TREATY ON THE RIO GRANDE

Terms of Settlement Reached by Mexico and United States for Water's Use.

SOURCE OF LONG CONTENTION REMOVED

Western Senators May Oppose Convention on Grounds This Country Should Have All Water Without Pay.

WASHINGTON, May 21.—Secretary Root, for the United States, and Ambassador Casasus, for the Mexican government, today signed a treaty regulating the use of waters of the Rio Grande, which, if approved by the senate, will remove what has been for twenty years a source of friction in the relations of the two countries.

only a fractional proportion of the whole flow.

Will Water Immense Tracts.

It is estimated that the impounded waters will suffice to irrigate about 200,000 acres of otherwise arid land and it is stipulated that of this total 90,000 feet of water, which is to make arable about 25,000 acres of land, will be delivered on the Mexican side of the border each year.

Opposition to the treaty is expected on the part of some of the western senators, who express the belief that either the United States is entitled to all of the water without compensation, in view of the great expense to which it has been put by the work of constructing the irrigating dams and canals, or that if the Mexican right is to be recognized at all its title should be bought outright by a cash payment.

CORPORATION MEN TESTIFY

Large Number Called to Let Grand Jury Find What They Know.

Monday was corporation day before the county grand jury and a large number of corporation officials and employees were examined with reference to the alleged use of money by the corporations in political campaigns. The investigation, it is promised, will be thorough and broad in scope.

the case have not been examined yet and no action will be taken until some more evidence is secured.

CROPS ALL FINE IN WYOMING

Conditions in Excellent Shape Along the Burlington, but Rain is Needed.

The Burlington crop and soil report for the Wyoming district for the week ending May 18 is out and shows everything in good condition. It says that on the Alliance division both spring and winter wheat are doing nicely, oats are somewhat retarded by dry weather, corn is planted and growing splendidly.
