Colonel Baker, however, succeeded in having the bills allowed, but during the remainder of the session it was apparent that there was a certain amount restraint or coolness between him and the other members. At the close of the meeting none of the members cared to discuss the incident beyond admitting that there had been some heated talk during the session.

Attorney W. A. Mynster, on the certificate of Judge Thornell of the district court, to whom the claim had been referred by County Attorney Hess, was allowed \$240 for his services in taking the case of C. Rogers, convicted for the murder of Saloonkeeper Forney, to the supreme court. Mynster originally claimed \$300 for his service, he having been appointed by the court to defend Rogers.

Ms Cunningham was allowed \$1,800 minission under his former contract with the county as tax ferret, on the amount paid in by Stewart Brothers, under the compromise recently effected between that firm and the county.

T. A. Kirkwood, one of the property owners who signed the original petition for the establishment of the Pigeon creek drainage ditch, filed notice of his desire to withdraw his consent and same was referred to the county attorney.

The county auditor was directed to have a water meter installed in the county jail. When the bills for water supplied the court house and jail were presented the be something wrong. CANADIAN CATTLE BILL UP Member of British House Declares There is No Danger from Disease.

LONDON, April 6 .- In the House of Commons today Thomas Cairns moved the second reading of the bill to remove restrictions on the importation of Canadian cattle. Existing conditions, he said, were against the principle of free trade, were unjust to Canada and injured shipping interests. He declared that the bogey of disease has been dispelled and that removal of the restrictions would not affect the value of Irish cattle.

The members who opposed the bill based their objections on the risk of the reintroduction into Great Britain of the footand-mouth disease and on the preference which the bill gave Canada over the rest of the world.

William O'Brien, nationalist, said that if the restrictions were removed it would render at least 200,000 holdings in Ireland No. 111, United Commercial Travelers, has absolutely unprofitable and would destroy the Irish cattle trade. Finally, the Cairns bill was chalked out
