ANNOUNCEMENT

Talk-O-Phone Stock is Today the Best Paying Safe Investment Offered the Public

The Talk-O-Phone Company of Toledo, Ohio, manufactures the latest and most improved talking machine on the market. Leading music houses all over the country are agents and the orders are thousands in excess of the output.

The original capitalization of the Talk-O-Phone Company limited this output to one half the capacity of the factory, hence the increase of capitalization from \$500,000 to \$1,000,000. The additional capital means a production of 750 machines per day and each machine nets a profit in excess of \$5.00 each. Figure for yourself the earning power of your money when invested in the stock of this Company.

A SEMI-ANNUAL DIVIDEND, PAYABLE IN JULY, OF 5 PER CENT HAS BEEN DECLARED, and the next dividend in January will, we believe, be considerable larger than this. Stock purchased now will participate in the July dividend.

period of one year to superintend the construction of buildings and draw plans for the same, will not have to pay back to the school district the sum of \$1,900 which the district brought suit to recover. For his plans he was paid \$1,900, or 5 per cent of the cost of the structure. After Davis had severed his connection with the school board suft was brought on
