elso in similar employment had ever been asked by Mr. Rosewater for political support or allegiance of any kind.

"These are the true conditions." said Mr. turgess. "It is therefore gratifying to be able to say that 120 voters employed by The Bee held a meeting recently, formally endorsed Mr. Rosewater's candidacy and appointed a committee to work in his interests. No one was compelled to do anything of the kind, and the greatest freedom of speech and action was in every way permissible. It is the desire of the employes to present Mr. Rosewater to labor-

ing men as an employer of labor, in view of the fact that they now have a chance to help select a United States senator by their votes. As an employer Mr. Rosewater has spent over \$4,000,000 in Omaha, and as one of the many who have been directly benefited by a part of this expenditure I am here to say that Mr. Rosewater's employes, are with him to a man."

COMMITTEE GREETS NEWS WITH CHEERS

Mr. Phelan Says This Action Will Bring About an Early Resumption of Normal Conditions.

SAN FRANCISCO, May 9 -Financial interest today centered in the announcement made by the insurance companies that in the immediate future they would pay losses of the fire sufferers. It is believed that most of the money will be put into general circulation and when it is distributed will relieve the people of San Francisco as no other means could.

This news was welcome, not only to the policyholders, but also to the banks that have been doing their best for the public with the resources at their immediate command, necessarily limited. The announcement was official to the extent that it was given to the subcommittee of the citizens' general committee and duly reported at the general committee's daily meeting. The announcement was received with applause. news from these interests having been awaited with much anxiety

"What will be the effect of the payment of this insurance money?" was asked of James D. Phelan, chairman of the finance committee.

"Nothing could do more good." he replied. "When the money is paid out to the paople it will put them on their feet. It will bring about an early resumption of normal conditions. The people want money to buy what they need, and the payment of these many million dollars will greatly assist the banks in giving them money. What is more, the circulation of the money will be of great value to the banking interests.

With their announcement that losses will soon be paid the insurance interests have made the concession that salvage operations on property swept by the flames may be proceeded with.

Policyholders may save anything they can and without fear of risking the loss of their claims for insurance.

To a great extent the work of demolishing walls and clearing away debris has been postponed because of the doubt regarding the attitude the insurance companies would take. The work of contracting and wrecking companies has been deferred awaiting such a definite statement as that made by the insurance companies to the committee today,

Robert Cowell spoke of his old acquaintance with the Rosewater family in Cleveland and the fact that he had known Edward Rusewater personally and intimately for twenly years. Continuing he waid:

councilman, and while mayor and acting the senate from Nebraska. Said he: I am pleased to have this opportunity to say a word in advocacy of the candidacy of Edward Rosewater for the United States senate. It is an office of more than ordi-mary dignity and responsibility. Especially is it an office of importance at this fime when the question of whether the people shall rule is at stake. It is an important time to select a man who will represent the best interests of the people. Edward Rosewater has lived among you the greater

the best interests of the people. Edward Rosewater has lived among you the greater part of his life and his career is well known to you. His life has been an aggressive one, and his measures have not at all times met with your approval, neverthe-less, all of us are persunded and satisfied as to his ability, honesty of purpose and force of character. He has advocated at all times all things in the interest of the upbuilding of the state. He has shown his faith in his state and city by his works, his investments and his enterprises. Has he not earned the compliment of an election not earned the compliment of an election to the United States senate? I believe the mental equipment of Ed-ward Rosewater makes him the peer of any man in the state of Nebraska. I know that on public questions there is not a man in the state who has studied them as desniv and as commendensively as he be

Connell's Argument. W. J. Connell said that whatever the other differences might be among Omahans they were agreed that the next senutor should come from this city. In the course of his speech Mr. Conneil declared the meeting was not in any sense intended to deprecate any of the other senatorial candidates. He mentioned them by name, beginning with Senator Millard, and praised them all as men of the highest standing and integrity. But he asserted that in point of special fitness for the place Mr.

Rosewater surpassed all the other candidates. "There is no other man who is so naturally and logically a candidate for the senate," said Mr. Connell. "There is not a man for whom a Douglas county dele-

gation could go to the state convention and receive the same cordial support from the rest of the state as Mr. Rosewater. The state generally recognizes that at this particular time he possesses the qualifications to entitle him to the office. His reputation extends even across the seas and we have just learned of his accomplishments

peril it. Flodman is for Him.
