This remarkable offer cannot and has not been duplicated in the Manhattan district. Not only is the Mizpah Company's ground the cream of all Manhattan, but it embraces a large acreage - three claims for about 60 acres. Its territory is as large as the Consolidated, and three times that of the Pine Nut. It has a continuation of the Consolidated ledges. All along these great deposits on the Mizpah Company's ground the leasers have opened up four-foot ledges for four hundred feet - which averages straight across shipping values, or values of more than \$100 per ton.

IMMEDIATE PROFIT OR DIVIDEND RETURNS shares in the Manhattan Mizpah Company are more attractive to either the small or large investor. Any person familiar with the conditions at Manhattan will know at a glance at the map in this ad that no better property could be purchased - it is the best in the district. The consolidated mine is the

MAJESTY OF THE MINING WORLD. The scores of engineers who have explicated it pronounce it one of the greatest mines in Nevada. As the consolidated is a great mine in Manhattan a great camp, one for which there is scarcely a parallel in the annals of western mining operations. The Manhattan Mizpah

WILL BE AS GREAT AS THE CONSOLIDATED. There will be no second offering of this stock. It will be over-subscribed many times. It is beyond any question the cheapest stock to which public subscription has been invited since the first fabulous values were found at Manhattan. This firm has a

REPUTATION TO SUSTAIN. In Goldfield and Bullfrog it has made a distinctive success of its every mining enterprise, and thousands of our clients who purchased stocks upon our advice have coined money through their investments. In Manhattan we were first on the ground, and each of our five companies in that camp are

MAKING GOOD WITH RAPID STRIDES. The stock of the Manhattan Mizpah is easily worth 50 cents per share. Any broker who sees the accompanying map will tell you as much. The Pine Nut Company, owing a fraction adjoining the Mizpah group, put out its treasury shares at 50 cents, and the allotment was over-subscribed several times within a few hours.

STOCK IN THE MANHATTAN MIZPAH WILL BE WORTH FIVE DOLLARS A SHARE WITHIN TWO YEARS. Remember our prediction. Make a memo. of it and consult the stock quotation sheets at the end of 24 months.

If you want shares in this excellent company you will have to act quick. Either send us YOUR RESERVATION BY WIRE OR CONSULT OUR LOCAL REPRESENTATIVES.

The Pine Nut ledge is traceable for 800 feet across the Captain Sam. This marvelous deposit of gold bearing ore ranges from 15 to 20 feet in width and gives a general assay value of \$75 per ton. A four-foot ledge has been opened at six places on the Kentucky, giving a uniform value of better than \$100 per ton. This ledge is the same vein from which sensational values are being taken on the Consolidated. At every point where these ledges have been opened on the Kentucky and Captain Sam they have stood the most exhaustive
