

BUSWEEK IN SEN

Report of Committee on Panama Level Will Come Up

IT WILL BE AGAINST LOCK SYSTEM

Senator Pettigrew Will Make Speech Explaining Committee's Views.

MINORITY REPORT BY MR. MILLARD

Nebraska Senator Will Present Report Against Sea Level Project.

CONFERENCE ON RAILWAY RATE BILL

Appointment of the Conference Deputed by the Illness of Senator Tillman, Who Is Expected Back Today.

WASHINGTON, May 27.—The senate is counting on a busy week and the prospect is favorable to long workdays and few interruptions. After Monday there will be at least two appropriation bills ready for consideration, and the sea level canal bill, having been ready for consideration, which will be passed as steadily as possible. In addition, conferees will be appointed in the railroad rate bill, the nomination of the president's assistant secretary, Mr. Barnes, to be postmaster of the city of Washington, will receive attention, and the bill deposing a policy in the matter of the purchase of Panama canal supplies will be considered. The senate manifests a disposition to devote serious consideration of the canal treaty bill. When it is taken up Senator Kittredge will present in a speech of considerable length the reasons which impel the majority of the committee on interoceanic canals to report in favor of the sea level plan. It is now expected that he will speak tomorrow, and it is understood that his address will be the first of a series on the subject.

Minority Report by Millard

On Tuesday Chairman Millard, chairman of the canal committee, will present a report giving the view of the minority members in favor of a lock canal. The general plan is to press the consideration of the appropriation bills as speedily as possible. The postoffice and naval bills will be ready for consideration early in the week, but it is not yet decided which will be given preference. Both will present features that will arouse debate and it is a foregone conclusion that special attention will be given to the provision in the naval bill for a new monster ship. Conference reports on the agricultural and legislative appropriation bills will probably be made before the close of the week and it is expected that the report of the conferees on the Indian bill, which already has been presented, will be taken up early Monday.

Conferees on Rate Bill

Two matters have been waiting somewhat on the return of Senator Tillman, who has been absent in South Carolina for the last week. These are the appointment of conferees on the rate bill, and the further consideration of the Panama canal bill. Mr. Tillman is expected to be in his seat today. The rate bill conferees, of whom the South Carolina senator will be one, will be named today and it is expected that the conference will begin as soon as Mr. Tillman can conclude his work in connection with the Panama canal bill. The canal supply bill will be debated at some length and Senator Rayner will be among those to be heard on that measure.

Work of the House

Work on the sundry civil appropriation bill will be in the national house of representatives this week. This bill is larger and carries more money than any preceding sundry civil act. It aggregates will be the neighborhood of \$30,000,000. The items relate to practically every branch of the public service and consequently it has been debated at odd congressional districts. For this reason there will be a great demand on the part of members to make speeches relating to items in the bill. That this demand may be met to the greatest extent, there will be every effort to confine general debate strictly to the measure. Chairman Tawney estimates that it will require fully a week to consider and pass the bill. It will not be reported from committee until Wednesday and may not be taken up until Thursday.

Legislation for the District of Columbia

Legislation for the District of Columbia will be in the national house of representatives this week. It is in the bill to finish the diplomatic and consular bill Tuesday, and if time remains to continue the consideration of the naturalization bill. This measure, it is believed, can be passed with one full day of consideration. It has been debated at odd congressional districts for several weeks and about all the speeches relating to it have been made. The controversy between the pure food and the immigration bills, which has been looked for whenever the next vacant moment overtook the house, will follow the completion of the naturalization bill. It is planned that no adjournment will be taken for the observation of Decoration day Wednesday.

Democrats Will Pillbox

The democratic filibuster to emphasize to the country that no progress is apparent on the statehood agreement is consuming considerable time in the house. Roll calls to determine the presence of a quorum have begun each day's session with few exceptions, and Minority Leader Williams announces his intention, encouraged by a "round robin" from his colleagues, to continue these roll calls. The statehood conference announced that an agreement on that measure is in sight and may be reported during the week. The conference report on the legislation, executive and judicial appropriation bill will be acted upon on Tuesday.

