M'VANN AND HIS MISSION

Commercial Club Commissioner Goes to

OMAHA MUST HAVE LOWER SCHEDULES

Unable to Secure Redress from Railroads, Resort is Made to the instate Commerce Commission Records at the Capital.

Commissioner E. J. McVann of the Comnercial club left lust night for Washington, where he will examine the records of the Interstate Commerce commission for nformation needed by the club in its endeavor to secure a reduction of rates from Omaha to South Dakota points. The railroads have refused to allow the club to see the tariffs on freight from Sloux City to South Dakota existing prier to 1902, when the rates were lowered for Sloux City and were left unchanged for Omaha. This makes necessary a trip to Washington.

Mr. McVann expects to return April 2L. "Everybody connected with the Commercial club knows the Milwaukee has promised to adjust the freight rates to the orth to the entire satisfaction of the Commercial club," said a prominent official of the Milwaukee road. "A big change in rates cannot be brought about on a oment's notice and many points along the line of a big system have to be considered. Our general freight agent and our third vice president were in Omaha some time ago and both promised this should be done and the road is now at work on a rew tariff. The grain rates to Omaha from South Dakota will also be taken care of."

What McVann Has to Say. Relative to this statement of the railroad

man, Mr. McVann said: "We have received no tariff showing that either the Milwaukee or the North western has reduced the rates from Omaha to Sloux City to the basis in effect Decemper 6, 1995, nor have we received any direct answer from them to the effect that the reduction would be made. This is the principal point of controversy between the emmercial club and the Milwaukee road.

"As to the rates to South Dakota points, the refusal of the Milwaukee and the Northwestern railroads to furnish the club essential information necessitates the club going to the expense and trouble of sending me to Washington to obtain the information. Both these roads changed the rate materially in 1902 from Chicago, St. Paul and Sioux City to nearly all points in outh Dakota, and as a matter of right and justice they should have made the same changes in the rates from Omaha to the same points. Instead, they ignored us and left our rates so high to many points that they actually exceed the rate to and from Sloux City. Omaha merchants can ship to Sloux City and reship to a large number of points in South Dakota cheaper than they can ship direct from Omaha to

Due to Rapid Rise in Wheat, Local FACTIONS RECOGNIZED ON COMMITTEES

Market Goes Up Twenty Cents a Barrel.

Flour on the Omaha market has advanced 20 cents a barrel, or 10 cents a nundred, in the last few days, due to the rapid advance in the price of wheat. The Washburn-Crosby company's Omaha office is quoting flour at \$2.25 a barrel, as against \$2.15 the first of the week. The commodity is 5 cents a hundred higher than at any time since last October.

"The advance in wheat," said Manage Brown of the Washburn-Crosby company is due to the improved export demand and to the government report of Wednesday, showing a much lower percentage in the condition of the winter wheat crop than was expected by the trade.

"The price of flour from now on will de pend largely on the weather. If it is very negro convicted of the murder of Edward favorable for the crop, the chances are flour will be lower, though I do not look they did all they could have done for me for any decline until the middle of May and I am satisfied I was mistaken before." at the earliest. > Consumption is a Germ Disease. How Can It Start with a Cold?

This is a reasonable question and one that must arise to the mind of almost everyone when the claim is made that consumption starts with a cold. The cold simply prepares the system for the reception and development of germs of that disease, that would not otherwise have found lodgement It is the same with diphtheria, scarlet fever and measies. They are most likely to be contracted when the child has a cold. That is why a cold should never be neglected. The longer it hangs on the greater the danger. As a quick cure for colds Chamberlain's Cough Remedy can always be relied upon. Its remarkable cures have won for it a world wide reputation and an immense sale. It is pleasant and safe to take.
