Federal Circuit Court Holds that Boards of Trade Have Property Rights in Quotations.

ST. PAUL, Minn., April 16.- in an optnion written by Judge Hook, handed down in the United States circuit court of appeals today, the Missouri circuit court is reversed in the suit of the Board of Trade company and others. The suit was brought to enjoin the Cella company and others board's continuous market quotations. The lower court dismissed the bill in equity on the grounds that the Chleago board of trade quotations were the result of gambling transactions on the floor of its exchange and did not constitute a species of property which appealed to the conscience of a court of equity for protection.

The court of appeals holds that so far as this question is concerned the record in this case is subtantially the same as in the case of the Board of Trade againt Christle and therefore the decree of the circuit court cannot be sustained upon the

grounds assigned. Upon the point raised that the necessary furisdictional amount, \$2,000, is not involved in this case, the court finds that the and use of its quotations was the source ample to give the court jurisdiction.

When Cannefax was arrested today it was liscovered that he was a special police of ficer sworn in yesterday to help keep the peace here. He had a revolver in his pocket. It is expected that the grand jury will indict at least fifty and perhaps 100 men. All men supposed to know the name of any one in the mob will be summoned as witnesses before the grand jury and in this way the prosecutor hopes to get the names of nearly all who took an active part in

the assault upon the jail. Not a man in the mob wore a mask or made any attempt at concealment. The names of the leaders and of those who led the negroes by ropes through the streets and who lynched them afteward are well

known here. The Ministerial alliance, composed of all the ministers of the city, passed resolutions at their meeting today condemning the mob and calling on all law-abiding citizens to support the efforts of Governor Polk and Prosecuting Attorney Patterson to bring the mob leaders to justice. A mass meeting that was to have been called by the alliance for tonight was not held The civil and military authorities asked that the meeting should be given up, but assigned no reason. The six negro members of the alliance united in saying that no effort would be made by the colored people to have revenge for the work of the

Boy Kills a Negro. Leslie Peters, 16 years of age, shot and killed Raiph Burns, who attacked him in this city tonight while he was escorting a young woman home from a party. Two

negroes accosted him at the gate of the

young woman's home and one of the negroes fired two shots from a revolver at him, but neither took effect. Peters immediately fired four shots at the negroes, killing one of them, and the other escaped. The dead negro was not identified. Burns went to the police station and gave himself up, but he was re-

leased without bond. The news of the killing of another negro spread like wildfire throughout the city and hundreds of people left their beds and hastened to the public square. The militia on guard there prevented any violent outbreak and after a time dispersed the crowds and no further trouble is feared tonight, though it is believed that the killing tonight will tend to increase the feeling against the negroes. People who had been disposed to sympathize with the negroes

are incensed at this latest assault. A squad of militia was detailed to guard the home of the young woman whon Burns was excerting when he was attacked
