CHICAGO GRAIN AND PROVISIONS

Pentures of the Trading and Closing Prices on Board of Trade. CHICAGO, May 28.—Additional rains in Kansas and Nebraska caused weakness today in the local wheat market. At the close the July delivery showed a net loss of lo. Corn was down %c. Oats were of %2%c. Provisions were a shade to 2%c

off 187%c. Provisions were a shade to 2%c tigher.

Sentiment in the wheat pit today was bearigh from the opening to the close. The main factor in the situation was wet weather in the southwest. According to the weather bureau rain had fallen during the might throughout Kansas, Nebraska and other portions of the winter wheat belt, breaking the drouth in that section of the country. The weakness was increased by a forecast of still more rain tonight. A sharp break in the price of the May delivery following the decline of yesterday also weakened prices in general. There was free selling by local longs all day and the market received its main support from shorts who covered freely as prices declined. The close was weak. July opened %61%c to %7%c lower at 82%c to 82%c, sold off to fifec and closed at 81%682c. Clearances of wheat and flour were equal to 110,300 bu. Primary receipts were 22,7,000 bu., compared with 29,000 bu. for the corresponding day one year ago. for the corresponding day one year ago.

Minneapolis, Duluth and Chicago reported
recelpts of 134 cars, against 116 cars last
week and 158 cars one year ago.

induced principally by wet weather which was general over the corn belt. Increased receipts at primary points was other bearish influence. The market clost weak and near the lowest point of the day. July opened 160% lower at 47% to 17% to sold off to 47c and closed at 47% to 17% to sold off to 47c and closed at 47% to 17% to sold off to 47c and closed at 47% to Local receipts were 392 cars with 27f cars of contract grade.

Trading in oats was active and the tone was weak. The decline in wheat and corn was the chief depressing influence. Cash houses and local longs were active sellers, while commission houses were the principal buyers. July opened 160% to 160% and 33% 173% and closed at 23c. Local receipts were 150 cars.

Provisions were slightly easier early in the day because of moderate selling of pit traders who were influenced by a 5c decline in the price of live hogs. Later the market became firmer on buying by local packers. At the close July pork was up 2% at 15.67%. Lard was a shade higher at 18.00. Ribs were up 2% at 19.62% 19.06.

Estimated receipts for tomorrow: Wheat, 6 cars; corn, 368 cars; oats, 116 cars; hogs, 25,000 head.

The leading futures ranged as follows: 5,000 head. The leading futures ranged as follows:

HOGS—Trains kept rolling in yesterday until the official count of the receipts showed 19.193 hogs at the yards, was the largest run of any day since

was the largest run of any day since
July 31, 1884, when 20.884 hogs were received, being the largest run in the histery of the yards. It will be remembered,
however, that that run was occasioned by
the great drouth of that year, so that
yesterday's receipts were perhaps the
largest legitimate run in the history of
the yards.
The heavy receipts of yesterday were
followed by another large run today, making the receipts for the three days this
week the largest of the year. The market
naturally opened a little bit slow, but 't
soon became apparent that in spite of
heavy receipts packers wanted the hogs
and it was not long before buyers and
aslers got together on a basis of a 5c
decline. The market then became active
and the great bulk of all the hogs in
sight changed hands in very good season
in the forenoon. The majority of the
stocky G8.52 yesterday.