Events Abroad

Spain will be given a queen on Thursday, when King Alfonso of Battenberg, niece of King Edward of England, will be married to King Alfonso of Spain. The ceremony will take place in the old church of San Jeronimo in Madrid and the state ceremonies and fetes will occupy all of this week and until June 3. Princess Ena has found the heart of the Spanish monarch and the marriage is regarded by all classes with the greatest enthusiasm. At the twelfth annual meeting of the Lake Mohonk conference on international arbitration, which will be held at Lake Mohonk, N. Y., May 29 to June 1, Colonel John W. Foster, former secretary of state, will preside and addresses will be made by Congressman Bartholdt of Missouri, Cardinal Gibbons, Clifton R. Breckinridge, Benj. F. Trumbull and others. The Hague conference, the Rio Janeiro conference and topics of a like nature will be discussed. One session will be devoted to educators (Continued on Second Page.)

BALLOON AS MOTIVE POWER

Austrian Engineer Carries People Over Mountains Otherwise Inaccessible to Vehicles.

ENVEVA, May 27.—(Special Cablegram to The Bee.)—An Austrian engineer, Herr Jenuer, of Salzburg, has been experimenting with much success in the mountains near Salzburg with a novel balloon railway.

It consists of a large captive balloon attached to a single steel rail, which is turned in a fixed firmly to the side of a steep mountain, whose precipitous slopes no other form of railway could climb without making a tortuous serpentine detours and passing through tunnels. The balloon remains balanced in the air about ten yards above the rail to which it is attached by a stout wire cable, and it is moved up and down the side of the mountain at the will of the engineer. For the ascent the balloon itself furnishes the lifting force by means of hydrogen; for the descent a large reservoir attached to the balloon is filled with water at the highest station, and serves as "ballast."

Under the balloon is a circular car, seating ten persons. The wire cable from the balloon passes through the floor of the car to a speed regulator underneath, which is controlled by the engineer.

Herr Baldensauer has made dozens of ascents, both alone and with the car filled with people and has never had an accident. The inventor claims that the balloon railway will replace funicular railways in the future. It is cheap to construct and the sensation while traveling is delightful. The passengers are whirled up thousands of feet in a few seconds, without the slightest jolt. The balloon can be instantly released in case it becomes unmanageable and an automatic brake keeps the car under control.

OPIUM TRADE IS SCORED

British Subjects Criticize Government for Permitting Drug on People of China.

LONDON, May 27.—(Special Cablegram to The Bee.)—The annual meeting of the Society for the Suppression of the Opium Trade, just held at the Caxton hall in London, draws attention once again to one of the most serious blots on the reputation of the British empire.

The Indian government has a monopoly of the cultivation of opium, out of which it makes an annual profit of \$20,000,000 from the opium eaters of China. Yet in this country opium is scheduled as a poison. In Japan its sale and use, except for strictly medical purposes, are rigorously prohibited. The United States is abolishing it in the Philippines. Australia will not allow it to be imported, and the Chinese statesmen regard the opium habit as one that threatens the Chinese race with destruction. In this matter England is charged with guilt, for not only does she permit and even encourage the traffic, but she actually went to war with China in 1840 over it. In 1885 a British opium commissioner reported that the Indian government might, as well as anyone else, do better than to permit the traffic. Recent reports show that Siganandi was very sanguine of obtaining Siganandi's assistance, but now several of Siganandi's head men are urging him to abandon Bamba. The rebels were all "doctored" before the fight, hence the desperate character of their charges, which they believed themselves invulnerable. The brave losses they sustained have greatly undermined the prestige of the witch doctors who accompany Bamba and on whom the rebel leader has hitherto shown great reliance. The rebels have lost the kraal of the loyal native chief, Tulwan. A column is out to punish the rebels. A skirmish with them took place, resulting in the recapture of the cattle of the loyal chief and the burning of various kraals of the rebels.

CETEWAYO'S GRAVE AS CAMP

Belligerent Zulus Concentrate and Await Clash with the Forces of Natal.

