## Trade in All Lines is Dull and BARLEY-37945c. Listless. WHEAT CLOSES FRACTIONALLY HIGHER Cash Demand Seems to Be Ruling Influence in All Grains-Pair and Warmer Weather Makes Corn Weak.

OMAHA, May 8, 1806.

The wheat market was very duit, with weny have trade from the outside. In place to cearnsh foreign news there was a min reems at the start and an advance laver of about the on talk of better cash there to about the on talk of better cash the start and an advance laver of about the foreign news there was a min reems at the start and an advance laver of about the night that the figure than yesterday. The crop is progressing favorably, but its condition does not count much at present as a factor. The market has developed into a narrow, scalping affair. The cash situations is now the controlling factor.

Oats were strong. The close on May was to higher and on July the higher.

Warm and clear wearner throughout the corn belt had a weakening effect on futures and prices at the close showed a small loss. Receipts were light and cash demand strong. As it is generally expected that receipts will increase as soon as planting is over, sentiment seems to be rapidly changing to the bear side. Trade is too light to admit of anything but a scalping market.

Primary wheat receipts were 163,000 bu. and shipments of 213,000 bu. against receipts last year of 122,000 bu. and shipments of 213,000 bu. and shipments of 175,000 bu. Clearances were 33,000 bu. corn, and 34,000 bu. oats.

Liverpool closed unchanged on wheat and by the higher on corn.

The relief of the money market, the adjournment of the New York legislature and the professed belief that the congressional agitation against corporations had culminated formed the basis for the attempt to extend the speculative interest in stocks. This attempt met with some renewed obstacles in the way of realizing sales at the recovered level of prices late in the day and the market closed rather easy.

HOGS—The advance scored yesterday was fairly well maintained today, the hogs selling in about the same notches as yesterday. At the opening, however, packers were a little inclined to be bearish, their first bids being a little easier and possibly they secured a few hogs that way, but the general run was steady. In other words the hogs sold largely at \$5.30 today, the same as yesterday. There was also a eprinkling of better loads at \$6.33%, with the top at \$5.35. Some of the leas desirable nold under \$8.30. While the market opened rather slow owing to the fact that packers started out bidding lower the trade was active when once under way and all the hogs were sold by 10 o'clock in the morning.
