THE OMAHA DAILY BEE: TUESDAY, APRIL 17, 1906.

# **A VINDICATION FOR DOCTOR PIERCE**

## Decision by the Supreme Court of New York State, Against the Ladies' Home Journal.

A verdict has been rendered in favor of the plaintiff in the libel suit brought against the Ladies' Home Journal (published by the Curtis Publishing) Company) by the WORLD'S DISPENSARY MEDICAL ASSOCIATION, of which DR. R. V. PIERCE is President.

The suit was brought by Dr. Pierce against the Curtis Publishing Co. for making false statements about one of his standard family medicines, known as Dr. Pierce's Favorite Prescription. In the May number of the Ladies' Home Journal (1904), Mr. Edward Bok, the editor, stated that Dr. Pierce's Favorite Prescription contained alcohol and other harmful ingredients, and Dr. Pierce had in the action alleged the defendant maliciously published this article containing such false and defamatory matter. Dr. Pierce further claimed that no alcohol is, or ever was, contained in his "Favorite Prescription :" that said medicine was a vegetable preparation and contained no deleterious ingredients whatever ; that Mr. Bok's statement pretending to give some of the ingredients of said medicine was wholly and absolutely false. During the trial, the Vice-President of the World's Dispensary Medical Association stated, that the ingredients of Dr. Pierce's Favorite Prescription were extracted from the following native roots: Golden Seal, Blue Cohosh, Lady's Slipper, Black Cohosh and Unicorn, by means of pure glycerine. He was asked how he knew, as a physician and experienced medical man, that the "Favorite Prescription" was a cure for the diseases peculiar to women, such as leucorrhœa, irregularities, weak back, "female weakness," amenorrhœa, dysmenorrhœa and misplacements, and he stated that he knew such was the fact because of his professional experience and the many thousands of women whose ills had been cured by this "Prescription." This experience was corroborated by the standard Medical Authorities of the several schools of medicine endorsing the various ingredients in the strongest terms. The Vice-President, being asked to give his authorities, read from the standard works, such as the United States Dispensatory; The American Dispensatory; Organic Medicines, by Grover Coe, M. D.; Materia Medica and Therapeutics, by Professor Finley Ellingwood of the Bennett Medical College of Chicago; "New Reme-dies" by Professor Edwin M. Hale, M. D.; Text-Book of Practical Therapeutics, by Dr. Hobart A. Hare, Professor in University of Pennsylvania; Laurence Johnson, M. D., Professor University of New York; Professor John King, Author of Woman and Her Discases; Wm. Paine, M. D., Author of New School Practice of Medicine; Professor John M. Scudder, M. D., Author of a treatise on "The Diseases of Women;" Horatio C. Wood, M. D., Author of Therapeutics; Roberts Bartholow, A. M., M. D., Professor of Materia Medica, Jefferson Medical College of Philadelphia.

The retraction printed by the Curtis Publishing Co. two months after the libelous statement appeared stated definitely that analyses had been made at their request and that the "Favorite Prescription" did not contain either alcohol, opium or digitalis. But the business of Dr. Pierce was injured from the effects of the publication of the original libel and the matter was brought before a jury in the Supreme Court of New York State to determine the damages, which were given by the Jury at \$16,000

Busybodies who see in success only falsity, who, without making an effort to inform themselves, blatantly cry offense against honesty and truth-seem to forget that a slur against Dr. Pierce's well-known non-alcoholic family remedies is a slur against the intelligence of thousands of clear-thinking American women who know they have been helped and cured by Dr. Pierce's Favorite Prescription. It is not a "patent medicine" in the true meaning of the word-it is simply the favorite remedy which Dr. Pierce used in an extended practice for the treatment of the diseases of women.

#### TRUTH AND INFLUENCE.

A name for honesty and square dealing is better than great riches. Fraud is a bubble that soon bursts. Dr. R. V. Pierce has always been known to speak the truth-his famous medicines are founded on the rock of public approval and have thousands of truthful testimonials as to their ability to cure diseases for which they are recommended.

#### TRUE SPEAKING.

No man ever lost a prospective customer through telling the truth. In the long run Dr. Pierce believes the truth will prevail and he is therefore not afraid to make public the ingredients of his "Favorite Prescription" which are :

#### **GOLDEN SEAL ROOT** (Hydrastis Canadensis).

Prof. John M. Scudder, M. D., says: "It stimulates the digestive processes, and increases the assimilation of food. By these means the blood is enriched. " " " " The consequent improvement on the nervons and glandular systems are natural results." He continues: "In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic useful in all debilitated states."