DURBAN, May 27.—(Special Cablegram to The Bee.)—Bambata, Dunyana and N'Dunanga, Siganandi's principal sons, are each in command of impi, and each has a separate camp near Cetewayo's grave, where they have erected temporary huts. The shell fire has had a marked moral effect in frightening the waverers among the rebels, and the older men are now repudiating the cause of the younger. Recent reports show that Siganandi was very sanguine of obtaining Dinsiguli's assistance, but now several of Siganandi's head men are urging him to abandon Bamba. The rebels were all "doctored" before the fight, hence the desperate character of their charges, which they believed themselves invulnerable. The brave losses they sustained have greatly undermined the prestige of the witch doctors who accompany Bamba and on whom the rebel leader has hitherto shown great reliance. The rebels have lost the kraal of the loyal native chief, Tulwan. A column is out to punish the rebels. A skirmish with them took place, resulting in the recapture of the cattle of the loyal chief and the burning of various kraals of the rebels.

MULLAH GETTING MAD AGAIN

Objects to Action of Italian Officer, Who Has Narrow Escape from Death.

MILAN, May 27.—(Special Cablegram to The Bee.)—According to a letter from Aden, published in the Corriere della Sera, the Italian consul general, Signor Pestalozzi, has had an interview with the Mullah Said Mohammed Abdullah. He was accompanied to the camp of the mullah by two officers and an interpreter. The mullah was in a very indignant mood and used insulting language, calling the consul a "traitor" for having induced him to lay down his arms after he had been driven from English territory and had been accompanied to the camp of the mullah by two officers and an interpreter. The consul refused the mullah's statements, whereupon he was attacked by several fanatics with spears and knives. Had it not been for the intervention of the mullah himself the consul would undoubtedly have been murdered.

DAMAGE FOLLOWS THE X-RAY

Austrian Professor Forced to Pay for Injuries Received by a Patient.

VIENNA, May 27.—(Special Cablegram to The Bee.)—Dr. Holanoch of the Vienna General hospital, has had to pay \$1,600 for giving a patient an overdose of Roentgen rays. Herr Hass of Vienna consulted the specialist, Prof. Lang, about a skin disease on his back in 1902, and was sent by him for treatment to Dr. Holanoch, who is the chief of the Roentgen department in the hospital. Herr Hass was so badly burned that he nearly lost his life and had to be in bed for almost a year. He brought an action against both of the doctors, submitting that the effect of the Roentgen rays was not sufficiently understood in 1902 to justify their use for medicinal purposes. The court acquitted Prof. Lang.

CZAR'S GOVERNMENT IN PANIC

Challenge from Government Causes Consternation in Royalist Circles.

LOWER HOUSE BURNS ITS BRIDGES

Its Action Makes It a Revolutionary Body in Eyes of Law and Next Step is Breathlessly Awaited.

ST. PETERSBURG, May 27.—With breathless anxiety society awaits the government's response to the bold action of the lower house of Parliament Saturday, which is censuring the ministry and demanding its retirement, was like a demolishing sledge in the face and a direct challenge which the government, though it would prefer its usual policy of temporization and compromise, can hardly avoid meeting. Parliament has burned the bridge and virtually has taken the step which the French states general did when it transformed itself into a national convention.

By flouting the fundamental laws and practically declaring that it proposes to exercise full parliamentary rights with a responsible ministry, it has become in the eyes of the law a revolutionary body, and from that position there seems no retreat. The news of the action of the house came as a shock, the people generally being as greatly surprised as the bureaucracy at the promptness with which the whole of the government's policy was absolutely scorned. Both sides recognize the acuteness and seriousness of the moment, but panic is in the government and in the popular camp.

FISH STORY FROM ABERDEEN

Pools Formed by Friday's Rain Literally Swarming with Minnows.

ABERDEEN, S. D., May 27.—(Special.)—Aberdeen people were astonished when they stepped out of doors Friday morning to find the water which was standing everywhere in pools on account of a heavy downpour of rain all the night long to be literally swarming with fish. The specimens were all exceedingly diminutive, the largest measuring possibly two inches in length, and there were thousands of them in different parts of the city where pools of water stood from the rain. Many residents gathered up some of the fish, placing them in basins for preservation as curiosities. They are all exceedingly lively and promise to live and grow.

