Sedgwick, C. J.

1. The rule that the burden of proof upon the issue of negligence does not shift during the progress of the trial, but rests throughout upon the party alleging such negligence, is based upon the better season, and well supoprted by authority, and is established in this state as the correct

is established in this state as the correct rule.

2. When it appears in an action against a common carrier for personal injury caused by the negligence of the carrier that some defect in the appliances of the carrier, or some act of its employes in the conduct of its business, contributed to the accident which caused the injury complained of, a presumption of negligence on the part of the carrier arises, and unless there is evidence against the presumption it will be sufficient to establish the allegation of negligence of the carrier.

2. It is erroneous to refuse to instruct the jury that the party alleging facts from which a presumption of negligence would arise has the burden of proving the existence of such facts.

1437. Nebraska Mercantile Mutual Insurance Company against Myers. Error, Boone, Reversed and remanded with instructions. Jackson, C. Division No. 2.

1. A preponderance of the evidence is all that is required to establish a disputed fact in a civil action, and an instruction which informs the jury that if upon any reasonable hypothesis a fact can be accounted for upon any other theory than a dishonest one, they should so find, is a violation of that rule, and in this case reversible error.

1420. Missouri Pacific Railroad Company against County of Cass. Error, Cass. Reversed and remanded. Oldham, C. Division No. 1.

1. Under section 110, chapter ixxvii, of the Compiled Statute (Cab).

In a case reversible error.

1430. Missouri Pacific Rafiroad Company against County of Cass. Error, Cass. Reversed and remanded. Oldham, C. Division No. 1.

1. Under section 110, chapter ixxvil, of the Compiled Statutes (Cobbey's Annotated Statutes, 6166), it is the duty of a railroad company to make and keep in repair suitable crossings, with approaches, notwithstanding the highway was laid out after the railroad was built. Take public authorities are required to build that part of the highway within the right-of-way which they would have been required to make had the railroad not been constructed. State ex rel Lancaster County against Chloago, Burlington & Quincy Railroad Company. So Neb., 4, 12, followed and approved.

2. Under the provisions of this section of the statute a railroad company cannot recover damage from a county for the cost of putting in cattle guards, erecting sign-posts, building wing fences, planking the track and constructing the necessary approaches at a public crossing.

2. Compensatory damages should be allowed for the land taken from the right-of-way for a public road.

4. Where, in making the proper approaches to the railroad track, it is necessary to grade through all, or nearly all, the width of the right-of-way on either side of the track, the railroad company should be allowed such sum for damages as the county would have been compelled to expend in grading the public road had the railroad never been built.

1434. Nuckolis County against Guthrie & Co. Error, Nuckolis. Reversed and remanded, with instructions. Jackson, C. Division No. 2.

1. Where water is diverted from its natural channel by means of a canal constructed and operated to supply power for a mill, it is the duty of a mill owner to erect and maintain suitable bridges for the convenience of the public at any point where the canal crosses a public road, and mandamus will lie to compel the performance of that duty.

1. Where water is diverted from its natural channel by means of a canal constructed and operated to supply

conclusively established by competent evidence.

4. The doctrine of the ostensible authority of an agent can be invoked only by such as have dealt with the agent on the faith of his ostensible authority.

5. The mere fact that one loans money to another, wherewith to buy land, gives the lender no equity in the land bought therewith by the borrower.

6. Evidence examined, and held sufficient to sustain the verdict.

7. A transcript on appeal should contain the judgment or order sought to be reversed or modified, and, in addition thereto, only such matters as may be necessary to present the rulings sought to be reviewed; to include other matters is a useless expense and tends to obscure the real questions presented.

REVIEW OF TRADE

Ample Kains Throughout Farming Region Chief Commercial Factor of Week.

WHOLESALE BUSINESS UNUSUALLY HEAVY

Distribution Responds to the Simulus of the Warmer Weather-Labor Disputes Fewer.

NEW YORK, May 25.-R. G. Dun & Co.'s Weekle Review of Trade temorrow will

Ample rains throughout the farming regions provide the most important commercial factor of the last week, large crops being essential to a maintenance of national prosperity at the maximum position recently attained. Retail trade responded to the stimulus of warm weather, lightweight wearing apparel going freely into consumption, and there is an unusually liberal volume of wholesale business for this time of the year. Mercantile collections are still somewhat irregular, but at most cities payments are improving, and the financial situation is more encouraging now that the San Francisco banks have resumed business. Manufacturing plants were well occupied and building preparations are heavy, but there are indications of a lower level for commodity quotations for the month of May. Customary summer quiet is noted in some departments, although there is less than the usual interruption and preparations are in progress for a very active fall season. Labor conditions have improved, the only new disturbances of note being locally among the painters, while the steel industry suffers less delay from old disputes.

