### See That Rack

It affords the very best illustration of the surprisingly rapid growth of our business.

All those watches are being repaired, and in spite of our able watchmakers' exertions the rack remains always full.

When we bought and took over our location a year ago, there were just six watches on the repair rack!

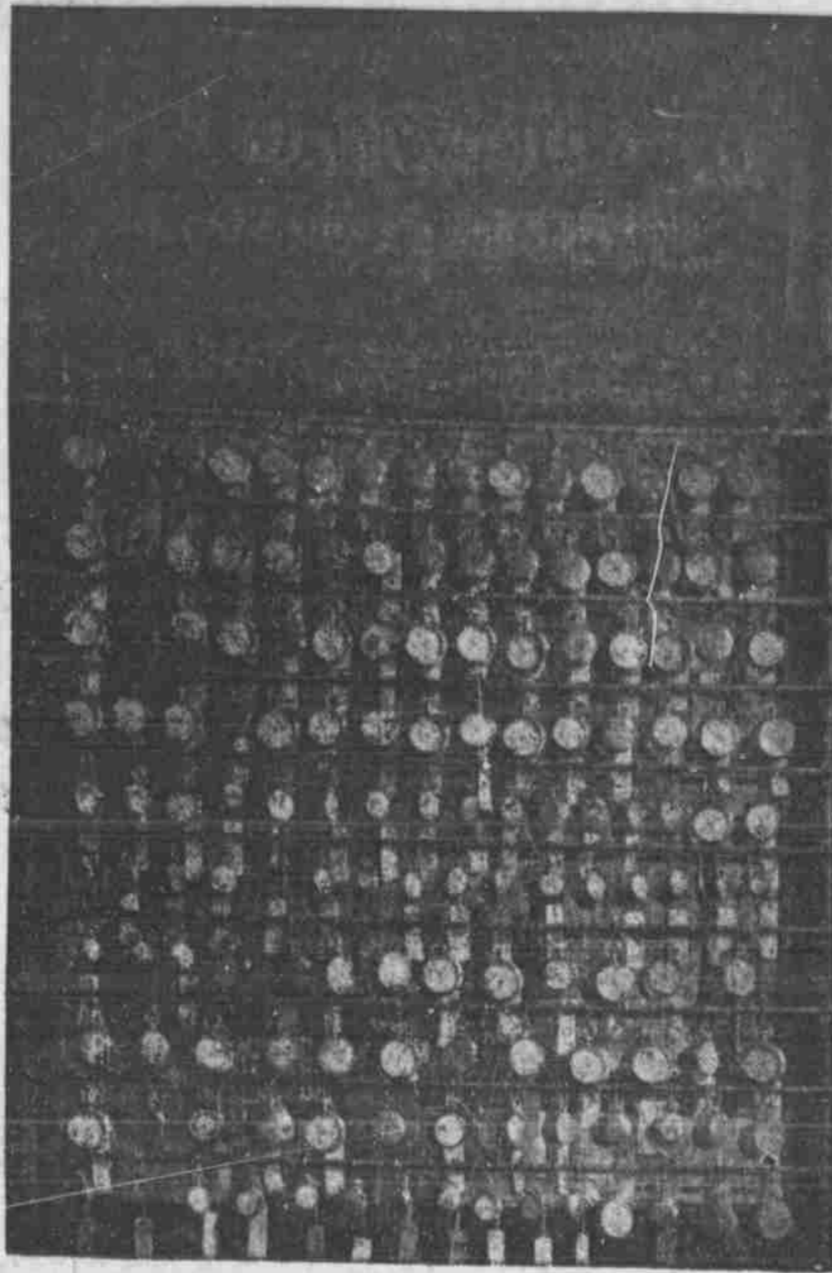

This shows the people have come to depend on us for repairs, more and more.

We take an honest pride in this fact. An honest dealer's and workman's pride in a well-fulfilled promise. We have the best watchmakers, gold and silversmiths; we use the best materials and our prices are low as the lowest. Is it any wonder the people have learned to seek us? If you need work done in our line—the workmanship, the best materials, satisfaction guaranteed, and quick and prompt returns—send it to us.
