VALUE OF THE WATER PLANT

Board of Appraisers Expected to Make Report Very Soon.

AGREEMENT REACHED ON MAIN POINTS

Recent Conferences of Members Have Been Stormy, but Productive of Results So Far as Report is Concerned.

It is now announced that the water works appraisers' report is looked for about June 1. In view of the many false alarms of a similar import the hopes are not regarded as perilously near fulfillment, yet the statement is made that it really appears as though the award will be made inside of a few weeks. The appraisers are holding a session this week in Cincinnati and are to hold two or three more, including one in Omaha, before making up the final figures. The great bulk of their labor has been accomplished, it is said, and while a few large items remain to be considered, yet the future is rosy than it was some time ago when relations of a very strained character existed among the engineers on the board. So intense did the personal feeling rise on one occasion that at least two of the appraisers were not on speaking terms for four days. Finally, by the exercise of considerable force and diplomacy, outward

harmony was restored and the engineers got on a working basis again.

After this interruption another occurred caused by the death of a son of Appraiser Mead, who had been staying at Leas Angeles in hopes of bettering a delicate condition of health. The son died and Prof. Mead had to go to California and spend considerable time in connection with the bereavement.

Main Points Are Settled.

According to the reports that have reached Omaha the appraisers have settled upon the value of the distributing part of the plant, but are still confronted by the vexed question of the rapping at the Florence pumping station. As the plan followed by the appraisers is to fix a value based upon the cost of replacing the water works and expert engineers have testified that much money, time and material was thrown away on the river protection at Florence, the point is one that has always occupied a leading place in the controversy.

The division of the valuation in accordance with the parts in South Omaha, Dundee, Florence, East Omaha, etc., as opposed to Omaha, has not been made, but it is not thought any stumbling blocks of moment will be found in the process.

Whether the appraisers will hold their final meeting and complete their report in Omaha or will visit the city and go east again to finish has not been determined.

Appeals Set for Hearing.

The appeals in the water meter rate and contempt cases are set for argument before the United States circuit court of appeals at St. Paul May 15, and Attorneys

Webster and Wright are preparing to present the side of the Water board. Both appeals are taken by the Omaha Water company from decisions by Judge Munger.

The reductions in meter rates ordered by the board were sustained by Judge Munger and the contempt case involves the fine imposed upon officers of the water company for failing to produce books and records as ordered by the court.

RECEIPTS OF TAXES LIGHT

City Treasurer Getting in Only About \$10,000 a Day at Present.

Receipts of city taxes so far since they became due for the current year, May 1, have not been anything like the volume of the early days of the tax paying season in recent years. The condition is attributed to election excitement and the lack of newspaper publicity, the news columns having been crowded with important other matter. The receipts have been about \$10,000 a day up to the present, which is far below past performances.

Thinking that city taxes are now payable at the court house, many persons have climbed the long flights of stairs only to be told that cash is still taken at the city hall and their ascent was made for nothing. Until the city and county treasurers are actually consolidated in single quarters Treasurer Fink will conduct city fiscal affairs in the city hall, and county fiscal matters in the old office in the court house. He is still waiting on the city council to provide anticipated additional quarters needed at the city hall, so the county books and force may be brought over and the work centralized.

The council has had the proposition under advisement several weeks, but has accomplished nothing definite.

BROWN JUMPS HIS BAIL BOND

Man Accused of Assaulting Rees, Junior, and Wilson Not Present When Case is Called.

Ed F. Brown did not appear in the police court Friday morning when the case of assault with intent to inflict great bodily injury was called against him. His bond of \$50 was declared forfeited and a capias issued for his re-arrest. E. F. Morearty, Brown's attorney, was on hand, but could throw no light on the whereabouts of his client.

Brown, with P. J. Breenham, was charged with assaulting Samuel Rees, Jr. and C. F. Wilson at 14th and Leavenworth streets last Monday evening. Brown was arrested by Sergeant Hayes and Patrolman Flynn, but Breenham made his escape and has not been seen since. He quit his job as bricklayer at the Union Pacific shops and is believed to have left the city. Although Brown was charged at the city jail with assault with intent to inflict great bodily injury, he was released on a cash bond of \$50 on the order of Police Judge Crawford, who is at present out of the city.

Entertaining an Enemy.

Don't entertain a chronic, running sore or wound. Cure it with Bucklen's Arnica Salve. 25 cents guaranteed. Sold by Sherman & McConnell Drug Co.

DIRT FLIES ON SMITH PLANT

Contractor for Excavation Gets Busy on the Work Right Away.

TWO BIG HOLES WILL BE SCOOPED OUT

Excavations 132 Feet Square and Eight Feet Deep Started and Other Contractors are Ready to Begin as Soon as Possible.

The Capital City Brick and Pipe company, which will build the \$200,000 dry goods house of M. E. Smith & Co., is getting to work in good earnest. Only two days ago the letting of the contract to this firm was announced. Thursday afternoon the contract for grading was sublet to F. C. Jackson, and Friday morning work was begun on the excavation.