Local Men of a Scientific Turn of Mind

At a loss to account for the strange visitation of minnows to the city, the scientific men of the city have gathered up some of the fish, placing them in basins for preservation as curiosities. They are all exceedingly lively and promise to live and grow. Local men of a scientific turn of mind are at a loss to account for the strange visitation of minnows to the city. MYSTERIOUS DEATH OF BOY SOLVED

Son of Edward Anderson Accidentally Shot Himself with Brother's Rifle.

MOBILE, Ala., May 27.—During a ball game in an open field three miles from this city this afternoon a thunderstorm came up accompanied by vivid lightning, which struck in the midst of the crowd of spectators, instantly killing five and injuring some twenty-five more or less seriously. The death of a young boy, the son of Edward Anderson, was one of the most mysterious. The boy was shot in the head by a bullet which he had fired from his brother's rifle. The boy was shot in the head by a bullet which he had fired from his brother's rifle. The boy was shot in the head by a bullet which he had fired from his brother's rifle.

Press Taken Pessimistic View

He Presses Optimistic View, is Pessimistic, recognizing the extreme gravity of the situation and the tempest which the denial of the right of forced expropriation of land will provoke among the peasantry.

Talk of New Cabinet

LONDON, May 27.—The Times' St. Petersburg correspondent thinks that the imminent resignation of General Griaznov, chief of Finance Shipoff is clearly indicated.

Bombs Thrown at Titlis

TIFLIS, May 27.—(Special Cablegram to The Bee.)—The chief of Police Partinoff were driving today bombs were thrown at them. Neither was injured, but a Cosack, belonging to their escort was killed. The crime was committed in the center of the town, a few rods from the scene of the assassination of General Griaznov, chief of staff of the viceroy of the Caucasus, who was killed by a bomb explosion January 20 last. General Timonoff and Chief of Police Partinoff were riding in separate carriages. They were on their way to attend the anniversary of the coronation of the cathedral. Two bombs were thrown simultaneously, one of them falling to explode. Chief of Police Partinoff, who was riding revolver in hand, shot and killed one of the terrorists, but the other escaped. The city is agitated, fearing an armed outbreak.

Eleven Killed at Sebastopol

SEBASTOPOL, May 27.—Several bombs were thrown here today while a review of troops was being held after the triumph in celebration of the anniversary of the emperor's coronation. Three persons were killed and several wounded. Among the wounded was the commander of the artillery, General Neplueff, who received slight hurts, and the chief of police, who was gravely injured. Other dignitaries escaped. Vice Admiral Choukain, commanding the Black sea fleet, who is a special subject of the emperor's reverence, was not present. Two of the bomb throwers were arrested. ST. PETERSBURG, May 27.—Dispatches received here concerning the bomb outrage during the review of troops after the celebration of the anniversary of the emperor's coronation at Sebastopol today say that eleven persons were killed, including the commander of the artillery, General Neplueff, and that over 100 persons were injured. The dispatches also say that four arrests were made.

NEW TOWNS ON NORTHWESTERN

PIERRE, S. D., May 27.—(Special.)—Articles of incorporation were filed today for the Port Pierre State bank at Port Pierre, with a capital of \$10,000. Incorporators: Charles D. Goldsmith, Sec. City, Ia.; D. Goldsmith, F. R. Strain, Salem, N. J.; Brookman, Spencer; Fred S. Rowe, Charles J. Lavery, John Hays, Port Pierre. For the White Lake State bank at White Lake, with a capital of \$20,000. Incorporators: I. W. Seaman, Mitchell; G. A. Rogers, A. W. Closson, A. A. Closson, E. C. Lyle of White Lake.

KEROSENE AND CARELESSNESS

Combination that Came Nearly Proving Fatal to Three Persons at Aberdeen, S. D.

LID GOES ON IN LOUISVILLE

All Saloons and Places of Amusement in Fall City Are Closed.

POLICE STOP BASE BALL GAME

Presidents Tebeau and Grillo and All the Players Arrested and Park Is Ordered Closed.

