ually easing off. so that it is safely 10% 15c lower than a week ago.

HOGS—The hog market this morning was in very fair condition, both as regards supply and demand, but there was an easing off in values all along the line. The market at this point, however, suffered less than some others, being only 1½c lower. This means that the big bulk of all the hogs sold at \$8.35, as against 16.37 ½ yesterday. There was a sprinkling of sales at \$6.30 and \$6.40 with a top at \$6.45. The trade was active at prevailing prices, so that everything in sight was cleaned up in very good season in the morning.

As will be noted from the table of receipts the arrivals this week foot up about the same as last week and as a year ago, it being just about a normal run for this point. The market for the week, as a whole, has been very satisfactory to selivers. The week started out with slightly stronger prices, easing off a trifle on Tuesday and Wedneeday, but made up for it on Thursday and Friday. After allowing for the slightly lower prices to-day the market is 5c higher than the close of last week and only 15c under the high point of the year.
