

Great Clearing Sale of All Black Dress Goods Remnants Wednesday

Remnants from last week's great Black Dress Goods Sale have been piling up. Now they must go. In addition to these all the remnants from our Mail Order Department, where we supply over twenty-five thousand customers, are to be included. Everything from a single waist pattern to a full dress length. Here is a rare opportunity to get this season's most beautiful dress fabrics at less than the price of ordinary material. Not a yard reserved. No matter how nice the material, every piece must be sold by 6 o'clock. Thousands to choose from. Read each item below carefully. Note the special prices.

Black Silk-Finished Sicilian-Black, 1/2 yard in remnant, for \$1.50.
Black All-Wool Crepe Albatross-7 1/4 yards in remnant, for \$1.75.

New Lace Boleros.

The latest fad for summer wear. Ladies appreciating something dainty and new should call and see the new and beautiful effects we have just received. The materials are linen, embroidery, Valenciennes lace and Baby Irish lace. These dainty jackets are shown at lace department, center aisle, first floor. Prices, \$2.50, \$4.00, \$4.95, \$5.50, \$6.50 and \$7.00 each.

There are still a few of our lace and embroidery robes or partly made dresses left, which are marked at quick clearing prices. As the quantity of these is not large, we advise you to come early.

Umbrellas.

The necessity of having an umbrella constantly with one has recently made itself very apparent. Our umbrella department is located at left of main entrance. Here we show all that is new and dainty in parasols, as well as the best of values in the staple umbrella line. A good durable rain umbrella for \$1.00.

Extra quality of black serge, mounted on paragon frames, best of princess handles, good value, at \$1.50.

Fine piece dyed black taffeta silk umbrellas, made with paragon frames and best quality of princess handles, fine value at \$2.00 each.

Other umbrellas at \$2.50, \$3.00, \$4.00 and \$5.00 each.

We buy only of reputable manufacturers. You run no risk when you buy an umbrella of us.

Economy Basement Cloak Department Bargains

Wash Petticoats at 8c, worth \$1.00.

DANIEL DISCUSSES RATE BILL

Virginia Senator Takes Up Powers of Congress Over Interstate Commerce.

MONEY FOR REPAIRS IN SAN FRANCISCO

Resolution Providing \$700,000 for Restoration of Postoffice, Mint and Customs House Introduced by Mr. Flint.

WASHINGTON, May 1.—The proceedings in the senate today included an extended discussion of the railroad rate bill by Mr. Daniel, an explanation of the status of the appropriation for the relief of the earthquake sufferers of California by Mr. Allison and a controversy among several senators as to the propriety of adopting without referring to a committee a resolution tendering the thanks of congress to General Howard Porter for his services in recovering the body of John Paul Jones from his long resting place in Paris. In the last mentioned proceeding Mr. Aldrich opposed action by the senate in advance of committee consideration and succeeded in having the matter referred to the committee on foreign relations.

In his rate speech Mr. Daniel supported the right of congress to legislate so as to fix rates, and to delegate its power to a commission. He opposed Mr. Bailey's non-suspension provision and indicated indifference as to whether a court review clause should be inserted. He did not conclude and will continue tomorrow.

Money Asked for Repairs.

At the beginning of today's session Mr. Flint offered a joint resolution for the restoration and repair of the public buildings at San Francisco and in other cities injured by the recent earthquake, as follows:

At San Francisco—Postoffice, \$500,000; mint, \$100,000; customs warehouse, \$15,000; treasury, \$25,000.
At Oakland—Postoffice, \$15,000.
At San Francisco—\$40,000.
A bill authorizing the issuance of \$100,000 worth of medallions to be sold in connection with the proposed Pike's Peak memorial exercises to be held at Colorado Springs, Colo., next September, was passed. The proceeds of the sale to be devoted to the erection of a monument to Captain Zebulon M. Pike, discoverer of the peak bearing his name.

Mr. Tillman presented and had read a resolution directing the committee on the District of Columbia to investigate the arrest of Mrs. Minnie Weir, who was in the House last January and it went over until tomorrow.