LOUISVILLE, Ky., May 27.—Scores of corner pumps with the handles removed and signs derisively announcing "closed," "it's sinful to drink on Sunday," brought home to early rising householders in many sections of the city the fact that Louisville today was for the first time in many years dry as a bone. As the day wore on it was seen that the state and city authorities were in dead earnest about putting on the lid. The streets and cars were filled with solemn Sabbath loungers drifting from one point to another vainly seeking the amusements and conveniences to which they have been accustomed. The absent-minded ones were easily discernible by the growth of beard which they had expected to have removed, not thinking to find that beard gone.

Only One Resort Open

Every place in Louisville and Jefferson county where intoxicants are sold was, with one exception, closed tight. The exception was a park enclosed by a Hebrew, who observed Saturday as the Sabbath. He was arrested and will be tried, but is not expected to be convicted.

Ball Game Is Stopped

The ball park was crowded with spectators when the game between Louisville and Toledo was called, but after half an inning had been played the police arrested President Tebeau of Louisville, President Grillo of Toledo and all players and employees. Although bond was promptly given, the park was ordered closed and resumption of play was not permitted.

Lid Comes Off at Kokomo

KOKOMO, Ind., May 27.—Two puritanical Sundays were enough for Kokomo. This morning every drug store, restaurant, ice cream parlor, saloon and cigar shop was open for business and remained open all day. Constable Welty arrested fourteen shop keepers, each giving bond and remaining open. The Sunday closing crusade is backed by the saloons, which were closed several weeks ago.

FIVE KILLED BY LIGHTNING

Bolt Strikes in Midst of Crowd of Spectators at Ball Game Near Mobile.

MOBILE, Ala., May 27.—During a ball game in an open field three miles from this city this afternoon a thunderstorm came up accompanied by vivid lightning, which struck in the midst of the crowd of spectators, instantly killing five and injuring some twenty-five more or less seriously. RECOMMENDATIONS FOR CONGO

Reform Committee Tells What is Necessary for Advancement of Free State.

BRUSSELS, May 27.—(Special Cablegram to The Bee.)—The Brussels Patriote is responsible for the following summary of the recommendations of the Congo reform committee: (1) Reinstatement of natives in possession of the soil actually occupied by them according to the original decrees of concessionary companies where natives can establish a legal title to the land; (2) a progressive currency system and freedom of trade in rubber on the right bank of the river above Stanley's Falls; (3) abolition of forced labor in villages where natives work for a salary; (4) modification in other local regulations until Belgium has annexed the Congo, with various modifications to secure a fair rate of remuneration; (5) abolition of flogging with the "chicotte," of the taking of hostages and of the confiscation of property, and regulations prohibiting entries to carry arms; (6) modification of the laws regulating concessionary companies, of which the chief is that the state can no longer be a shareholder in any trading company; (7) organization of medical aid and the establishment of hospitals; (8) separation of the judicial and administrative departments; (9) abolition of the number of magistrates and the creation of two new courts of appeal, of which one shall be at Stanleyville; (10) nomination of a secretary of state, three under-secretaries and a treasurer general.

Charge of Criminal Libel

BIQUE FALLS, S. D., May 27.—(Special.)—Articles of incorporation were filed today for the Port Pierre State bank at Port Pierre, with a capital of \$10,000. Incorporators: Charles D. Goldsmith, Sec. City, Ia.; D. Goldsmith, F. R. Strain, Salem, N. J.; Brookman, Spencer; Fred S. Rowe, Charles J. Lavery, John Hays, Port Pierre. For the White Lake State bank at White Lake, with a capital of \$20,000. Incorporators: I. W. Seaman, Mitchell; G. A. Rogers, A. W. Closson, A. A. Closson, E. C. Lyle of White Lake.

Farmer Dies of Blood Poisoning

BIQUE FALLS, S. D., May 27.—(Special.)—John H. Nicholls, a prominent Charles Mix county farmer, is dead as the result of a slight injury to one of his fingers. The injury was so slight that no particular attention was at first paid to it, but blood poisoning developed and after being in the greatest agony for several days death put an end to the unfortunate farmer's suffering. He was a native of Kentucky, was 73 years of age and is survived by a widow and six children.

