Prices High Enough Unless Spring Seeding is More Seriously Hinder d-Persistent Selling Makes Corn Easy-Oats Strong.

OMAHA, April 14. 1998.

Wheat started strong on neavy rains throughout the horthwestern markets, but the buige soon spent itself, prices ruling easy the battenet of the easy closing figures showing some loss. The fly damage reports were not sustained. Modern Miller eports were not sustained. Modern Miller exports which repeat the buige was largely a result of local pit conditions. The epinion prevails that unless somethins develops to seriously hinder spring wheat seeding or the demand improves decidedly. It was not prices are high enough.

Trade in corn was strong on rather rough weather throughout the west and the evidence of the heavy out-movement this week, but sold off later on the weakness in wheat and persistent selling. Fair weather, which is indicated for tomorrow, was also a factor. Trade was rather light. The cash situation is so healthy in all its branches that higher prices are assured. Local receipts are 261 cars, covering two days, with estimation is so healthy in all its branches that higher prices are assured. Local receipts are 261 cars, covering two days, with estimated for Monday ill.

Class were strong on wet weather throughout the west yesterday, but eased off on the forecast of more settled conditions. Realizing was a feature in the far months, the May sympathising moderately.

Clearances were 8,000 bu, wheat, 20,000 bils. flour, 523,000 bu, corn, 217,000 bu, oats. Bradstreet's weekly clearances were 2,362-000 bu, what and flour and 1,725,000 bu.

Primary wheat and flour and 1,725,000 bu.

Primary wheat receipts were \$19,000 bu, and shipments of 26,000 bu, and shipments of 26,000 bu, and shipments of 26,000 bu, and shipments o OMAHA, April 14, 1908.

One of the leading grain authorities of the southwest according to the Tribune, gave the following reply to an inquiry. 'I think the condition in Kansas and Nebraska is for as large crops of wheat as were ever raised in these states. The souson has been ideal thus far, and there is no likithood of any crop damage complaints for several weeks to come. I have heard no complaints of insect trouble. There are always some hessian fly in Kansas and Nebraska, but they did no appreciable damage last year and I think there will be less complaint this year.'

CHICAGO GRAIN AND PROVISIONS

Festures of the Trading and Closing
Prices on Board of Trade.

CHICAGO, April 14—Bearish crop reports which resulted in liberal profit taking caused weakness today in the local where the season advances are market. At the close the May 167 country of the countr

District and Chicago reported receipts of the cars, against \$3 cars last week and 20 cars a year ago.

The weather was the leading factor in the corn market. The rainfall of the last two days caused buillab sentiment at the opening, but with the forecast of clear weather for tomorrow the market became weak. Local bears and cash interests were the principal sellers. The market closed weak at about the lowest point of the day. The May option opened 'splic to 10 to 45c and closed at 48 c. Local receipts were 20 cars with 4 of contract grade.

Outs were easier in sympathy with the break in wheat and corn, but the decline was less severe than in the other pits. Infavorable weather conditions held sellers in obeck. May opened unchanged to 1cc and closed at 21 cars. Some and the corn but the decline was less severe than in the other pits. Infavorable weather conditions held sellers in obeck. CATTLE—Receipts, as usual on the last day of the weed, were extremely light, there not being enough of anything to make a test of value.

The receipts of cattle this week have been somewhat smaller than during recent weeks, there being a slight falling of as compared with last week and a considerable decrease as compared with a year ago. At the same time the demand has not been as brisk as during most weeks of late and the market has been somewhat unoven as brisk as during most weeks of late and the market has been somewhat un-even. The week started out with a strong market, but since the first day such changes as have taken place have been on the side of a lower range of values. The heat heavy cattle are perhaps close to steady for the week, but the common to medium kinds are in some cases as much as léatife lower. as legisc lower.

Cows and heiters have suffered in about

Cows and helters have suffered in about the same way as have beef steers. While the best fed stock has not suffered very much loss, that tendency has been lower on all kinds, with common to poor grades as much as 10g 20c lower.

Both good fleshy feeders and good stockers have been in very fair request all the work and have sold at prices that can hardly be quoted different from those prevailing at the close of last week. The light and medium weight cattle have been saing off under the influence of fair receipts and light country demand, and at the close of the week are right around legisc lower. Owing possibly to farmers being in the fields the number of country buyers has been somewhat smaller than usual, with the result that the trade in the feeder division has been somewhat draggy all the week. Still at the close practically everything is cleaned up. Representative sales:

the yards this morning, the market being entirely bare of supplies.

While the receipts this week have been slightly in excess of last week's record, the arrivals for both weeks have been small as compared with previous weeks. During the last three weeks in March over 50,500 head arrived at this point each week as against \$4,322 for the present week. Ascording to all reports, a good many of the feed yards in Nebraska have been entirely cleared, while the supply in Colorado has been reduced to a lower point than usual at this season of the year. If these reports are true, light receipts, barring occasional heavy days, may be looked for from now on. As a rule sheepmen are anticipating this very thing and some are even going so far as to predict a stronger market.

