However, the progressive party is trying to secure exceptions to the standard set for purchase prices. The government party had the support of the members of the Daido club, which is accredited with holding the balance of power. One of the most powerful arguments used was that in America the private interests in control of the railways of the country had become so powerful that they had rendered nationalization almost impossible and that it would be wise to take action in Japan before it is too late.

PRESIDENT ROBINSON DISCUSSES CASE

Head of Organization Says Supreme Court of United States Does Not Agree with the Kansas Decision.

TOPEKA, Kan., April 7.—In a decision rendered here today, the Kansas supreme court held that the Kansas City Live Stock exchange is a trust and that all cattle mortgages made through members of that exchange are invalid. Millions of dollars worth of cattle paper will doubtless be affected by the decision.

HISTORY OF THE CASE

The case decided is that of the state against Wilson, which came from Shawnee county. In 1888 Charles L. Wilson and George Marks purchased of the A. J. Gillespie Commission company 402 steers, and in payment executed two notes to the company for \$12,386, securing the notes by a mortgage on the cattle. Two months later they sold 27 of these steers and it is asserted, represented to the purchaser that the cattle were clear of all incumbrance.

KANSAS CITY, Mo., April 7.—F. G. Robinson, president of the Kansas City Live Stock exchange, said this afternoon that he did not think the decision of the Kansas supreme court rendered today would have a serious effect on existing contracts of the exchange.
