A Common Sense Talk.

S we get health and happiness from the sunshine, so do we get strength from the as Nature furnishes it to us. Just as mould thrives in darkness, so does disease. If all the animal kingdom, including human beings, lived out in the good air and in the sunshine, close to Nature, without taking foul air into their lungs and improper food into their stomachs, the precentage of sickness in this world would be reduced to a minimum-but civilization has brought its ills to mankind, and to correct these ills we must go to Nature for the remedy. We advise nothing but what is right when we recommend to you a medicine which is purely vegetable and made from native, medicinal roots found in the depths of our American forests. It is a medicine the makers of which are not afraid to tell you of its composition. We recommend Dr. Pierce's Golden Medical Discovery for a run-down system in all cases of impaired vitality, and we give you a few extracts from well-known and recognized medical authorities in regard to the ingredients contained in this medicine, which can confidently be depended upon for the most positive curative action in all weak states of the stomach accompanied with distressing indigestion or dyspepsia.

This medicine takes its name from Golden Seal root (Hydrastis Canadensis), which is one of its principal ingredients.

We take up each ingredient of the "Golden Medical Discovery" and quote our authorities for its use under the headings of Golden Seal root, Queen's root, Stone root, Black Cherrybark, Bloodroot, Mandrake root and chemically pure Glycerine.

World's Dispensary Medical Association, Prop's, Buffalo, N.Y.

GOLDEN SEAL ROOT (Hydrastis Canadonsis).

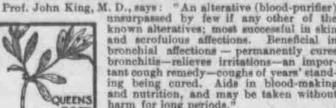

Dr. Roperts Bartholow, Jefferson Medical College of Philadelphia, a recognized authority on Materia Medica and Therapeutics, says of Hydrastis (Golden Seal): "Very useful as a stomachie tonie (stomach tonie) and in atonie dyspepsia. Cures gastric catarrh (catarrh of stomach) and headaches accompanying same. In catarrh of the gall duct and jaun-

dies, it is of especial utility. Constipation, dependent upon different deficient secretions, with hard and dry stools, may be overcome by the remedy. Chronic catarrh of the intestines, even if it has proceeded to ulceration, is remarkably benefited by Hydrastis."

From "Organic Medicines," by Grover Coe, M. D., of New Cork, we extract the following: "Hydrastis (Golden Seal) exercises an especial influence over mucous surfaces. Upon the liver it acts with equal certainty and efficacy. As a cholagogue (liver invigorator), it has few equals. In affections of the spleen, and abdominal viscera generally, it is an efficient and reliable remedy. Also in scrofula, glandular diseases generally, cutaneous eruptions, indigestion, debility, diarrhosa and dysentery, constipation, piles and all morbid and critical discharges."

The foregoing certainly are wonderfully strong endorsements of one of Dr. Pierce's chief ingredients used in his "Golden Medical Discovery."

QUEEN'S ROOT (Stillingle Sylvatice).

unsurpassed by few if any other of the known alteratives; most successful in skin and scrofulous affections. Beneficial in bronchial affections - permanently cures bronchitis—relieves irritations—an impor-tant cough remedy—coughs of years' stand-ing being cured. Aids in blood-making and nutrition, and may be taken without harm for long periods."

R. Bartholow, M. D., L. L. D., says:

"Stillingia has long been in repute as an alterative and employed for scrofula in its various forms. Most satisfactory results have been obtained from its use in syphilitic affections. Recommended in habitual constination. liver, jaundice, piles, ascites (dropsy), due to hepatic (liver)

STONE ROOT (Collinsonia Canadensis).

"Alterative, tonic, stimulant. Valuable in laryngitis-' ministers' sore throat.' In diseases of stomach and intestines-im proves appetite, promotes flow of gastric uice; tonic effect upon organs involved. A

good remedy in indigestion, dyspepsia, chronic gastritis, increasing the secretion from kidneys and skin."—American Dis-Edwin M. Hale, M. D., Professor Materia Medica in Hahnemann Medical Collège of STONE

Chicago, says: "There is no doubt of Collin-ROOT sonia's action on the urinary organs. It has cured disorders supposed to be due to gravel, catarrh of the bladder and dropsy from deficient action of the kidneys. Cures irritation of the cardiac (heart) nerves, with rapid, regular or irregular beating. Useful in valvular

BLACK CHERRYBARK (Prunus Virginiana).

