TRAFFIC MEN TO BE TRIED

Judge McPherson Overrules Motion to Quash Indictments Against Men for Granting Rebates.

KANSAS CITY, April 19.-Judge Smith McPherson in the United States district court here today overruled the motions to quash the indictments returned last December against George H. Crosby, traffic manager of the Chicago, Burlington & Outney railroad, and against L. B. Taggar and George L. pending against other railroads, packing ouses and officials are yet to be argued. WOMAN'S TRIALS.

Her Bitter Disappointment.

The bitter trail in a woman's life is to be childless. Who can tell how hard the struggle may have been ere she learnt to resign herself to her lonely lot? The absence of this link to bind marital life together, the absence of this one pledge to mutual affection is a common disap-pointment. Many unfortunate couples become estranged thereby. Even if they do not drift apart, one may read the whole extent of their disappointment in the eyes of such a childless couple when they rest on the children of others. To them the largest family does not seem too numerous. It will rather appear to them that those on whom this blessing has been most richly bestowed hardly value it suffi-

In many cases of barrenness or childlessness the obstacle to child-bearing is easily removed by the cure of weakness on the part of the woman. Dr. Pierce's Fa-vorite Prescription has been the means of restoring health and fruitfulness to many restoring health and fruitfulness to many a barren woman, to the great joy of the household. In other, but rare cases, the obstruction to the bearing of children has been found to be of a surgical character, but easily removable by painless operative treatment at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., over which Dr. Pierce of the "Favorite Prescription" fame presides. In all cases where children presides. fame presides. It has to its credit hundreds of thousands of eures—more in fact than any other remedy put up for sale through draggists, especially for woman's use. You do not have to take Pierce's word alone for this, because the ingredients of which the "Favorite Prescription" are composed have received the most positive endorsement from the leading medical writers on Materia Medica of all the several schools of practice. All the ingredients are printed in plain English on the wrapper enclosing the bottle, so that if you are an invalid woman and make use of this famous medicine you know exactly what you are taking. Dr. Pierce takes his patients into his full confidence, which he can afford to do as the formula after which the "Favorite Prescription" is made will bear the most

You do not have to experiment when taking Dr. Pierce's Favorite Prescription, the many fake, Cheap John Med icines that are sent out on trail, composed of cheap and often harmful ingredients.
Dr. Plerce resorted to Nature's Laboratory to get the ingredients for his "Favorite Prescription," believing that the indigenous, or native, medicinal roots of country are endowed by Providence with the most marvelous curative powers.

The only rational way to attempt to cure disease is by assisting the natural functions of the body, and to do that there is nothing like Nature's remedies which act in Nature's way, toning and invigorating the digestive organs, the liver, the stomach and bowels and the nervous system, which always suffers to a great extent in all the various derangements of the organs distinctly feminine. ules.