Mr. Lodge made an effort to secure unanimous consent for the passage of the house resolution granting to General Horace Porter the thanks of congress for his services in recovering the body of John Paul Jones, but Mr. Aldrich objected, and the resolution was referred to the committee on foreign relations.

Mr. Gallinger brought up the question of the disposition of the \$250,000 voted by congress for the relief of the California sufferers.

Mr. Allison, chairman of the committee on appropriations, explained that 120 appropriations had been made, aggregating \$2,500,000, but that about \$1,200,000 had been expended by the secretary of war before even the first appropriation of the money was made. He said that only about \$500,000 of the total sum appropriated remains unexpended, but said that every dollar would be used for the benefit of the California people who need help.

Power of Congress Over Rates.

Mr. Daniel was then recognized to speak on the railroad rate bill. He said that congress has the power to regulate railroad charges to fix rates from any station in one state to any station in another state, and whether congress has the right to enforce compliance with the rates that may be fixed by the commission, he declared there were sufficient precedents to warrant an answer in every instance that congress has the power.

He said that it was in the power of the congress to charter a railroad in the United States, as the nation possesses eminent domain, and he took issue with Mr. Foraker, who said that the United States had the same right as the individual states to fix railroad rates.

Mr. Daniel then took up the question of the power of congress to transfer its duties to a commission, taking issue with Mr. Knox on the point of court review. He expressed the opinion that it was wisest and best to provide for a judicial review or appeal, but at the same time I have no doubt that if no such review is provided the system of jurisdiction as administered for the past thirty years would prove all sufficient to secure every right to all concerned.

HOOD'S SARSAPARILLA

Has surpassed all other medicines in merit, sales and cures.

Its success, great as it has been, has apparently only just begun.

It cures more testimonials in the last two years than all previous two-over 40,000.

It has the abiding confidence of the people—the strongest proof of its unequalled worth.

It purifies the blood, cures all blood diseases, all humors and all eruptions.

It strengthens the stomach, creates an appetite and builds up the whole system.

It cures that tired feeling and makes the weak strong.

In usual liquid, or in new tablet form, 100 Doses One Dollar.

Presidio military reservation, \$75,000; medical and hospital property, \$40,000.

VIOLENCE IN PARIS

(Continued from First Page.)

wounding a large number. There were lesser disturbances at many points.

DEMONSTRATIONS IN AMERICA

Several May Day Strikes in New England and Longshoremen Out.

BOSTON, May 1.—May day was marked by numerous minor strikes in New England. The majority of the difficulties were confined to the building trades. Strikes of carpenters occurred in Lawrence and Lowell and in other places. The Lawrence men, about 1,000 in number, demand an eight-hour day at a wage of \$3. In Lynn about 300 machinists, who desire an eight-hour day with a half holiday Saturday, are idle and a number of carpenters, painters and plumbers are also out. Conditions are unsettled in the Cape Ann granite district, in the Blackstone valley and Fall River building trades and in several branches of the building trades in other places. In Boston, while there was no general disturbance, several small strikes occurred, but the number of men idle here on account of labor disputes is not great.

DULUTH, Minn., May 1.—The great lake marine strike was officially inaugurated at the head of the lakes at midnight. Orders were received from President Keefe of the longshoremen calling them out. The tugmen, however, were not notified and they are working as usual.

William Jones, agent at Superior for the Marine Firemen's association, last night received a telegram from President Keefe calling upon all members to quit work at midnight. It is provided, however, that this does not affect boats belonging to the Lumber Carriers' association, men employed on boats carrying cargo or men who have signed papers for round trips.

The men on boats subject to strike orders are the union mates, firemen and others.

CLEVELAND, May 1.—Every member of the International Longshoremen, Marine and Transport Workers' union employed on the docks and wharves of Cleveland quit work at midnight last night and today not a pound of ore, coal or grain was being handled in the port of Cleveland.

The same condition exists in practically every Lake Erie port.

Every tug in the harbor was tied up this morning. The Licensed Tugmen's Protective association is affiliated with the longshoremen, as are the firemen on the tugs, and not a screw on a union tug turned after midnight last night.