Roberts Bartholow says: "Wild Cherrybark is an excellent stomach tonic; it has long been held in great esteem in domestic practice as a remedy in catarrhal states of the bronchial mucous membrane and in phthisis (consumption)." "The sirup is much used as an ingredient in cough mixtures."

Professor F. Ellingwood, M.D., of Bennett Medical College, Chicago, says: "The tonic influence of this agent is more markedly apparent when it is administered in disease of the respiratory apparatus (breathing organs) of a subacute (mild) or (lingering) chronic character. A common remedy for chronic coughs, the cough of nervous patients without apparent cause; is popular in

the treatment of mild cases of palpitation. Palpitation from disturbed condition of the stomach is directly relieved by it." MANDRAKE ROOT (Podophyllum Pollatum).

"Certain, sure cathartic; leaves bowels in improved condition. A gentle stimulant tonic; improves the appetite. Particularly valuable in dyspepsia,

gastric and intestinal catarrh. Beneficial in some affections of bladder."-American "Recommended in billousness with marked inactivity of the liver, sallow skin and MANDRAKE

conjunctiva (eyes), constipation, dry stools and bloated bowels, highly colored urine containing uric acid, or trates in great excess. Is given in jaundice, gall-stones, piles; is an alterative in plethoric (full blooded) conditions, in skin diseases and in scrofula and syphilis."—F. Ellingwood, M. D.

BLOODROOT (Sanguinaria Canadensis).

"Stimulates digestive organs, increases action of heart and arteries—stimulant and tonic. Very valuable as a cough remedy-acts as a sedative -further valuable as an alterative."-American Dispensatory.

"Overcomes congestion of the lungs, after severe cold in the chest from exposure. Given in bronchial coughs, in membraneous crow. It equalizes the circulation of the entire system, inducing warmth in the skin and in the extremities. It will assist in overcoming hepatization (solidification) of lung structure and restoring normal tone and normal functional action."-F. Ellingwood, M. D., of Bennett Med. College.

"Has most frequently been employed in incipient phthisis, bronchitis, influenza, pneumonia, croup, asthma, diphtheria, in scariatina, dyspnosa (short breath), dyspepsia, hydrothorax (dropsy of the chest) and jaundice."—Edwin M. Hale, M. D.

"Its most important therepeutical effects are witnessed in diseases of the respiratory (breathing) organs. Used in croup, in functional amenorrhosa (absence of menses), chronic nasal catarrh and nasal polypi."—R. Bartholow, M. D.

GLYCERINE.

The United States Dispensatory says of Glycerine: "When given internally it is laxative, and it has also been suggested as substitute for cod-liver oil in phthisis (consumption). "The solvent and preservative properties as well as agreeable taste and permanent consistence of glycerine, render it very use-ful as a menstruum (a solvent) in pharmacy."

Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says of Glycerine: "For internal use, Glycerine is anti-septic, laxative and nutritive, taking the place of cod-liver oil to a large extent with children in the latter particular. This fact is denied, but is capable of demonstration

"It prevents decomposition in the stomach and encourages secretion, and if a small quantity be added to ice water and drank regularly in these fevers it is an intestinal antiseptic

"In dyspepsia it serves an excellent purpose. Holding a fixed quantity of the peroxide of hydrogen in solution, it is one of the best manufactured products of the present time in its action upon enfeebled, disordered stomachs, especially if there is ulceration or catarrhal gastritis (catarrhal inflammation of stomach) it is a most efficient preparation. Glycerine will relieve many cases of pyrosis (heartburn) and excessive gastric acidity. It is useful in chronic intestinal dyspepsia, especially the flatulent variety, and in certain forms of chronic constipation, stimulating the secretory and excretory functions of the intestinal glands."

Nearly Forty Years Ago.

