

So You May Travel In Health and Comfort

Do we travel westward in search of invigorating rest and recreation?

Then let us get a good start and not find ourselves all "pulled down" when we get there.

California

has the most wonderful health-giving climate in the world. Why? Much oxygen in the air,— that means vigorous life—little oxygen means sluggish life.

Ordinary trains are "stuffy" because the people *and lights* use so much of this same oxygen—ordinary lights burn oxygen. Electric lights do not, they simply glow in a vacuum. That's why the air is better in Electric-lighted trains. The Union Pacific

Overland Limited

is Electric lighted throughout and is two meals the quickest and cheapest way to San Francisco.
