NIGHT FOR STAND PATTERS

Boosevelt Republican Club Holds Well
Attended Meeting in Court House.

ATTORNEY SHINN REPLIES TO CUMMINS

Senator Smith Discusses the Tariff
and Senator Saunders the
Work of the Last
Legislature.

True republicanism, from the view of the stand-patter, was liberally dispensed at a largely attended meeting of the Roosevelt Republican Club of Pottawattamie county last night. The meeting was held in the south court room of the county courthouse and it is estimated that about 300 were present.

Victor E. Bender, president of the club, presided while the speakers of the evening were Hon. Spencer Smith, Attorney Frank Shinn of Carson and State Senator C. G. Saunders.

Mr. Smith's address was devoted mainly to a discussion of the tariff question and that of protection, the latter he asserted, being the only issue now between the great parties as to the conditions of the country had wiped out all the others. Briefly referring to "progressive republicanism," he said he believed only in the tenets and principles of the grand old republican party.

Attorney Shinn paid his attention to Governor Cummins and the latter's address at the New theater Thursday night. Once during his arraignment of the governor he was interrupted by someone in the audience who charged Mr. Shinn with misquoting the governor.

State Senator Saunders confined his address to recital practically of the legislation enacted by the recent general assembly. He spoke at length on the anti-bill, which had been referred to by Judge Prouty in his speech at the Cummins meeting the night before. In concluding, he declared he would vote for John H. Packer, first, last and all the time.

Reports to Secretary Walter Knox from the country precincts showed that the club is assured of a large membership. The chair was authorized to appoint a committee of five to draft a platform and set of bylaws and constitution. The meeting adjourned subject to the call of the president.

Wentworth Tourist Released.

John Alexander, the tourist, who, with two impetuous companions, was arrested Thursday while loitering around the Milwaukee yards and passenger depot, satisfied Judge Scott in police court yesterday morning that he was not a vagrant, but a man of wealth. The fact that he had nearly \$500 in his possession in the shape of cash and certificates of deposit and his claim that he had paid his way from Bisbee, Ariz., and had not made the trip in a side door Pullman, induced the court to discharge him. The \$5 cash bond which Alexander had put for his appearance in police court, was returned to him. A. M. Barnett and R. H. Cogswell, Alexander's two companions, being without funds to demonstrate their respectability, did not fare so well and will take a few days' layover in Council Bluffs learning the art of rock breaking.

The men were arrested by Special Officer Burke on suspicion of knowing something about the breaking open of three trunks in the Milwaukee depot Wednesday night, but they were able to establish an alibi. Nothing, it is said, was taken from the trunks, all of which happened to contain women's clothing.

Big File of Hay Burns.

Three hundred tons of baled alfalfa hay belonging to the Alfalfa Meal company, which street and Tenth avenue, caught fire yesterday afternoon about 4:30 o'clock and up to a late hour last night was still burning. Fire Chief Jones gave it as his opinion that the hay, owing to the fact that it was in bales, probably would smolder for a week.

The hay was stacked in an open shed with a board roof and shortly after removed to the side of the river, its plant being located near the tracks of the Great Western railroad.

McCart Indicted for Perjury. County Attorney Hess returned home yesterday morning from Avoca, where he secured an indictment by the grand jury against A. B. McCart, on a charge of perjury. McCart was the chief witness before the grand jury last winter against Andy Sandiland, charged with setting fire to the icehouse of the Rock Island railroad. He testified that he saw Sandiland setting fire

to the structure, and mainly on his evidence Sandiland was indicted. At Sandiland's trial, however, McCart confessed that he had testified falsely and Sandiland was acquitted. Both McCart and Sandiland are well known characters in Avoca and Sandiland has served a term in the penitentiary for larceny from a building.

STUDENTS PRESENT "FINAFORE"

High School Auditorium Crowded for the Occasion.

Standing room only was the case at the high school auditorium last night when the students presented the musical comedy "Finafore" before an audience which filled every nook and corner of the large hall, and late comers were compelled to stand up. Several days ago the seating capacity was sold out and the result was that the audience last night was probably the biggest the auditorium ever held. The performance was for the benefit of the high school cadets.

The play had been rehearsed under the direction of Miss Charlotte A. Taylor of the high school faculty and the performance last night certainly did her credit. The principal parts were taken by Miss Hazel Brown, a member of the graduating class who has earned a reputation of being one of the best amateurs in this city and has appeared a number of times in Omaha at Boyd's theater as a member of Miss Fitch's dramatic class, and George Phelps, who likewise well known to Omaha and Council Bluffs audiences. Objects to the Rock Pile. James Todd of Omaha strenuously objected in police court yesterday morning to being relegated to the city rock pile for three days as a punishment for imbibing too freely of the liquor which intoxicates. Todd had applied at the police station last Thursday night, in a state of intoxication, for a night's lodging. He was accommodated with a bunk in one of the cells. When Judge Scott decided that about ten days on the rock pile would about suit his case Todd became indignant and pleaded for his liberty. "Judge, this is hardly fair to make a man break rocks just for taking a little drop too much. They would not do that to a man in Scotland. It is downright mean, that is what it is," exclaimed the man whose antics had been watched by an unsympathetic officer.

Newspapers in various sections of the state were asked today to ascertain the prices at which the different grades of oil were selling. The result was a wide variance in the figures.