Dr. Pierce discovered that pure, triple-refined giveerine of proper strength is a better solvent and preservative of the active medicinal principles residing in most of our indigenous or native medi-cinal plants than is alcohol. As its use is entirely unobjectionwhile alcohol as is well-known when used even in small portions, for a protracted period, does lasting injury to the human system, especially in the case of delicate women and children, he decided to use chemically pure glycerine instead of the usually employed alcohol in the preparation of his medicines. He found that the glycerine, besides being entirely harmless, possesses intrinsic medicinal properties, of great value. Its nutritive properties, Dr. Pierce believes, far surpass those of cod-liver oil, entitling it to favorable consideration in all cases of cod-liver oil, entitling it to invorable consideration in all cases of incipient consumption, especially when it is combined with the active medicinal principles extracted from Black Cherrybark, Queen's root, Stone root, Golden Seal root and Bloodroot, as in "Golden Medical Discovery." Besides its superior nutritive properties, glycerine is a very valuable demuicent and thereby greatly enhances the remedial action of all the foregoing roots greatly enhances the remedial action of all the foregoing roots in the cure of several coughs, brouchial, throat, laryngeal and other kindred affections of the air-passages and lungs. In all "wasting diseases," where there is loss of flesh and gradual "running-down" of the system, the glycerine certainly plays an important part in lessening the breaking down and wasting of tissue, and in promoting assimilation and increase of bodily weight. It is, in Dr. Pierce's estimation, a powerful reconstructive agent in all cases of impaired vitality and especially valuable tive agent in all cases of impaired vitality and especially valuable when associated and combined with such superior alteratives and tonics as in "Golden Medical Discovery." Its wonderful solvent properties also play an important part in the cure of gall-atones, severe constipation, with dry and almost impacted stools. Glycerine is also one of the very best anti-ferments and as such counteracts the excessive fermentation of foods in the stomach, present in most cases of indigestion or dyspepsia. Thus the pain, belching of noxious gas, bloating and other disagreeable symptoms are overcome and the Stone root, Golden Seal root, Bloodroot and other ingredients of "Golden Medical Discovery" are greatly assisted in their action in completing a cure. As will be seen from the writings of Drs. Bartholow, King, Scudder, Coe, Ellingwood and other high authorities, these agents can confidently be depended upon for the most positive, curative action in all atonic, or weak, states of the stomach, accompanied with distressing indigestion or dyspepsia. Read from the writings of the authorities quoted, under headings of Golden Seal root, Stone root, Black Cherrybark, Bloodroot, Queen's root and Mandrake root and you will find that all these ingredients are recommended as remedies for indigestion or dyspepsia.

All are ingredients of "Golden Medical Discovery," combined in such perpertions that each enhances the curative action of all the others.

WHOSE SAY-SO IS BEST?

With nearly all medicines put up for sale tarough druggists, one has to take the maker's say-so alone and exclusively as to their curative value. Of course, such testimony is not that of a disintrested party and accordingly is not to be given the same credit as if written from disinterested motives. Dr. Pierce's medicines, however, form a single and therefore striking exception to this rule. Their claims to the confidence of invalids does not rost solely upon their numers and makers' say-so or praise. Their ingredients are matters of public knowledge, being printed on each separate bottle wrapper. Thus invalid sufferers are taken into Dr. Pierce's full confidence. Scores of leading medical men have written enough to fill volumes in praise of the curative value of the several ingredients entering into these well-known medicines. Amongst these writers we find such medical lights as Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago; Prof. Hale, of the same city; Prof. Jno. M. Scudder, M. D., late of Cincinnati, Ohio; Dr. Grover Coe, of New York; Dr. Bartholow and scores of others equally eminent.

The writings of these have been for the various medical journals and for publication in standard medical books for pro-

various medical journals and for publi-cation in standard medical books for pro-fessional reading and instruction, and cation in standard medical books for pro-fessional reading and instruction, and hence are the more valuable as they re-late to Dr. Pierce's medicines, since the writers did not know that they were en-dorsing and recommending articles that enter into the composition of these medi-cines and had no personal interest what-ever therein. Hence, their great value as endorsements.

as endorsements.

A brief synopsis, of a small part only, of these extensive writings, which apply to the several ingredients entering into Dr. Pierce's Golden Medical Discovery—the world-famed remedy for weak stomach, or dyspepsia, torpid or congested liver, billousness, ulceration of stomach and bowels and kindred aliments—has been compiled for publication in book form. These extracts also treat of the several ingredients entering into the several ingredients entering into the composition of Dr. Pierce's Favorite Pre-scription for weak, over-worked, "run-

seription for weak, over-worked, "rundown," debilitated, nervous women, who
find in it a priceless boon.

Send your name and address by postal
card or letter, with request for this little
book, to Dr. R. V. Pierce, Buffalo, N. Y.,
and it will be mailed free to your
address. From it you will learn why
"Golden Medical Discovery" cures catarrh of the nasal passages, even though
of years' standing. It is a most potent

"Golden Medical Discovery" cures catarrh of the nasal passages, even though of years' standing. It is a most potent constitutional remedy for this terribly common and generally unsuccessfully treated malady. The cure will be facilitated if Dr. Sage's Catarrh Remedy be employed to cleanse out the nasal passages at the same time that the "Discovery" is employed for the constitutional treatment.

