WICKHAM TO DIG THE DITCH

Property Owners Involved Ask to Have Ol d Contract Revived.

BOARD ACTS FAVORABLY ON THE MATTER

Supervisor Brandes Issues a Statement Showing How Purchase of Poor Farm Has Saved Money for County.

Wickham & company will carry out their contract awarded them in 1902 for the construction of the Pigeon creek ditch. Property owners who will be benefited by the proposed drainage ditch are extremely anxious that there should be no further delay in commencing work and they and Wickham & company have come to terms and at yesterday's session of the board of county supervisors both the promoters and Wickham & company appeared by their attorneys and requested that the board recognize the original contract with Wickham & company. After some discussion the board rescinded its recent action declaring the Wickham contract cancelled and ordering the county auditor to reidvertise for new bids. Attorney Organ appeared for Wickham & company and the promoters and others interested in the litch were represented by former County Attorney Killingek.

The board adopted a resolution declaring that the work of construction of the ditch must be completed by January 1, 1907, provided, however, that in the event of delay in commencement of the work, caused by failure of the engineer in charge to complete the preliminary work before May 1. then the time for the completion of the construction shall be correspondingly extended. The board by resolution further directed that Wickham & company should proceed with the work without unnecessary delay. It was stated that Wickham & company were prepared to commence work as soon as the engineer set the stakes and laid out the route of the ditch.

The contract awarded Wickham & company in 1908 provided for the payment of 14% cents per cubic yard and it could not be learned yesterday whether under the agreement reached between the company and the promoters, this price was still to be in force or whether Wickham & company had consented to do the work at a lower figure.

Must Pay for Mistake. The Marne & Elkhorn Telephone company petitioned the board for a reduction in its tax assessment, it having reported to the state executive council by mistake a mileage of four miles in place of two miles. The assessment having been fixed by the state executive council, the board decided t had no jurisdiction.

The report of the county treasurer for er amarter of the year showed that the fees of the office were \$239, while a similar report from the county auditor showed the fees of that office for the same period had been \$288.75. The quarterly report of Sheriff Canning showed fees taxed. \$1,222,23; fees collected, \$938.01; mileage, \$119.00; due county, \$819.01; balance due sheriff for salary and one deputy for quarter, \$77.36.

The report of County Recorder Baird for the first quarter showed 2,259 instruments filed, for which the fees amounted to \$1,529.10 and by months as follows: January, fillings, fees, \$412.00; February feer \$457.30; March, 990 filings, fees, \$659.80. The board adjourned to next Tuesday

afternoon. Poor Farm Statement Henry C. Brandes of the Board of County Supervisors, who is chairman of the committee in charge of the county farm, yesterday issued the following statement regarding that institution in order that the taxpayers of Pottawattamie county might understand the saving to the county by having such a place to care for its poor;

For the information of the taxpayers

Total cost of poor, 1935

Savings to county by poor farm. \$13,242.95
The comparison is really unjust to the present system for the reason that the carly months of 1956 were unusually severe, expenses of the farm management were correspondingly high and there was much sickness among the poor, as there was among others. The effect of these adverse conditions is illustrated by the fact that there were during the y-ar eleven deaths; nearly all of them patients who were very old and most of them bed-ridden. The above figures, showing a saving of over \$12,000 under the present over the former plan, should settle finally and conclusively all questions whether it pays to have a county farm. That question has been discussed by taxpayers of the county for the past fifteen or twenty years. It was voted on in 1858 when the Board of Supervisors asked for \$40,000 for the purchase and equipment of the farm. It was defeated by a large majority, chiefly on the ground that the farm had not been located. In 1857 the Board of Supervisors secured an option on the Henry Cook farm of 520 acres at \$35 per acre, but the proposition again submitted at that time was defeated. The board was much discouraged, but resubmitted the proposition in \$101, asking for a levy of 1 mill, which would defeated. The board was much discouraged, but resubmitted the proposition in 1901, asking for a levy of I mill, which would amount to about \$23,000. The proposition carried. The cost of the real estate at \$77 per acre amounted to \$12,000, leaving but \$11,000 for improvements. The board however, deemed it wiser to erect buildings which would be permanently valuable and expended \$37,242 in this direction, making the total cost of the farm \$82,342.

Everything is now paid for and today Poltawattamie county has a farm well improved, with good buildings, modern, up-to-date improvements, and no other county in the state provides so good a home for its poor. We have the heat buildings for such purroses in the state. Superintendent Barritt is well known the county over as a good manager, with a kind and genas a good manager, with a kind and gen-erous heart, and it is not surprising that the board has heard no complaints from inmates of the farm regarding the treat-

inmates of the farm regarding the treatment they receive.

With all of these advantages some seem to have a dread of soing there. Many do not hesitate to ask for an allowance from the county, but seem to think it a disgrace to go to the county poor house.

Will Carlton's neem. "Over the Hills to the Poor House," does not apply to the modern home provided by Pottawattamic county for its dependents, but many seem still to retain the century-old idea of a "poor house," where the inmates were packed into scanty quarters and poorly provided into scanty quarters and poorly provided for. It is not our business to inquire whether misfortune or failure to save has brought these people to us. They must be cared for, and if we could do sway with the name "poor house" and call it the home for the poor. for the poor, or even the county fare people might be more willing to go there.
