they closed steady. Fogoigners were quietly firm on Paris advices. Kaffirs were tily steady. Japanese imperial 6s of 1904 were quoted at 104%.

BERLIN, March 31.—Prices on the bourse today were firm and had an upward tendency.

CLOSE IS FIRM AT BEST PRICES Pittsburg Coal, United States Steel, Hill and Harriman Pacifics Made Handsome Net

Advances.

NEW YORK, March 31.—The slight opening price recessions in the stock market today were due largely to sympathy with the London market, in which prices of Americans moved irregularly. The level of prices was restored early in the dealings are not and the market displayed varying strength up to the closing, which was firm and about the best prices.

The movements were not wide and transactions were not large, but it was evident that the speculative party, which has embarked in the market this week saw nothing in the day's development to change its position, which is to await a revived public demand for securities, which is expected to follow the noped for releasant to in the money markets next week. Conditions in the coal industry had specially the decision of the miners to accept the terms offered by that portion of the soft coal operators which concedes the miners demands instead of making a shut-down or production general. This is supposed to be a direct benefit to the United Steel corporation, whose supply of facil is concerned, and the United States Steel stocks were strong in consequence. The Pittsburg coal stocks were marked up briskly after lying dormant for a long time. Rumors were busily direculated at the same time that the plan for the disposition of the United States Steel stocks were strong in consequence. The Pittsburg coal stocks were marked up briskly after lying dormant for a long time. Rumors were busily direculated at the same time that the plan for the disposition of the Great Northern's iron ore lands to the United States Steel corporation of the Hill stocks and of the Harriman Pacifics was attributed to this rumor, which has been many times revived in Wall street.

East prices were made after the appropriate of the humb attributed to this rumor, which has been many times revived in Wall street.

East prices were made after the appropriate of the humb attributed which is to account. NEW YORK, March 31 .- The slight open-

has been many times revived in wall street.

Eest prices were made after the appearance of the bank statement which was better than had been expected. A further consignment of \$1.250.000 of imported gold, due to arrive today, will appear in maxt week's bank reserves. There was continued discussion of further probable engagements of gold for import. Rates for sterling exchange, however, were marked up sharply today, although the Saturday market is only nominal.

Total sales of bonds par value were \$1.000.000.

season of the year. At the same time local packers have been free buyers and the market throughout the week has been in a most satisfactory condition. The buyers took everything as it came, no quotable change occurring from day to day, so that at the close of the week values are practically where they were one week ago.

The market on the better grades of cows and helfers has followed practically along the same lines as the market on beef steers. No changes of any importance, so far as values are concerned, have taken place during the week, and without exception every one is quoting the market steady with a week ago. Common to medium cows, old and rough stock, or anything on the canner order, has not been sought after and the trade has been dull practically every day on that kind. While prices have been weak, the market can hardly be called much lower than it was one week ago, for that kind of cattle broke considerably has week.

Stockers and feeders have been free sellers all the week, especially those of good quality, and at the close of the week are fully steady with last week.

HOGS-Business was slow and dull in the

well advanced before a clearance was effected.

Two features of interest might be mentioned in connection with the bog trade this week. In the first place prices reached the highest point of the year on Friday, the top price that day being the highest paid in almost three years. Another feature of fully as much interest was the change in the relative position of light and heavy hogs. For some time back heavy hogs have been selling at a premium over light weights. During this week better demand has developed for choice light hogs, especially those on the butcher weight of der, and they are now selling right up with heavy hogs. In fact the highest price paid during the week was for a load of 122 pounds average. The market at this point all the week has been in very satisfactory condition, the demand being good and prices high as compared with other selling points.
