Fifteen carloads of the finest planes ever shipped to Omaha. Only the very latest styles, finest veneers and scientific scales in this shipment. The architecture is at once unique and chaste, the fancy and natural wood veneers the choicest.

The forests of the world have had to be explored to obtain such rare figured mahogany, beautiful curly, English burl, gnarled French and Circassian walnuts, ebony of the choicest and genuine rosewood. Seldom, indeed, is it that one can find such a selection of strictly high grade planes outside of New York City. Notwithstanding the high class and reputation of these celebrated instruments, the products of many of the most famous plano factories of America,

Firs and Police Board Passes on Number of Applications for License.

PETER UVICK ONLY ONE TURNED DOWN

Council Opens Blds for Sewer Bonds and Finds Only One Definite Proposition, and This Much Lower Than Expected.

The most important of the several meetings last night was that of the fire and police commissioners. The commission took up the protests which still remained on file. The Bee's protest against John Cerveny was withdrawn and that of The Bee against Herman Anger was continued, as were the cases of Emil Hansen, Nels Lundgren, Patrick Hannigan and Alexander These protests will be given a

The board then took up the question of granting licenses to all men against whom there was not protest or other objection. Sixty-eight licenses were issued. Twentyfour have already been published. The remaining licenses were granted, as follows: Frank Alekstewicz, W. J. Boruch, Brennen & Burth, Andrew Broback, John N. Burke, John Buck, Anton Bianche, John Cernevy, Tom Dombrowsky, Charles Durr, F. S. Faber, W. L. Harris, James Harold, Fred Hefflinger, E. A. Higgins, W. C. Hayden, John Franck, Joseph Daltow, John Kowalski, Jake Kaufman, Bernard Krebs, Frank Kashanowski, Louis Lundin, Swan Larson, Paul Mollner, Con O'Brien, Leo Roemer, John Riches, John Raab, George Tierny, Charles Theide; Joseph G. Vosacek, Charles Meis, John Zitzleberger, John Wrede, Miles E. Welsh, P. J. Martin, Charles Weymuller, Joseph P. Wagner, John Fida, M. Wollstein, Barny Cogan, Anton Oliwicki, H. H. King, Kuschinek &

The last four of the above list were taken up specially for the reason that there were police records against the men. They were disposed of by the solemn promise f the licensees to abide by the rules of the board. Barny Cogan was specially charged by the police board that his license would be cancelled at once if he should be brought up for any further offenses. G. W. Tierny became sponsor for the good conduct of the place, and with the understanding that the first offense would de-prive him of the license Cogan was allowed o continue business.

The case of Peter Uvick came up and his liceuse was promptly denied on the ground that he was not a man of good moral character. Uviek has been up time and again in police court for breaches of the law and disorder. He made the charge against the chief that the latter had a grudge against him and had repeatedly Turning to the chief he said dramatically 'What kind of a man are you? Would you run a poor old man back to the packing Rev. T. V. Moore and Robert Dempater

The chief said "Yes, that's where you be long." At this point the board demanded order and Uvick made his departure. The chief gave him strict orders to close up

at 12 o'clock last night. In the cases which are still under pro test the board made a special ruling allowing them to keep open pending the decistor of the cases, since their bonds were filed. There was nothing to indicate the least relaxation in the matter of Sunday closing or the other regulations, and the saloon men appear to have universally accepted the conditio nof affairs. The next meeting of the board will be

May 8. Short Session of Council.

The city council held a brief session last ed were those whe night, cutting all business short to make had prior to the congress received the en-dersement of the majority of the eligible way for the meeting of the Board of Fire votes of the Montana state delegation to and Police Commissioners. The general salaries for the latter half of the month of April were allowed and the police and

The bids on the bond issue were opened and it was then discovered that there was only one bidder on the market. This was W. J. Hayes & Sons of Cleveland, O. They offered par for the bonds with a premium of \$339 and agreed to pay for the printing of the bonds and to pay the accrued interest. The bonds were to be issued in up each month. A communication was also received from Hoehler & Cummings of Toledo, O., which stated that if the proposition of the bidders should not be satisto the proper committee. The council then adjourned until tonight.