Railway earnings thus far reported for May exceed last year's by 11 per cent and foreign commerces at this port for the last week showed gains of \$1.54,55 in exports and \$1,134,60 in imports over the movement of 1906.

Absence of interest is the feature of the Ample rains throughout the farming

and 1,134,691 in imports over the movement of 1965.

Absence of interest is the feature of the primary market for cotton goods, the lethargic attitude of purchasers being assumed in anticipation of obtaining concessions.

stimed in anticipator of cost is noted in the hide market, but there are more evidences of uncertainty and increasing efforts to restrict purchases on the part of tanners.

Failures this week were 188 in the United States, as against 211 last year, and 8 in Canada, compared with 19 a year ago.

REPORT OF THE CLEARING HOUSE Transactions of the Associated Banks for the Week.

NEW YORK, May 25.—The following table, compiled by Bradstreet, shows the bank clearings at the principal cities for the week ended May 24, with the percentage of increase and decrease as compared with the corresponding week last year:

LADSTREET'S REVIEW OF TRADE eather Conditions Cause Activity in

Wholesale and Retail Distribution. NEW YORK, May 25.-Bradstreet's tomorrow will say:

Wholesale and Retail Distribution.

NEW YORK, May 25.—Bradstreet's tomorrow will say:

Settled, bright spring weather favors the passage of large quantities of products into final consumption, as evidenced by the reports of expanded retail trade, of enlarged Jobbing re-order business and of trade at first hands in excess of the volume usual at this season of the year. Reports from the leading industries are of sustained great activity, except in some few divisions of the fuel and iron trades, where stocks curtail operations slightly. The crop situation is, on the whole, quite cheerful, the only drawback being the irregular distribution of rainfall in different districts. Fall trade, as usual, waits on crop development, but is of larger volume than ordinarily at this season, evidence that so far the agricultural prospect is for yields at least equal to those of last year, on which the wonderful prospectify of 1905 was largely founded. Prices display all their former strength, the slight upward movement in cereals being based as much on manipulation of an unwieldy short interest in the current wheat option as in the reports of crop deterioration common at this period. Reports as to collections are, on the whole, fair to good and indications of easing money are furnished in the reports of a return flow of currency from the Interior. The San Francisco banks all re-opened this week with a vastly laryer volume of money on hand than was usual or even needful and the return flow to the east from that city is already of good volume.

Activity in outdoor work, such as building, with consequent heavy demand for lumber, hardware and other materials, is still a feature, though it is worth noting that some large centers report less prospective work in view and some abatement in real estate apeculation. Hallway earnings are of the best for this season of the year, gross receipts exceeding the similar period a year ago by 15 per cent.

Husiness failures in the United States for the week ending May 24 are 4,334,373 bushels (arg

els in 1903.

Corn exports for the week are \$18,097 bushels against 1,689,706 bushels last week, 1,235,667 bushels a year ago, 232,696 bushels in 1904 and 1,178,730 bushels in 1908. From July 1 to date the exports of corn are 107,-415,800 bushels against 74,521,171 bushels in 1905, 82,531,138 bushels in 1904 and 61,379,850 bushels in 1908.

Transatiantic Record Broken. NEW YORK, May 25,-All records from Havre to New York were broken by the arrival here of the new French liner La Provence in six days, three hours and thirty-five minutes. This time broke by five hours and thirty-five minutes, the best previous record, which was also held by La Provence, and was made on its maiden voyage to New York. This is the steamer's second westward trip across the Atlantic The record was made under not entirely favorable conditions, high seas being encountered which retarded the vessel's progress on two days. The average speed was 21.70 knots an hour.

Business propositions advertised in The Hee go into the homes of the best people.

Special Train

For those who wish to attend the Christian Scientists' meeting at Boston, Mass., and any others who may wish to take advantage of the low rates, a special train of standard Pullman sleeping cars will be run through to Boston, leaving Union Depot, Omaha,