Lumber boats, package freight boats and fishing boats are not affected by the strike. At present, as the wharves are not affiliated with the lake carriers.

In the port of Cleveland 4,000 men are directly affected, 1,000 of whom are seamen. Train crews, unimpaired, railway officials state, will be thrown out of work because of the stoppage of the coal traffic. Some of the big elevators will have to restrict their operations on account of the shutting down of the lake grain trade. It is estimated that if the strike lasts for one month 30,000 men in Cleveland alone will be thrown out of work.

CHICAGO, May 1.—Lake freight traffic for the greater part at a standstill here, the vessel owners making little apparent effort to move their vessels.

Several of the boats which are not affected by the strike bore upon their sides early in the day large placards announcing that they were "union" boats. The center of the strike, as far as this city is concerned, is not in the city proper, but in South Chicago, where the mills of the Illinois Steel company, a branch of the United States Steel company, are located.

The passenger boats running out of Chicago have not thus far been affected by the strike.

POLLARD GETS IN HIS TALK

(Continued from First Page.)

now a resident of Montana, has been appointed United States marshal to succeed the present incumbent, John D. Decker.

Senator Barrett today introduced a bill to increase the pension of C. C. Davis of Ulysses, Neb., to \$30 per month.

Representative Burke left Washington last night for South Dakota, to remain in the state, it is said, until after the republican caucuses are held, two weeks hence.

P. C. Weiler and C. M. McClure have been appointed letter carriers at Omaha and N. E. Brown has been appointed letter carrier at Kearney.

The appointment of M. H. Foster, Thomas O'Brien, Oliver S. Christian, Elbert T. McGee and John Tully to organize the Farmers National bank of Madison, Neb., with \$50,000 capital, has been approved by the controller of the currency.

The First National bank of Sumner, Ia., has been authorized to begin business with \$50,000 capital. R. D. McCook is president and Nelson McCook is cashier.

Rural carriers appointed: Nebraska—Exeter, route 2, Giles S. Wallace, carrier; Wendle Corner, substitute, Iowa—Little Cedar, route 1, Fred Martin, carrier; Thomas, substitute; Louisiana—route 2, Ira Smith, carrier; Mabel Smith, substitute, South Dakota—Mitchell, route 5, Robert M. Getman, carrier; William B. Harbert, substitute.

Nebraska postmasters appointed are: Bracken, Nebraska county, Frank W. Black, vice I. A. Ferrier, resigned; Somerset, Lincoln county, Frederick Griffith, vice M. E. McGuire, resigned.

Power Flows in Favor.

PIERRE, S. D., May 1.—(Special.)—The power play is gaining in favor in this section of the state, two new ones having been put into operation in Sully county. The introduction of this method of breaking prairie means a large increase in the crop acreage in this part of the state. It is estimated that at least \$5 per acre may be realized will be broken this year than for any previous year, and the favorite seed crops will be flax and corn. The conditions so far this spring have been very favorable and the grain acreage will be largely increased over last year, the older cultivated ground being used for small grains and new seed for corn.

Sterling Silver-Fremont, 11th and Dodge.

LIGHTS AND CARS OPERATED

(Continued from First Page.)

Secretary of Commerce and Labor Metcalf, General Greely, Congressman McKim and several other officials. The governor said that the pressing need of Santa Rosa at present is money. The debris from the wreckage of many buildings must be cleared away before business can be resumed. It is estimated that \$17,000 will be required to clear the city. There is a call for \$3,000 or \$5,000 for immediate needs.

The governor said that the conditions at Santa Rosa were depressing, but the townspeople were brave-hearted and had faced the calamity with sturdy determination to recover. The business district is in ruins, with much of the residence portion destroyed.

A remarkable escape from injury was that of Luther Burbank, the world-famous horticulturist. His home and experimental gardens were undisturbed. Mr. Burbank saved his valuable collection of photographic negatives. These were unbroken, though the other half of the gallery in which they were stored was smashed to splinters.