It was plain that the council was dissecurities have ever commanded in the way of premiums. The city hall site bonds commanded nearly \$500 on an issue of \$70,000. A representative of Hoehler & Cummings was present and he made the explanation of the situation to the effect that the money market was very stringent in the east, and especially since the San Francisco disaster. He expressed his epinion that South Omaha had received a remarkably good bid and practically that his company would not be able to make a better offer. The issue of the honds was well advertised in all the prominent finan-

cial papers of the east.

Discuss High School. The faculty of the South Omaha schools grappled with the question of the status of the so-called high school fraternity yesterday morning. A mass meeting of the students was called at the usual time of the morning assembly. The faculty presented its side of the question. The majority is decidedly opposed to the fraternity notion. At best they are considered a reflection or imitation of the better known Greek letter fraternities of the universities. As the conditions developed here it may be that the authorities will forbid the students joining any such orders, as has been done in many other cities. In the meeting yesterday nothing more than an unfavor able opinion was expressed, with a possible hint of sterner measures. Several regulations were laid down, however, to restrict the influence of these societies. The princinal one was that no one could hold office in a class organisation nor in a student society who was in any way deficient in any of his studies, nor was it permitted any student whose work was deficient to attend any functions of his class or his society until such deficiency was made good.

The students declare that their clubs and other organizations are not in any strict sense a fraternity and some are inclined to look askance at the regulations of the faculty. These clubs have sprung into existence within the last three months in South Omaha. Several of them are now thoroughly organized.

Hospital Committee Meeting. There was a meeting of the new hos-pital committee of fifteen in T. J. O'Neill's office last night. The committee organized for husiness and the number was increased to twenty members, the last five not yet samed by the chair. W. S. King was chosen chairman of the committee, C. B. Dunham treasurer and T. J. O'Neill secretary. Several standing committees were appointed, Mesers. Helly and O'Netil as press committee, Powell and Cox as a committee on subscription books, King, Freitag, Meloher, Slabaugh and Koutsky as a committee to appoint subcommittees in all the precincts of the city. The comFIFTY YEARS OF THE CHURCH

Transfer of Treasper. In the city treasurer's office the transfer was effected yesterday in full. The out-

going treasurer turned over the funds in cash to the grand total of \$55,166.12. This money was distributed as follows:

Lightning Strikes Hammond Plant. During the thunderstorm last evening lightning struck the Hammond plant and started what was feared would be a serious blaze. The prompt arrival of the fire department and the deluge of rain at the time extinguished the fire quickly and no particular damage was done. The lightning cut a wire and opened a circuit of high voltage. This was the principal danger. The only work of the department was the securing of the cut wire. The rain did

The creditors of Mrs. Lillian Chapman-Anderson, a milliner of Lincoln, have filed a petition in the United States district court asking that she be declared a bank-rupt. The petition alleges that she while inselvent, transferred a portion of her property to preferred creditors with a view to preferring their interests over other lawful creditors.

So many mothers have written us, telling how much Mellin's Food has done for their babies, that we have thousands of mothers' letters in our files. If you feel interested, we will send you captes of any of these letters, and you can write to the meethers yourself and weriff them. Very likely we have letters from sections to your visitity whom you may know. A sample of Malife: Feed sent face on request.

MELLIN'S POOD CO., BOSTON, MASS.

Congregationalists Will Begin Their Semi-Centennial Wednesday.

THREE DAYS OF CELEBRATION PLANNED

Many Church Dignituries Will Attend and Take Part in the Ceremonies Attending the Big Jubilation.

The celebration of the fiftieth anniversary of the founding of the First Congregational church of Omaha will be observed in this city, beginning with Wednesday morning, May 2, and continuing through Friday, May 4. The celebration is given under the auspices of the state societies of Congregational churches, with Rev. George Scott of Leigh as moderator and Prof. F. C. Taylor of Weeping Water, as clerk.

The history of the First Congregational church of Omaha runs back almost to the beginning of the city's life. In 1835 Rev. Reuben Gaylord, who had for seventeen years been a missionary in Iowa, was sent by the American Home Missionary Society to Omaha. He preached through the winter of 1855-58 in the assembly room of the territorial legislature. Here, on May 4, 1866, the church was first organized, with Governor and Mrs. O. D. Richardson, Mr. and Mrs. H. B. Chapman, James W. Seymour, Mrs. Allen, Mr. and Mrs. Reuben Gaylord and Miss Sarah A. Gaylord, as charter members.