NEBRASKA WEATHER FORECAST

Fair and Warmer Monday and Tuesday.

Table with 4 columns: Hour, Deg., Hour, Deg. showing temperature forecasts for Monday and Tuesday.

CHINESE MINISTER IN OMAHA

Sir Cheung Liang Cheng on His Way from San Francisco to Washington.

Sir Cheung Liang Cheng, the Chinese minister at Washington, the secretary of the legation, Mr. Chow, spent a few minutes last evening seeing Omaha from the end of a Pullman car attached to the Overland Limited train. Sir Cheng and Mr. Chow were on their way back to the city after a capital visit in western Nebraska. He had a gracious presence and puts his visitor at ease in an instant, yet carries in his bearing the suggestion of Celestial distinction.

In the few moments left before the departure of his train for the east last evening, Sir Cheng discussed the condition of the Chinese in San Francisco, and to the general Chinese minister made for his government a complete investigation of the condition of his countrymen in the stricken city. The Chinese minister is a most agreeable man, with a splendid command of English, and is evidently well versed in western ways. He has a gracious presence and puts his visitor at ease in an instant, yet carries in his bearing the suggestion of Celestial distinction.

MASS CELEBRATED ON PALACE LAWN

After Attending the Pluresse Service Alfonso and Ena Go for Long Automobile Ride.

MADRID, May 27.—The first notable act of Princess Ena of Battenberg since her arrival in Spain to become the bride of King Alfonso XIII has been to induce the king to pardon Ferdinand Leveza, who was condemned to death after an exciting trial. The dramatic circumstances under which pardon was given, as the condemned man was going to the gallows, attracts widespread attention and further augments the popularity of Princess Ena.

OPENING DAY AT LAKE MANAWA

Business Starts Well in Spite of the Unseasonably Cold Weather.

Manawa was thrown open to the public yesterday for the season. In spite of the frosty weather about 3,000 people journeyed to the lake Sunday afternoon and evening to see what changes had been wrought. Many of these would have been taken in charge for being of the verge of foolish. The air was about 40 and the wind made it appear twice as cold. Boating, too, was not in favor, nor did the balloon go up, nor was the penny arcade, which is to go in front of the entrance to the park and is 450 feet longer than any which has hitherto been built in the west. But eight cars were used last night and these could not handle the people. Some thought the merry-go-round would die a natural death when the coaster was built, but it is now in readiness for the large crowds which the warmer days will bring forth.

SCOTCH WEAVERS FALL WHILE PEOPLE THINK THEY ARE BUYING THEIR GOODS

GLASGOW, May 27.—(Special Cablegram to The Bee.)—At the annual meeting of the South of Scotland Chamber of Commerce Mr. J. F. Williamson, the president, touched on the state of the Scotch tweed trade, saying that though this might be a record year he was rather pessimistic as to the future. He expected his official view while drinking a toast to the officials. Addressing King Alfonso the premier said: "Sir, you have brought us a treasure. May it please God to make us worthy conservers of it."

IRISH LEADER IS CRITICALLY ILL IN DUBLIN HOSPITAL AND END IS EXPECTED AT ANY TIME

DUBLIN, May 27.—A. M.—The condition of Michael Davitt is extremely critical; he is hardly expected to survive the night. After steadily improving during the last week, Mr. Davitt had a serious relapse Sunday. He maintained his ground during the day, but at night his condition grew worse. Three doctors are in attendance on the patient.

THREE DROWN NEAR CHICAGO

Members of Party Retaining from a Picnic on Des Plaines River Rock the Boat.

CHICAGO, May 27.—The overturning of a rowboat in the Des Plaines river near Willow Springs, twenty miles south of here, resulted in the drowning of Charles Saenger, Robert Heiden and Albert Brunk, all of Chicago. This afternoon, Miss Mary Rigney and Samuel Goldstein, who were also in the boat, were rescued. The bodies of Heiden and Brunk were not recovered. The party had attended a picnic. They rocked the boat, causing it to capsize.