The "Discovery" is equally efficient in the cure of catarrh of the stomach and bowels, and in cases of ulceration of these organs. Read what Doctors King, Scudder, Grover Coe, and others say of the curative properties of Golden Seal root and of Stone root in cases of the above diseases. Both these roots are important ingredients of "Golden Medical Discovery." From the writings of these same authors you will learn, why the "Golden Medical Discovery" cures chronic, or lingering aliments of the throat and bronchla attended with hoarseness, cough, soreness and kindred symptoms. Several of the ingredients in the "Golden Medical Discovery" are highly recommended for their specific, curative effects in laryngitis, or "Speakers' sore throat," as well as in incipient consumption and obstinate, lingering coughs, which, if neglected or badly treated, are apt to end in consumption.

From the same little book you may learn why Dr. Pierce's Favorite Prescrip-From the same little book you may learn why Dr. Pierce's Favorite Prescrip-

tion cures the worst cases of female weakness, prolapsus, anti-version and rotro-version and corrects irregularities, cures painfull periods, dries up disagre-able and weakening drains, sometimes curse painfull periods, dries up disagreeable and weakening drains, sometimes known as pelvic catarrh, and why inflammation of the ovaries and a multitude of other diseases peculiar to women, readily yield to its marvelous curative potency. Bear in mind, it is not a patent nor even a secret medicine, but the "Favorits Prescription" of a regularly educated physician, of large experience in the cure of woman's peculiar aliments, who frankly and cheerfully takes his patients into his full confidence by telling them just what his "Prescription" is composed of. Of no other medicine put up for woman's special maindies and sold through druggists, can it be said that the maker is not afraid to deal thus frankly, openly and honorably, by letting every patient using the same know exactly what she is taking.

That every ingredient entering into Dr. Pierce's Favorite Prescription has the endorsement of the lending medical writers of the age amply attests its harmless character as well as its sterling curative value. Send your address for the little book and read what some of the most eminent medical men of this century say of the curative properties contained in the several ingredients which go to make up Dr. Pierce's leading medicines. No other medicines are backed up by such marvelous, disinterested, professional endorsements. This one fact is worth more and should have more weight in determining whether these non-secret medicines, or some secret compounds without professional endorsement and with only the makers' praise to recommend them, are best and most likely to effect important cures.

In favor of Dr. Pierce's medicines is the

are best and most likely to effect important cures.

In favor of Dr. Pierco's medicines is the frank, confiding, open statement of their full composition, giving every ingredient in plain English, without fear of successful criticism and with confidence that the good sense of the afflicted will lead them to appreciate this bonorable manner of confiding to them what they are taking into their stomachs when making use of these medicines.

Dr. Pierce's medicines are made from harmless but efficient medicinal roots found growing in our American forests. The Indians knew of the marvelous curative value of some of these roots and imparted that knowledge to some of the friendlier whites, and gradually some of the more progressive physicians came to test and use them, and ever since they have grown in favor by reason of their safe have grown in favor by reason of their superior curative virtues and their safe and harmless qualities. The little free book mentioned in the preceding column will tell you all about the properties and uses of these most valuable medicinal roots. Send for it now.

Your druggists sells the "FAVORITE PRESCRIPTION" and also that famous alterative, blood purifier and stomach tonic, the "GOLDEN MEDICAL DISCOVERY." Write to Dr. Pierce about your case. He is an experienced physician

YOUNG MAN WITH A HISTORY

W. C. Ivers Hero of Fall from Top of Eight-Story Building.

NOW CATERER OF UNION PACIFIC IN OMAHA | the supreme court decision in the Mercer

Comes Here with His Bride from Denver, Where He Had His Thrilling Experience Long Time Ago.

Walter C. Ivers, who has recently come with his bride from Denver to take charge of the restaurant at the Union station for the Union Pacific, is a man with a history. Sixteen years ago when a boy of il years, he fell from the top of the ten-story Railroad building in Denver. The story was printed and related all over the coun- grading, curbing and guttering and damtry at the time. It assisted as much as the Cherry creek flood in making Denver Railroad building at Fifteenth and Lari- the council. mer streets has been pointed out to tourists as the scene of the remarkable fall. Commonly the tale runs that Ivers fell 140 feet, struck some telegraph wires, bounded upward, came down again and struck a horse, broke the animal's back and got up and limped away. This appears to be correct except that the horse was and remained in bed nine weeks, finally making a complete recovery. The building had a right to collect the taxes levied." was then the highest in Denver and Ivers and his brother had climbed to the top to get the sensation. Ivers got it and fell off. After his legs mended he did not go into a museum, but attended the East Denver High school, where he won three edals for oratory, declamation and debate. Later he was employed by the Denver Athletic club and the Denver club.

