RANGERS PULL OUT WITH SEVEN HITS

Chicago Gets Mineteen Off Three Rourke's Young Men-St. Paul Gets a Chance Today and Tomorrow.

On a muddy field and between showers Comiskey's White Sox took the scalps right off Pa's colts at Vinton street park Sunday afternoon and won by the score of 12 to 1 before a bunch of about 309 of the diamond. They were active and seemed to take a special delight in trying. to put the ball over the right field fence. Pennell succeeded in the fifth inning and drove two in front of him and Green put it over the same spot in the seventh with two on balles.

The rain of Saturday and Sunday had put the field in bad shape, except at the home plate and pitchers' box, where a can-was had kept the ground fairly dry. Fast work was out of the question, for if a man home and loaves a good taste. After he had songs, music and jokes ready, then this afternoon from the Second Presbytried to speed up too much he was sure to he got busy with his real work, and the terian church. is, not enough of any kind to make a mar-ket. The receipts for the week show a falling off of right around 2,000 head, as compared with last year, but, on the other hand, there was a slight gain over a year ago. A very large proportion of all the cattle coming forward this week has consisted of beef steers, all other kinds of cattle being in moderate supply. While choice cattle have not been par-ticularly plentiful this week, there have been a good many loads of fair to good kinds, so that the market has been well supplied all the week up until Friday, when there was the usual falling off in the run. The market during the early part of the week showed very little change, it being quoted about steady, as compared to those prevailing at other market points. On Thursday there was an casing off, so that at the close of the week values are close to loe lower than at the close of the previous week. Foreign Financial. EDUCATION BILL A POSER Part Religious Instruction is to Play in New System Canses

Debate,

LONDON, April 8.-(Special Cablegram to The Bee.)-One of the most knotty of subjects which confronts the present liberal ministry of Sir H. Campbell-Bannerman is the education bill. It would appear as though there are almost as many different points of view upon this subject as there are people in the United Kingdom. The Bishop of Birmingham and Lord Hugh Cecil urge that parents should determine the kind of religious teaching which they wish their children to receive, and that the aroused. The Piccolo Midgets are four distate should make its business impartially minutive German athletes, who achieve a to see that this is provided. This principle variety of stunts in a way that shames a is said to have at least two grounds to lot of the grownups who have appeared in recommend it. The first is that the state alone can claim a primary right in the matter which would override the rights of the parents. The other contention is that gracefully. Wool Market. LONDON, April 7.-WOOL-The arrivals of wool for the third series of auction sales amount to 133.579 bales, including 78,-666 forwarded direct to spinners. The im-ports this week were: New South Wales, 5.254 bales; Queensland, 3.576 bales; Vic-toria, 1.164 bales; South Australas, 354 bales; New Zealand, 35,252 bales; Cape of Good Hope and Natal, 1.329 bales, China, 1.225 bale; various, 2,566 bales.

at the close of the week values are close to be lower than at the close of the previous week. There has been very much sameness to the cow market, good cows and helfers have been free sellers all the week at good steady prices, and at the present time are in practically the same notches as one week ago. Common, rough, thin and old cows on the canner and cutter order have been poor sellers every day. Prices on such cattle are not only low, but packers appear to have very little use for canning stock at the present time and it is a difficult matter for receivers to find a buyer. There is nothing new to offer regarding the stocker and feeder trade; good feeders have been in demand all the week and have sold at steady prices. Toward the latter part of the week there was some tendency toward accumulation in the hands of speculators, the country demand being rather light, but fortunately fresh supplies fell off in time to prevent any material change in the market. HOGS-Today's hog trade was practically a duplication of yesterday. The market opened a little bit stronger than yesterday's close, or about like yesterday morning. The early sales were largely on the basis of \$4.22, A little later on, after the more urgent orders were filled, the market cased of somewhat the same as it did yesterday, the later sales being largely at \$6.20. The built of all the hogs sold at \$6.3066.224, the same as yesterday, making the general market today fully steady with yesterday. While the trade was not very solive at the current prices, there were so few hogs hors that a reasonably early clearance was effected. BHEED-The market was especially bare this morning, there being helther stale nor

SHEEP—The market was especially bare this morning, there being neither stale nor fresh receipts to make a test of values. The market this week has been in very fair con-dition and such changes as have taken place have been on the side of a better range of values. about steady all the week. Incre being hardly any quotable change in either dire-tion. With the improvement on heavy sheep and ewes has come a better feeling all around and the trade this week has been in a good, healthy condition throughout. On most days the market has opened in good season, with the movement reasonably active, so that the arrivals have generally sold quite freely. There have been a good many buyers looking for sheep and lambs that would do to shear and feed out and they have kept such kinds as packers could not use well cleaned up. Taking everything into consideration, sellers have been very well satisfied with the week's operations. Shorn sheep and lambs are commencing to come forward, a few shipments having been received this week.
