LONDON, May 4.—Money was in good demand today for the consols settlement and various calls. Discounts were firm, owing to fears of another advance of the Bank of England's rate of discount in the near future and possible further gold demands, though it was hoped the latter would be diverted to the continent. Trading on the stock exchange generally was full, operators having no lineentive to speculate in view of the dearness of money and the uncertainty regarding the monetary position in the United States. Consols were weak on account of general selling, as the result of the dearness of money and fears of a further advance of the bank rate. Americans, after reaching parity, hardened fractionally. Canadian Pacific and Union Pacific were in the best demand. Later the market sagged, but advanced sharply during the afternoon on Wall street support and closed firm at a fraction below the best quotations of the day. Foreigners were steadler on better Paris support. Imperial Japanesse 6s of 190 were quoted at 10l. Kaffirs were weak.

BERLIN, May 4.—Trading on the bourse today was very quiet. United States Steel was firm.

Weel Market.

BOSTON. May 4—WOOL—The Boston Commercial Bulletin will say tomorrow of the wool market: The market is practically devoid of activity and the business being transacted is of smaller volume than in many months. Sales are insignificent both in number and size. It is generally agreed that prices have now reached their limit and consequently the sheepmen will have to modify their demands if they desire to dispose of their clips. Since the contracting of a half million pounds in Montana the only important transaction reported from the territories is the taking of the Daley clip at Casper, Wyc., by a Boston, firm at 23c. A few stray transfers are being made at 19 to 20 cents. Local Texas speculators have bought some clips at 214602c. Small sales have been put through in California at 1322c for middle county and 22624c for northern. Sales of territory wool are small: one of 10,000 pounds of medium Utah at 27c is noted. Remaining stocks are firmly held. Fine staple is worth 72673c and fine medium. Sagrice. Half blood is quoted at 83670c; three-eighths at 6366c and quarters at about 62c. Some small sales of new Arlzona at 284c and defective California scorued at the are reported. Trading in fleeces does not create a ripple and prices are practically nominal. A very little Ohlo XX has been sold at 346345c; quarters are quoted at 31602c and three-eighths at 32633c. The shipments of wool from Boston to date from December 21, 1965, according to the same authority, are \$1,44,575 pounds against \$5,501,365 pounds of the same period last year.

LONDON, May 4.—WOOL—A sale of Case of Gene Arlas and of Case of Gene Horse and Novel and prices are procedulated from December 22, 1965, according to the same authority, are \$1,44,575 pounds against \$6,500,165 pounds for the same period last year.

LONDON, May 4.—WOOL—A sale of Cape of Good Hope and Natal sheepskins was held here today. The offerings numbered 125,127 skins, of which 114,877 were sold. Eastern skins were of good quality, while the western were in poor condition. The demand was less active and prices showed a loss of 14604d except eastern long-wooled, which was unchanged. long wooled, which was unchanged.