The market this week has been in fair condition. Good, fat wethers, yearlings and ewes have been good sellers at fully steady prices. Lambs, on the other hand, have sold somewhat stronger and can safely be quoted 10615c higher for the week.

Shorn sheep and lambs are commencing to arrive on the market, although the number so far has been small as compared to wooled stock. Shorn sheep have sold about \$1.00 under and shorn lambs \$1.0021.25 under wooled stuff.

the garb collegiate. The class will revert to the more dainty and cool costumes of the summer season.

The plans for the senior fair to be held the afternoon and evening of May 2 are assuming definite shape.

An extensive change is to take place in the affairs of the Register Stock company within the immediate futures. At a meeting held Priday afternoon by the stockholders A. H. Waterhouse outlined a plan which met with approval on the part of the shareholders, although many of those having a controlling interest doubtless will suffer the loss of much coveted power. The system to be inaugurated is that all outstanding stock be redeem d at par and reliable discontinued and that each advance subscriber be given the right of franchise. This will provent monopoly of votes and will insure a larger subscription to the school newspaper.

The sthletic management has decided to organize a base ball team upon a slightly different financial basis than heretofore. No admission will be charged to the games. No teams will be brought here which will incur a large expense in view of the fact that there is ample material within a few miles for several good games. The slight expense to be incurred for fitting out the team will be met by voluntary subscriptions.

The following program has been arranged.

REVIEW OF REVIEWS COSMOPOLITAN

WOMAN'S HOME COMPANION THE TWENTIETH CENTURY FARMER REVIEW OF REVIEWS COSMOPOLITAN WOMAN'S HOME COMPANION COUNTRY CALENDAR

Offer Only \$5.10 All to One Address. We are very fortunate in being able to arrange with the publishers

\$3.25

All to One Address.

Regular Price \$9.00. Our

of these well known magazines to offer their publications at this cansational price. It is an opportunity not often presented. Never before has a publisher been able to make so liberal an offer on exclusive high grade and high priced magazines.

You ask how is this offer possible if the three magazines have a

fixed value and are not like the commodities usually offered at bargain

## THE EXPLANATION

It is well known to everyone in business that in fixing a seiling price there must be added to the manufacturing cost the cost of marketing. The cost of marketing a magazine is a big item, and these three publishing houses decided to unify their efforts to get new readers, making one organization de the work, and divide the cost of marketing by three. That is why you can buy these magazines, that fit the needs of every home, for nearly half price.

## THE TWENTIETH CENTURY FARMER

This is a magazine designed for every member of the farm home. Special articles on subjects of the greatest interest are printed each week. These are written by men of national reputation and cover a seld se diversified as to embrace during the year all branches of farm activity and life. Frank G. "Carpenter's "Letters of Travel" and Whliam Jennings Bryan's "Around the World Letters" appear in no other agricultural paper. Either one of these features are worth the price of a year's subscription. No other farm paper maintains so many regular departments, such as Feeding, Live Stock, Veterinary, Dairy, Poultry, Crops, Farm Devices, Orchard and Garden, with four pages devoted to the women, young folks and children. Each of these departments is edited by a practical editor and not by a theorist.

## REVIEW OF REVIEWS.

This magazine is almost necessary for the up-to-date muse of weman who pretends to keep abreast with the times. Its illustrations will coasist of 1,200 pictures a year. Its departments give the best that is in all of the other important magazines all over the world. Timely and informing articles, almost as fresh and as full of news to terest as the daily papers.

## THE COSMOPOLITAN.

This has been a leading magazine for eighteen years. With the recent change in ownership it has been improved and is far better in every respect. Its gain in newsstand sales and in subscriptions have been remarkable, and these are due to the new life and real merit The Cosmopolitan is printing what the people want. It contains rege larly the best fiction, the best special articles on timely topics and the best illustrations money can buy.

# WOMAN'S HOME COMPANION.

This magazine is for every member of the family. It is an ideal entertainer and helper in a thousand congenial ways. The issues for the forthcoming year will be unique in conception and execution, rich and varied in contents and brilliant with the finest and most elaborate and most artistic illustrations obtainable.

COUNTRY CALENDAR. This is a beautiful magazine of country life, published by the Review of Reviews Company. It is the most sumptuous, best illustrated and most costly magazine made in the world. It depicts rural or country life in America, both intelligently and instructively. It illustrates and tells of the life and home surroundings of the farmer and ranchman, as well as the multi-millionaire and his country estate.

De Not Wait. Arrange for your magazine reading now. You are really getting the entire list included in this wonderful offer at but little more than the regular price of one magazine, so