His marriage with Miss Camilla Hansen. daughter of a large contractor, was sol- raid on a cheap lodging house at Tenth ents, 766 South Tenth street, Denver, a men, all sleeping in the same bed. One few days ago. A big wedding reception of the men paid 25 cents for the room Mr. and Mrs. Ivers will live in Omaha.

Speaker Tells What He Meant Recent Reference to Tariff, Legislation.

WASHINGTON, April 6.—Speaker Cannor today made a further explanation of the letter recently written by him to a friend indicate that tariff revision would probably come in the future.

The statement of the speaker today is as was not aware that I was writing a letter for publication, although I have no objection to its publication. There are many people in the country who believe that a single schedule or a few schedules of the tariff may be amended. This is entirely impractical, for while an amendment to a single schedule might please a single interest it could not command enough votes to enact it.

revision will be entered upon I have no doubt, but for the general interests of the whole country the revision should be postponed as long as possible. Congress reflects the will of the people and the house of representatives is chosen every two years. There will be a general congressional election next November. Our friends, the enemy, insist on an immediate revision of the tariff. If a majority of the people demand immediate, general revision they will elect a majority of the members of this house in favor of immediate general revision.

Department Commanders Changed WASHINGTON, April 6.-Lieutepant Gen. eral Bates, chief of staff, has issued orders assigning Brigadier General McCaskey to the command of the Department of Texas and Brigadier General Bubb to the command of the Department of Dakota. These commands have been temporarily filled for several months past by Colonel M. B. Hughes of the Second cavalry and Colonel O. J. Sweet of the Twenty-eighth infantry. respectively.

being built, in addition to several business blocks.

"Scott's Hiuff country is booming and the movement of land seekers to the country under the new government ditch, extending from Bridgeport to Guernsey, on the north side of the Platte river, is taxing the facilities of that section to the utmost. Hotels and livery stables cannot care for

Made in the Golden Sunlight

It is conceded by the highest authorities that the soda cracker contains the life-giving elements of wheat in the best proportions.

This being so, then Uneeda Biscuit must at once take first place as the food of the world-a soda cracker, but such a soda cracker! Made by exact science in sunny bakeries so light, bright and clean, that they are a revelation. The flour is tested; the purity of the water is absolutely assured; the very air is filtered-why even the temperature and moisture of the atmosphere is accurately regulated. The sponge is kneaded by polished paddles, not by hand. Indeed, Uneeda Biscuit are only touched once, and then by a pretty girl, from the time the flour leaves the bag until the beautiful package is placed on your table.

NATIONAL BISCUIT COMPANY

strengthen every part of the body, make it the ideal tonic for a disordered condition of the system. Every one feels the need of a tonic sometimes. The system seems to get "out of gear," the appetite becomes fickle, the energies are depressed, sleep is not restful or refreshing, and the entire body has a nervous, worn-out feeling. When the system is in this depleted, run-down condition it must be aided by a tonic, and S. S. S. is recognized everywhere as the standard. Being made entirely of roots, herbs and barks selected for their gentle action as well as their invigorating effect on the system, it will not disagreeably affect any of the delicate members or tissues as do most of the so-called tonics on the market which contain potash or some other harmful mineral ingredient. These derange the stomach and digestion, unfavorably affect the bowels or otherwise damage the health. S. S. S. tones up the stomach and digestion, improves the appetite, produces refreshing sleep, rids the body of that tired, run-down feeling, and supplies tone and vigor to the entire system. It re-establishes the healthy circulation of the blood, acts more promptly and gives better and more lasting results than any other tonic, and because of its vegetable purity is an absolutely safe medicine for young or old. S. S. S. acts admirably in cases of dyspep-

sia, indigestion and other stomach troubles, and after using it that uncomfortable feeling of fullness, dizziness or drowsiness, after eating, are no longer felt. Not only is S. S. S. the greatest of all tonics but possesses purifying and alterative properties, and if there is a taint in the blood it will promptly remove every trace and restore perfect health. In selecting your tonic for this year do not experiment but get S. S. S. the recognized standard.
