New Structure Will Be One of the Largest and Finest in Washington -Masons Have Charge of the Ceremonies.

WASHINGTON, D. C., April 14.-To the nany memorable events which cluster about the making of the nation's capital must be added one other, the laying of the corneratone of the office building for the house of representatives with selenin

Masonic ceremonies this afternoon. The occasion was made notable by the presence of the president of the United States and many of his cabinet, by the supreme court, by the representatives of forsign governments, by the senate and house of representatives and a large proportion f Washington's population.

The day was ideal for such an important eremony, and without so much as even a trifling delay the immense stone which occupied the northeast corner of the building was placed in position with the ancient ceremonials of the Masonic order.