Growth of Fifty Years.

The church has grown rapidly since then, there now being eight Congregational churches in the city, offshoots from the parent church. The First Congregational church has had eight pastors since its founding fifty years ago. The present pastor, Rev. Hubert C. Herring, D. D., began work in September, 1893. The first house of worship of this church, erected in 1856 at a cost of \$4,500, was built on the west side of Sisteenth street, a little north of Farnam. It was vacated in 1870 for a new church at Nineteenth and Chicago streets. which was torn down in 1889. The present house of worship at Davenport and Nineteenth streets was erected in 1885 at a cost

of \$100,000. The program for the fiftieth anniversary of the church is an extended one, the services beginning at 10 o'clock Wednesday morning, Rev. G. W. Mitchell of Clarks presiding. The devotional services will be onducted by Rev. George E. Taylor of Pierce, who with Mr. H. P. Pairchild and Mr. C. B. Anderson of Crete will deliver addresses during the forenoon.

Historical Session.

A. P. Tukey of Omaha will preside at the afternoon meeting and the entire services will bear particularly upon the hisorical record of the church, with greetings from former pasters and members. Rev. Harmon Bross of Lincoln will deliver a short address, on Congregationalism in Nebraska, to be followed with papers by noted church workers on various topics, such as women's work, Christian Endeavor work, Sunday school and home mission work.

Rev. George Scott of Leigh will preside at the evening meeting of Wednesday. At 8 o'clock President Henry Churchill King of Oberlin college will deliver an address on "The Fundamental Nature of Religion."

Day for Business.

Thursday's session will be largely of a business character, the afternoon session being given over to educational topics their attention of attending the sessions moderator of the National Council of Con-Dr. Gladden will also lecture on Friday

evening in the People's institute course on the subject of "Thomas Carlyle" Among the other church notables to be present during the session will be Rev. George W. Crofts, "The Poet Preacher" of West Point, Neb. Dr. Crofts was for many years pastor of the Congregations. church at Council Bluffs, and has been pastor of the Congregational church at Beatrice, Neb., for twelve years, only going to West Point within the past year.

RAIN JAMS THE BIG SEWERS Water Falls Faster Than the Drains Can Carry It Off and Damage Results.

Monday evening during the brief space of thirty minutes the precipitation in Omaha was .% inch. During the day a total precipitation of 1.54 inches was recorded by the weather bureau gauge. The result during the heaviest downpour about o'clock last evening, was that the streets resembled mountain torrents. The sewers were inadequate in some parts of town to carry off the flood. This was particularly true of North Twenty-fourth street from about Grant to Franklin streets. Cellars were flooded and great volumes of back water rushed out of the sewers until in the vicinity of Patrick avenue the water was two feet deep in the street. As the street cars did not have screw propellers the motormen took a running chance and forced their care through the flood until they could reach the high ground where the electric current was not disturbed by the torrents of water. For several blocks the sidewalks were under water and both store and residence basements were badly

flooded and had to be baled out. At Sixteenth and Webster a similar condition prevailed, also at Capitol avenue and Sixteenth street. The flood back waters shot out of the newer at that corner half way across the street and the basement of the postoffice building was badly flooded from the back water. The flood came down Dodge street hill and Capitol avenue hill in great volumes. Fortunately the flood was of brief duration and the sewers were soon able to carry off the volumes of

water. Heavy pieces of timber floated down Douglas street from the Brandels and Hayden buildings, under construction there and were carried down onto Sixteenth street in front of the postoffice. Very little water got into the Brandels excavations at Seventeenth and Douglas.

The Dodge street line tracks at Twentieth and Burt streets were under water for several minutes and one conductor is authority for the statement that he saw a quantity of paving bricks floating at that The San Francisco relief tents at the

Union station were flooded during the heaviest part of the rain and the ladies in charge had to take refuge on tables for several minutes on account of the foot or more of water that rushed through the tents. The hospital tent got the worst of it, the clothing and supplies stored there getting a thorough soaking.