The grading contract involves the expenditure of \$10,000 and calls for the removal of 25,000 cubic yards of earth. This means two holes 132 feet square and eight feet deep, connected by two channels, or subways, twenty feet in width and to the extent of 1,300 carloads will be used in the erection of the buildings. The lumber contract which is to be placed will be one of the largest ever made in Omaha

Found Out

Trained Nurse vs. Coffee

No one is in better position to know the value of food and drink than a trained nurse.

Speaking of coffee a nurse of Wilkes Barre, Pa., writes: "I used to drink strong coffee myself and suffered greatly from headaches and indigestion. While on a visit to my brothers I had a good chance to try Postum Food Coffee, for they drank it altogether in place of ordinary coffee. In two weeks, after using Postum, I found I was much benefited and finally my headaches disappeared and also the indigestion."

AH WAH SAVES HIS LAUNDRY

Robert Williams Routed by Hot Flat Irons and Fined in Police Court.

Most of the excitement in Omaha Thursday evening occurred at a Chinese laundry operated by Tong Wah at 24 North Sixteenth street, where Robert Williams met Ah Wah at the crossroads. The report was that Williams was drunk and had no regard for laundries, all of which had the same appearance to him. With a madman's recollection of having lost a bundle of washing two years ago in a laundry on Howard street, Williams proceeded to vent his spleen on and measure his strength with Mr. Wah, who saw Williams first and jumped into the fray line with a brace of hot flatirons. After several attempts to

for local building purposes and will be much the largest of the present season.

The structural framework will be largely of heavy wooden timbers. A railroad track will run between the two buildings. On each floor above the first connecting passages will be built from one building to the other. In the rear of the factory, which will be the north building, there will be a paved driveway in a sodded court 6x132 feet.

The contract calls for the completion of the sales building March 1, 1907, and the factory May 1, 1907. Mr. Myrick of the Capital City Brick and Pipe company says the whole work will be finished by April 1, and the company will break the western time record for buildings of like size.

COMMONS LEFT FREE TO ACT

Judge Munger Directs Sheriff of Thurston County to Release Indian Agent.

Judge Munger handed down a memorandum opinion Thursday evening in habeas corpus case of John M. Commons, agent for the Omaha Indians, in which he grants the writ and orders Commons discharged from custody.

Commons, who is superintendent of the Omaha Indian agency, undertook several months ago to eject Thomas Baradas and others from certain Omaha Indian lands on the ground that the Baradas were not legally authorized allottees of lands. This contention the Baradas resisted and took the case into the district court of Thurston county. An injunction was secured in that court restraining Agent Commons and his Indian police from enforcing the order of ejectment, and he was arrested and required to give \$2,000 bonds to maintain the peace, etc., and abide by the order of the court. Agent Commons held that he was acting under the orders of his superior officers, the general land office, and declined to furnish the required bond, and was thereupon placed in the custody of the sheriff of Thurston county. An application for a writ of habeas corpus was consequently made to the United States court, that Commons was restrained of his liberty and the arguments on the motion were heard before Judge Munger about a week ago. The order granting the writ is based on the grounds that Agent Commons was acting in the full and legitimate discharge of his duties in the ejectment of the Baradas from lands to which they had no title.

push the laundry into the street Williams was routed by the irate Celestial and his inoperative weapons.

A passing patrolman picked Williams up and pacified Mr. Wah. The police judge fined Williams \$5 and costs for his jollification. Ah Wah arrived at the police court ten minutes too late for the hearing, but expressed satisfaction from ear to ear when he learned of the fine.

GRAND JURY GETS FIRST CALL

Judge Sibaugh Will Devote Attention to Its Work Early in the Session.

Owing to the fact County Attorney Sibaugh will be busy with the grand jury no important criminal cases will be taken up the first part of the May term of district court, which will convene Monday. The first two weeks will be devoted to petty cases, among them the saloon cases brought by Elmer Thomas and appealed from county court. After two weeks Judge Sibaugh hopes to be through with the grand jury and will then devote his time to the more important cases.

The first of these is the case of Cal Wain, charged with being an accomplice of Harrison Clark in the murder of Street Car Conductor Flury. This trial is set for May 21 and immediately following it the county attorney will take up the trial of Joe Warren, charged with the robbery of the saloon of Neils Lausten. Raymond Nelson, charged with the murder of Lausten, will have his trial after that of Warren.

County Attorney Sibaugh will probably ask the grand jury to investigate the murder case against James Diggs, charged with killing Frank Wheeler. The evidence in the case is entirely circumstantial and County Attorney Sibaugh wants the grand jury to pass on it. He has decided that it will be unnecessary to ask the grand jury to return indictments in the cases in which information has already been filed. This will greatly lessen the work of the jury and it is hoped to finish the session in two or three weeks.

County Attorney Sibaugh has dismissed the complaint charging robbery against James Morrissey. He was accused of aiding Mike Ford in the holdup of a South Omaha saloon. The evidence against him was not conclusive, however, and the jury before which he was tried failed to agree on a verdict.

No Secrets To Hide

We have nothing to conceal; no secrets to hide! We publish the formulas of all our medicines. You will find these in Ayer's Almanac for 1906; or write us and we will send them to you. Then show the formulas to your doctor, and ask him what he thinks of them. If he says they are good medicines, then use them. If he has anything better, then use his. Get well as soon as you can, that's the point!

J. C. Ayer Co., Lowell, Mass.