Prof. Ellingwood, M. D., of Bennett College, Chicago, says of Golden Seal: "In its therapeutic (remedial) influence its widest range of action is upon the stomach, in functional dis-orders of that organ, where the entire apparatus, including the iver is stagnant and inoperative. It is a most superior remedy in catarrhal gastritis (inflammation of the stomach), chronic constipation, general debility, in convalescence from protracted fevers, in prostrating night-sweats. It is an important remedy in disorders peculiar to women. In all catarrhal conditions, especially if there be muscular relaxation and general enfectlement, it is useful.

Prof. Roberts Bartholow, M. D., of Jefferson Med. College, says of Golden Seal: "Valuable in uterine hemorrhage (flooding), menorrhagia (profuse menstruation), and congestive dys-menorrhœa (painful menstruation). Locally good in leucorrhœa, ulceration and erosion of the cervix (neck of uterus), unbealthy and sloughing sores and ulcers of the leg."

From the foregoing extracts it will be seen that Golden Seal root is a very efficent curative agent in most of the weaknesses and ailments affecting the organs peculiarly feminine. But there are several other unsurpassed remedial agents for the cure of woman's maladies found growing in the forests of this blessed land of ours, and these Dr. Pierce knew to be of such great efficacy as to make it advisable to combine them in just the right proportions, with the Golden Seal root, in making up the compound known as his "Favorite Prescription." Thus, he believes he has produced the most happy combination of the most valu-able remedial agencies known to modern medical science for the

cure of woman's peculiar weaknesses and maladies. He feels that the professional endorsement of those most eminent in the several schools of practice, will be found to amply justify him in the use of this strong language.

### BLACK COHOSH ROOT (Cimiciluga Racemose).

Prof. John King, in the American Dispensatory says: "This is a very active, powerful and useful remedy, and appears to fulfill a great number of indications. It possesses an undoubted influence over the nervous system. In small doses the appetite and digestion are in roved." He continues, "Upon the repro-ductive organs it exerts a specific influence, promoting the menstrual discharge.

"Its action is slow, but its effects are permanent. It has been used successfully as an antispasmodic in hysteria, epilepsy when due to menstrual failings, periodical convulsions, nervous ex-citability, and many other spasmodic affections."

Horatio C. Wood, M. D., Professor University of Pennsylvania, says: "Of unquestionable value in chorea (Si. Vitus's dance). Promptly cures urticaria (hives). Recommended in rheumatism and chronic bronchitis.

#### LADY'S SLIPPER ROOT (Cypripodium Pubescens).

The United States Dispensatory says: "Cypripedium (Lady's Slipper) appears to be a gentle nervous stimulant or antispas-modic. Dr. E. Ives, of New Haven, Conn., commends the remedy in hypochondriasis (melancholy and depression of mind), neuralgia and morbid sensitiveness of the nervous system generally, and especially of the eye."

Edward M. Hale, M. D., Professor in Hahnemann Medical College, Chicago, says: "Useful in hysteria, chorea (St. Vitus's dance), nervous headache, neuralgia and 'fidgetyness.' It is mild, but if used in excess increases the irritability and weak-ness which it palliated."

#### BLUE COHOSH ROOT (Caulophyllum Thelictroides).

The American Dispensatory says: "Blue Cohosh is used by Indian squaws, they employing a decotion of the root for two or three weeks previous to fabor to facilitate child-birth."

Prof. John King, M. D., says: "Blue Cohosh has enjoyed a well-merited reputation, for when used by delicate women, or those who experience prolonged and painful labors, for several weeks previous to confinement, it gives tone and vigor to all the parts engaged in the accouchement, facilitating its progress, and relieving much suffering." Prof. Hale testifies that Blue Cohosh acts as an anti-abortive by relieving the irritation upon which the trouble depends." Dr. King says, "It has been employed to relieve irritation of the reproductive organs dependent on con-gestion. It controls chronic inflammatory states of the organs and gives tone in cases of debility. In the sexual disorders of the female it is indicated by tenderness and pain in the uterus. In debilitated patients, it has been very successfully used in cases of hysteria to overcome the attack, and to relieve ovarian pain, or irritation when accompanying that disorder. Chronic oraralgia, leucorrhoza, amenorrhoza (suppressed menstruation) and dysmenorrhoza (painful menstruation), are conditions in which it has been most successfully employed. It has an established reputation as a remedy for *rheumatism of the uterus*, with nerv-ous excitement, for *uterine cramps* attending menstruation, and for menorrhagia (profuse menstruation)."

