field Perverted the Facts Given Him by Company. PHILADELPHIA, May 5 .- Vice President

Thayer of the Pennsylvania Railroad company today made the following statement concerning the report of Commissioner in the Standard Oil inquiry:

The report of Commissioner Garfield, The report of Commissioner Garfield, so far as it refers to our company in its relations with the traffic of the Ctandard Oil company, is an inexcusable and outrageous perversion of the facts.

It is true that there has been in effect a special rate on nine cents a barrel on oil from Olean to Rochester and it has not been withdrawn. This rate was originally made in 1888 by the Western New York and Pennsylvania railroad, thelve years

made in 1838 by the Western New York and Pennsylvania railroad, twelve years before the asquisition of that comptny by the Pennsylvania railroad, in order to retain to the railroad traffic that which would otherwise have gone by pipe line. It is not a secret rate and never has been secret. The tariff was not filed with the interaction companies companies in cret. The tariff was not filed with the interstate commerce commission because it applies to traffic solely within the state.

As to the so-called "saving of \$115.000 in 1904," I presume this is based o the difference between the special rate and the regular classification rate. This conveys the impression that a large sum of money was illegitimately taken by the railroad company, which, in view of the facts above explained, is manifestly not true.

Reference is made to "blind billing" as if it were some secret devise. This also is untrue. The explanation of so-called "blind billing" is very simple; Billing is another name used by railroads for manifesting, which is a record of shipments

another name used by railroads for manifesting, which is a record of shipments made only for the use of the railroad company in making proper movement of the traffic and taking proper account of it. The public never sees a manifest, being interested only in the rate, the bill of lading and the freight III.

The term "blind" is used when manifests are made without the details being shown, a practice not infrequent, and not

fests are made without the details being shown, a practice not infrequent, and not peculiar to the oil traffic. Its purpose is to save clerical work. This was fully explained to Commissioner Garfield's representive and it was clearly shown to him in the case under discussion that the actual treight money required by the issued rate was collected and retained by the rail-

After an exhaustive examination by the Department of Commerce—our books and accounts being freely produced both on state and interstate traffic—it appears that the only case that Commissioner Garfield was able to present for criticism in all our relations with the Standard Oil company is this rate on oil between Olean and Rochester, two points in the state of New York, a distance of 100 miles apart, at each of which points are located refineries of the Standard Oil company, and between which a pipe line could readily have been constructed.

In the message from the president, transmitting the report of Mr. Garfield, reference is made to the relations of the relations of the relations of the remaining to the so-called "sugar trust" at New York, and to information conveyed to the president that the so-called "sugar trust" rarely if ever pays the lawful rate for transportation. As the Pennsylvania for transportation. As the Pennsylvania company is known to participate largely in the carrying of this traffic it would necessarily follow that such information applied to that company, and in view of this it is proper that answer thereto of this it is proper that answer thereto of this it is proper that answer thereto for the so-called "sugar trust" or other shippersonal knowledge. I deny positively and empfatically that such information is true, so far as the Pennsylvania railroad company is concerned, on the contrary I assert positively that the traffic of the so-called "sugar trust" or other shipperson agar has been carried for many years past at the lawful published tariff rate and that no rebate or unlawful concession, direct or indirect, has been paid by our company on this traffic. It is unfair and unjust to the president that he should be missed into believing that any such condition of affairs exists as stated.

MIPSON BELDEN & 6.

WASHINGTON, May L-General debate on the naval appropriation bill terminated with the close of today's session of the house, one paragraph of the bill being read in order to make it the continuing order before the house. International arbitration, the reduction of our armament, a carefully prepared address on the achievements of the navy and a defense of the naval program for 1907, together with a speech in favor of a monu ment on King's mountain battlefield were the features of this legislative day. Those who addressed the house formally were of their attendance at the camps.'

> South Carolina, Mr. Webb of North Caroline and Mr. Tyrell and Mr. Weeks of Massachusetts. Mr. Foss of Illinois, in charge of the bill, stated that the naval budget probably would be completed after two days' debate under the five-minute rule; Mr. Payne, the floor leader, thought t would take a day longer. Mr. Bartholdt (Mo.) argued for decreasing the size of the navy and gave notice that at the proper time he would offer an amendment to the naval bill providing that the secretary of the navy should defer the building of the \$19,000,000 ship provided for in the bill until after the forthcoming
