Changes Plan as to Building and Gives Option on Bits.

WOODMEN CIRCLE WILL SELL

MAKES DEAL WITH THE PARENT BODY

Woodmen of World Arranges to Allow Circle to Remain in Main Building and Plans of Order Are Modified.

The Woodmen Circle has decided not to erect a headquarters building on its lot at the southwest corner of Eighteenth and Farnam streets, and has given an option on that property to a local real catate man. The option runs but a day or two longer, and it is said it probably will result in a sale. The price asked is \$53,000, an advance of \$8,000 over the figure paid by the Woodmen Circle a few months ago.

It is generally believed that the Circle has decided not to build at all, but this is not yet admitted by the officers. A proposition has been made to the Circle by the Woodmen of the World with the idea of getting the Circle to remain in the same building with the parent body, and the building committee of the Circle has the proposition under consideration. The Woodmon of the World offers to let the Circle have vault room for valuable papers and records, lack of which was one of the reasons why the Circle wanted a building of its own. The building committee held one meeting Friday to talk over the matter and another is scheduled. That the committee's final action will be to comply with the wishes of the parent hody and have the Circle remain in its present quarters, is indicated by the fact that an option has been given on the Farnam street lot, the only suitable property it has on which to build.

This naturally leads to the conclusion that if the Woodmen leave Omaha the Circle will go also. The matter of leaving has not been definitely settled, as the final decision of the supreme court in the matter of taxation of the Woodmen reserve has not been made.

Real estate men are of the opinion that the Woodmen organization, if it remains in Omaha, will erect a building on the lot adjoining its present building on the east. This lot, 66x132 feet, was bought by the Woodmen last winter.

INQUIRY FOR WESTERN LAND Influx of Settlers Such as Keeps the Railroad Agents on the

Move Continually.

Land is booming all over the western country and the influx of settlers has been enormous this spring. All railroads have been doing a literal land office business in taking settlers and buyers to western Nebrasks, Wyoming and eastern Colorado. Many large sales have also been reported, the latest being the sale of the well-known Davenport ranch, comprising 1,080 acres and lying between Sterling and lliff on the south side of the river. This land is all in hay, grain and alfalfa and all under irrigation. It was bought by S. S. Rust, a banker at Oakland, Ia., the price being \$30,000. It will be subdivided and sold in forty-acre tracts this fall. D. Clem Deaver took a party of forty out Tuesday to Hyannis and other points. The Rock Island train Wednesday also had on two extra cars of land seekers.

Lower Rates to Black Hills.

Reduced rates on most of the commodities used in the Black Hills country have been announced by the Burlington and formerly dining car inspector. Northwestern railroads to take effect May 10. These rates apply from Missouri river points to Deadwood, Lead and other points in the Black Hills. The rate of fifth-class goods from the Missouri river has been reduced from 95 to 85 cents per hundred and the rate on class A goods has been reduced from 35 cents to 90 cents. The rate on bar, band, bofler, plate and hoop iron or steel. also bolts, will be reduced from 95 cents to 60 cents per hundred. This includes groceries and hardware commodities and will make quite a reduction for the Black Hills country.

THE OMAHA DAILY BEE: SATURDAY, MAY 5, 1906.

High Class Men's Suits Intended for San Francisco Diverted to this store to be sold at 40 per cent Less than Regular Prices.