Friday some apprehension was felt that there was going to be an abnormal deficiency of rain during the month of April, At that time the record of precipitation fo the month was but 1.55 inches being a deficiency up to that time of . M of an inch. The normal precipitation for the month is 3.15 inches and in this connection Colone Welch was moved to remark: "Five day yet remain of April to make its record good and to equal the normal, and in fact, one good rain would equalize matters." day's rain did the equalising act to an ac curate finish, the precipitation being 1.54 inches, which made the record exactly

#### IN A CLASS ALL BY THEMSELVES.

Whatever may be said or written for or against so-called patent medicines, there is this to be truthfully said of Dr. Pierce's medicines that applies to no other medicines put up for saie through druggists. They are entitled to a piace all by themselves because they are neither patent nor secret medicines—all their ingredients being openly printed in plain English on their bottle wrappers.

Then again they are entitled to a place or again they are entitled to a place.

or against so-called patent medicines, there is this to be truthfully said of Dr. Pierce's medicines that applies to no other medicines put up for sale through druggists. They are entitled to a place all by themselves because they are neither patent nor secret medicines—all their ingredients being openly printed in plain English on their bottle wrappers. Then again they are entitled to a place all by themselves because they contain not a drop of alcohol in their composition, or make up.

Send your address to Dr. R. V. Pierce, at Buffalo, N. Y., with a request for a free booklet, compiled by him from standard medical works and you will learn on reading it that the leading medical writers and teachers of all the several schools of practice endorse and recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver compilaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their resultants, as bronchial, throat and lung diseases (except consumption) accompanied with severe coughs. It is not so good for acute coids and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherrybark, Golden Seal root, Bloodroot, Stone root, Maddrade root and Queen's root—all of fect cures. It contains Black Cherrybark, Golden Seal root, Bloodroot, Stone root, Maudrade root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College: Prof. Hare, of the Univ. of Pa.; Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago; Prof. John King, M. D., late of Cincinnati: Prof. John M. Scudder, M. D., late of Cincinnati; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Goiden Medical Discovery" is the only medicine put up for sale through druggists for like purposes, that has any such professional endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula on the bottle wrapper is the best possible guaranty of its merits. A glance at this published formula will show that "Goiden Medical Discovery" contains no poisonous harmeful or habit formula sensite and

Medical Discovery " contains no poison-ous, harmful or habit-forming agents and ous, harmful or habit-forming agents and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful ingredient in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native, medicinal roots and is safe and reliable. Eminent doctors also praise the ingredients entering into Dr. Pierce's Favorite Prescription.

dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorita Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions " and general enfeeblement, it is useful."

Prof. John M. Sendder, M. D., late of Cincinnati, says of Golden Seal root:
"In relation to its general effects on the system, there is no medicine in use about which there is such general unonimity of opinion. It is universally regarded as the tonic useful in all debilitated states."

of opinion. It is universally regarded as the tonic useful in all debilitated states."

Prof. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhagia (flooding) and congestive dysmenorrhagia flooding) and congestive dysmenorrhagia flooding and congestive dysmenorrhagia all the above named ingredients and cures the diseases for which they are recommended.

Of Black Cohosh, another ingredient of "Favorite Prescription," Prof. John King, M. D., author of the American Dispensatorry, says:

"In the painful conditions incident to imperfect menstruation, its remedial action is fully displayed. By its special affinity for the female reproductive organs, it is an efficient agent for the restoration of suppressed menses. In dysmenorrhoga (painful perioda), it is surpassed by no other drug, being of greatest utility in irritative and congestive conditions of the uterus and appendages, characterized by tensive, dragging pains, resembling the pains of rheumatism. It is a good remedy for the reflex side-ache of women. It should be remembered in rheumatism of the uterus, and in uterine leucorrhoga."

Silper root, and Yellow Lady's Silpper root, the two remaining ingredients not mentioned above, have just as strong endorsements for their curative merits in diseases peculiar to women, but we have room for no more. "Favorite Prescription" is a happy and harmonious compound of the above mentioned ingredients and faithfully represents them in curative results.

all such cases. The "Discovery" is a concentrated glyceric extract of native, medicinal roots and is safe and reliable.

Eminent doctors also praise the ingredients entering into Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of The Eclectic Medical Review says of Unicorn root (Helonias Dioleo) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invaribly acts as a nterine invigorator " " makes for normal activity of the entire reproductive system." He continues. "In Helonias we have a medicament which more fully asswers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seidom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with lencorrhoma; atonic (weak) conditions of the reproductive organs of women, men-