A report has been received from San Jose, which also suffered severely, that the local relief fund has been ample to provide for all citizens as well as to aid many refugees from San Francisco. Clothing, food, shelter and supplies of all kinds have been abundant and the work will be maintained so long as a single case of destitution exists. There has been no scarcity of ready money in San Jose for ordinary requirements and very little inconvenience to individuals. The banks will be prepared to reopen in a few days.

At the Agnew insane asylum, where great damage was done, most of the inmates are now living in tents. Aid in obtaining better shelter and for food and clothing would be welcome. Little has been heard from Salinas and other places which were partly wrecked, but as yet no appeals for outside assistance have been made.

WITTE ASKS FOR A REST

First News of Retirement Must Come from the Official Gazette.

FATHER GAPON STILL SAID TO BE ALIVE

Letter Received Saying Present Whereabouts of Priest Will Be Made Known at the Proper Time.

ST. PETERSBURG, May 1.—Yesterday the emperor may have decided to accept Premier Witte's resignation, but until the fact is published in the Official Messenger nothing is absolutely certain. You can say, however, that Count Witte desires to go. He is worn out, says the struggle, however, the situation at Tsarskoe Selo changes with unexpected rapidity. A few hours may see the official promulgation of Count Witte's retirement, or on the contrary, the dismissal of Interior Minister Dumnevo.

The above authoritative statement was made to the Associated Press today. The moment is certainly very critical. For the present Count Witte's enemies at court certainly have the upper hand and on the very eve of the battle in Parliament the emperor seems to be about to commit the fateful blunder of changing his commander.

Gapon May Be Alive.

In spite of the announcement by the police that the great definite information confirming the reports of Father Gapon's assassination, M. Margolin has received a letter signed "Princa" announcing that the writer knew the former priest's whereabouts, and in a few days would send the lawyer important documents. At the same time the wife of Rutenberg, the engineer who offered to betray the secrets of Father Gapon's organization to the government, publishes an open letter saying that the charge that her husband murdered Gapon is a calumny.

In confirmation, however, of the truth of the story of Gapon's execution was received today. It consisted of a copy of the sentence of death passed by the revolutionary workers' tribunal and was mailed, like Gapon's portfolio, from Berlin to M. Margolin, the former priest's lawyer. The document gave details of Gapon's offense as charged with the laconic phrase: "The sentence has been executed."

In a long preamble justifying the execution it is set forth that the workmen's tribunal had incontrovertible proofs of Gapon's secret relations with various members of the political police, and that he had given, to whom he promised to betray the revolutionists if allowed to reopen his office. Later he undertook in behalf of the chief of secret police, Gerasimoff, to find out and betray to the government a plot to kill the emperor, Premier Witte and Interior Minister Dumnevo, and appeared in negotiation with a member of the fighting organization offering \$12,500 for the necessary information and guaranteeing security for the traitor from the vengeance of the revolutionists.

Fighting at Archangel.

ARCHANGEL, Russia, May 1.—Street fighting occurred here today between the revolutionaries and the police and troops during which the chief of police, an officer and four soldiers were wounded.

MOSCOW, May 1.—The attempt of the authorities to reopen the university here during the summer in order to catch up with the work is being resisted. A large meeting of students held yesterday those who favored the resumption of work were in the minority. The majority insisted on letting the university work go and continuing the fight for liberty.

The university has been closed for over a year.

STORM DAMAGE UNDERESTIMATED

Territory Two Miles Wide and Fifteen Long Swept.

OXFORD, Neb., May 1.—(Special Telegram.)—An inspection of the scene of last evening's storm reveals a wider range and greater loss than indicated by first reports. The storm passed northeast within three miles of Oxford into Harlan and Phelps counties, embracing an area two miles wide and fifteen long. Fully forty persons lost their farm buildings or dwellings, in some cases both. A number of families are left homeless, without as much as a change of clothing. Valuable stock was killed and miles of fencing destroyed. That there was no considerable loss of human life seems miraculous. At Oxford, however, a boy named George, injured out of danger with the exception of the younger Miss Hartman, whose injuries are internal. Conservative estimates place the property loss at \$25,000, much of this being covered by insurance.

Many stories are told of the freaks of the storm as exhibiting the character of the real twister, as in the case of