#### UNICORN ROOT (Helonias Diolca).

The American Dispensatory (prepared by Professors King and Scudder), says: "Helonias, or Unicorn root, has been found very beneficial in *dyspepsia*, *loss of appetite*, and for the removal of worms. It is more especially applicable in *indiges-tion*, *dyspepsia* and *mal-assimilation*, where the trouble is reflex from, or associated with, wrongs of the female reproductive apparatus. Such digestive disturbances as depend upon uterine and ovarian irritation, or upon lack of uterine activity, in chlor-otic anemia (thin, o) watery, poor blood), are benefited by it. It

is valuable in atomy (weakness) of the generative organs." Prof. King says: "Have found this plant to possess a decidedly bene-fical influence in cases of sexual lassitude in both sexes, the result of excesses, especially in those instances where there are symptoms of gastric (stomach) derangement with inpaired memory, mental apathy, or indifference, and an enlethed con-dition of the general system, with weakness or dull pain in the renal, or lumbo-sacral (small of the back) region. In diseases of the reproductive organs of females, and especially of the uterus, it is one of our most valuable agents, acting as a uterine tonic, and gradually removing abnormal conditions, while at the same time it imparts tone and vigor to the reproductive organs. same time it imparts tone and vigor to the reproductive organs. Hence, it is much used in *lencorrham, amenorrham, dysmenorrham* and to remove the tendency to repeated and successive miscarri-ages. A particular phase removed by it is the irritability and despondency that often attends uterine troubles. In painful menstruation it has been found especially adapted to those cases in which there is pelvic fullness, a sensation as if the pelvic or-gans were distended with blood, and the aching, bearing down organs feel as if they would fall out of the body. Its action here is very decided. It is considered useful by some for the relief of the confiting of pregnancy. Helonias is a decided tonic to the urinary tract." urinary tract.

Dr. John Fyfe, Editor of the Department of Therapeutics in The Eclectic Review says of Unicorn root (*Helonias Dioice*) one of the chief ingredients of Dr. Pierce's Favorite Prescription :

"A remedy which invariably acts as a uterine invigorator and always favors a condition which makes for normal activity of the entire reproductive system, cannot fail to be of great usefulness and of the utmost importance to the general practitioner of medicine. In Helonias we have a medicament which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some in-dication for this remedial agent."

He continues : "Helonias (Unicorn root)-through its tonio and alternitive influence-acts equally well in amenorrhers (suppressed menstruation) and in menorrhegia (flooding or profuse menstruation). It is especially called for in cases of amenor-rhora which are accompanied by general debility and an atonia (weak) condition of the digestive organs, as it increases the appetite and promotes digestion and assimilation. When there is atony (weakness) of the generative organs and a tendency to miscarriage its tonic influence upon the sexual system will aid much in bringing about a normal condition of the structures involved. In sterility and impotence its curative power is unmistakable, and within a reasonable time it will restore to healthful activity all cases not dependent upon organic wrongs, and in leucorrhom and in defective menstruation it is a frequently needed remedy.'

The following are among the leading indications for Helonias: "Pain or aching in the back, with leucorrhea; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women; constant so sation of heat in the region of the kidneys; menorrhagia (flowing), due to a weakened condition of the reproductive system; amenorrhoea, (suppressed menstruation), arising from or accompanying an abnormal condition of the digestive organs and an anæmic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading and predominating ingredients of which is Unicorn root, or Helonias.

We invite all those who would like to read more extended extracts from eminent medical authorities treating of ALL the several ingredients entering into the composition of Dr. Pierce's medicines, to send for a booklet recently compiled by Dr. Pierce and published by the World's Dispensary Medical Association of Buffalo, N. Y., which will be sent FREE to any one requesting a copy of the same, by postal card or letter. Ask for the little book of extracts compiled by Dr. Pierce.
